NO OTHER CORPORATION HAS ANY INTEREST IN THE NEW TROLLEY LINE

Gen. Asa W. Jones Indignantly Repudiates Insinuations That His Company Intends to Sell Out.

General Asa W. Jones, president of the Youngstown & Southern Railroad company, was in town last evening in the interest of the project and talked interestingly and enthusiastically of its prospects. His attention being called to articles in an irresponsible East Liverpool publication which, with much waste of words, has been trying to throw doubt on the sincerity and good faith of General Jones and his associates, he said:

"The Youngstown & Southern will be built. You can set that down for a fact. It will not be built for sale, but for use. Nobody but the officers of the Youngstown & Southern have any interests in the franchises or th erights of way which we are asking and obtaining.

"No other company or persons have any interest, either present or prospective in onr line. Neither have we any interest in any other line, or any desire to shut any other lines out of this city.

"What the Wabash railroad's plans may be or what plans the promoters of other trolley projects may have we know not. We do know, however, that we have the rights of way for our road practically all secured with the exception of a portion of the distance between Leetonia and Lisbon, and the reason rights have not been secured there is because it has not been definitely decided which of two routes will be followed.

"Any one who will take the trouble to consult the Bloomfield Land company, of East Liverpool, from which we have obtained valuable rights, will discover that our agreement will not permit us to hawk our franchise. A written agreement has been etered into between the officials of the road and those of the land company which stipulates that the rights cannot be transferred; if they are they revert to the owners of the land. In this agreement also the date is set for commencing work within a year.

"Work will surely be started as soon as the weather will permit in the spring. The first step, of course, will be to provide for building the power houses.

"Another evidence that we mean what we say is that before undertaking this road I secured extensive leases of coal land in the North Lima field, and all these leases become void unless a railroad is built there by us.

"You can set it down as a fact that any company which proposes to obtain

ENFORCEMENT OF LAW DEMANDED

Street Railway Operatives Appeal to Trades Council Regarding Better Car Vestibules.

The street car operatives have appealed to the Trades And Labor Council to have the state laws concerning vestibules on the cars enforced. All the cars are provided with vestibules, but very few afford complete protection from the elements, as the law contemplates. The operatives' union, No. 52, appointed a committee some time ago to take the matter up with the management of the road, but as yet there have been no results. The Trades and Labor Council took the matter under advisement at its meeting last night and will stand behind the car men in their demand.

The soliciting committee for the co-operative store reported that 418 of the 500 shares had been taken and the success of the enterprise seems assured. The committee will continue soliciting for some time yet.

The meeting was called to order by Secretary Reark, in the absence of President McConnell. U. G. King, of Typographical union, served as president pro tem.

TERM OF COURT A RECORD BREAKER

ABOUT 150 CRIMINAL AND 300 CIVIL CASES DECIDED.

Grim's Bridge Cutting Cases to Come Up Next Monday—Court Notes.

Lisbon, December 18.—(Special)—When court adjourned yesterday afternoon the jury was excused until next Monday at 1 o'clock.

The criminal cases of the state of Ohio against Albert McIntosh and George Mayes were set for hearing at that time. Both men are under indictment for participating in a cutting affray at Grim's bridge.

January 2 has been set for hearing all motions for new trials for the present term of court. Demurrers will also be heard on that day.

The present term of court has been a record breaker in the amount of business disposed of. About 150 civil and nearly 300 criminal cases have been passed upon.

Judge Hole will be in Youngstown next Saturday to hear a motion for a new trial in the case of Ohio vs. Raymond Scott, alias Cleveland Smith. Probably the judge will then hand down his decision in the Evans case which was tried before him there last Saturday.

BRICK AND TILE BUSINESS IN OHIO

Labor Commissioner Ratchford's Interesting Statistics on the Industry's Growth.

Columbus, December 18.—(Special.)—State Labor Commissioner M. D. Ratchford has adopted a plan which is an innovation, to secure the publication of his annual report. Realizing that it would be impossible for the papers to print his report in full were it issued in entirety at one time, he gives it out in sections at intervals of several days. Each section contains statistics on certain industries, summarizing the output, number employed, capital invested, wages paid, etc. Yesterday afternoon he issued a statistical exhibit showing the returns made to his department by brick and tile manufacturers.

Reports were received from 222 establishments employing 8,981 males, 363 females and 465 managers, officei helpers, etc. The capital invested amounts to $18,306,169 and the value of the manufactured product is $6,167,273.64. The value of goods sold was $8,762,722.33, and the value of materials used was $1,792,310.73. Value of manufactured goods on hand at end of year was $1,797,081.73, and of materials on hand $422,813.25. Amount paid in wages for labor $3,530,686.98; amount paid managers, office help etc., $434,530.96. Number affected by advance in wages, 2,840. Average per cent advance in wages, .12. Only 29 establishments reported in 1900, making the increase for 1901 193.

Officers Installed.

Josiah Wedgwood lodge No. 235 met last night in Fowler hall and installed their recently elected officers. The ceremonies were attended only by the members of the lodge. The following were inducted into office: John Rigby, president; Albert Townley, vice president; A. C. Townley, secretary; Geo. Hall, treasurer; John Bowers, assistant secretary; Thomas Winstanley, messenger; George Neal, assistant messenger and Robert Williams, trustee.

MAYOR APPOINTS CHIEF OF POLICE

Code Expert of the Attorney General's Office Thus Decides Issue Raised.

SCHOOL BOARD ELECTION STILL A PUZZLE

Still Something of a Puzzle, Though the Secretary of State Laylin Holds That the Old Law Will Apply. Capital News

From a Staff Corespondent.

Columbus, December 18.—The question of who is to appoint the chief of police under the code, raised by Solicitor McGarry, of East Liverpool, was propounded to Smith Bennett, code expert of the attorney general's department, yesterday, and his answer was that the mayo appoints and council confirms. The ode states that the chief shall be appinted from a classified list, but in te absence of such a list, according to Mr. Bennett's opinion, the mayor shal make a temporary appointment until he is available. The chief of the fire department is appointed similarly.

Another puzzling question has been raised over the passge of the municipal code. As no provision is made by the law for the election of school board members, Wade Ellis, of Cincinnati, who had a hand in the formation of the code, says the only way out of the difficulty is to omit the regular school board election next spring and permit the old members to hold over until the following spring, by which time the legislature will have enacted remedial legislation.

Judge Alread, chief clerk in the office of the secretary of state, stated to the representative of this paper that Secretary of State Laylin had held that school board members should be elected next spring under the present laws. His position is that where the code does not specify therwise, the old laws should be observed as in the past regardless of the constitutionality. The supreme court has tacitly consented to this. Although the school laws are unsound the court would not knock them out before the legislature had an opportunity of replacing them with valid acts.

COSHOCTON POTTRY NOW INCORORATED

I. Bentley Pope, President of the Concern, Capitalized at $125,000.

The Pope-Gosser China company, capital $125,000, of which 00,000 has been subscribed, has been chartered in New Jersey to operate the new pottery to be built at Coshocton. It is expected that the plans will be changed for a larger plant than the one first contemplated.

The directors of the company are I. Bentley Pope, H. B. Pope, John M. Pope, C. F. Gosser, C. B. Hu and S. M. Williams. The directors representing the common stock are B. Pope, H. B. Pope, C. F. Gosser an C. B. Hunt, and the preferred sto is represented by John M. Pope a S. M. Williams.

I. Bentley Pope is preside of the company; H. B. Pope, vice esident, and C. F. Gosser, secretary a treasurer.

DRUMMER BOY ABLY PRESENTED

Amateurs Played Like Professionals Before a Crowded House Last Night.

A FINE INTERPRETATION

Of the Great War Time Play Surprised And Delighted All Who Witnessed It—All the Roles Well Acted—Features of the Play.

The popular drama, "The Drummer Boy, or the Spy of Shiloh," is not a new piece in this city, but its production at the Grand by home talent last night, was so far superior to any previous effort that one could scarcely recognize the play. The house was packed.

Harry C. Nail, who takes the part of Martin Howard, leading man, has been brought up with the play and his interpretation of the character is almost perfect.

The principal old-man character was in the hands of F. G. Croxall, who has on several occasions played the part with unusual ability.

Perhaps the strongest and most difficult part is that of Frank Rutledge, portrayed by W. R. Dawson, one of the best known and most popular members of the local camp of Sons of Veterans. Mr. Dawson displays rare talent in the villain character.

W. H. Surles has handled the part of Harry Howard on a number of occasions, and his work is always appreciated. Mr. Surles' solo in the second act is especially fine.

Johnny Howard, the drummer boy, was entrusted to Miss Nina Kinsey, one of the most charming little ladies in the city. Her ready conception of every detail of the part assigned her and the manner in which she enacts the difficult role, at once captivated the large audience and made her a general favorite.

It has been conceded that there never was a better old-man character turned out in the city than William Hackworth, and his work last night did not fall short of the usual excellence of the past.

W. A. Davis has the difficult part of General Grant and played it in an excellent manner.

"Fatty" Smith is pronounced one of the finest parts ever created, and Jacob Shenkel portrayed it to perfection. Mr. Shenkel is a German dialect artist of rare ability, and he with his awkward squad kept the audience convulsed with laughter at every appearance.

A. F. Nail, for the first time in this city, played the part of Uncle Joe, and demonstrated that he is one of the best black face artists in the business.

The lady characters had been placed in competent hands. Mrs. W. W. Hamilton displayed much talent in the part of Mother Howard, and the interest taken by her in the success of the affair has gone a long way toward encouraging the other members of the cast.

Miss Lottie Smith distinguished herself in the character of Mrs. Mart Howard and supported Mr. Nail in a pleasing manner.

The part of Jennie Howard was taken by Miss Margaret Hamil. Dur-

DROPPED DEAD UPON THE STREET

Sudden Demise in Texas of a Man Hailing From East Liverpool.

HIS NAME WAS A. C. SNIDER

He Had a Brother-in-Law Named Williamson Who Is Known Here, But Nobody Appears to Have Any Recollection of Snider.

An account of an East Liverpool man's sudden death in Texas is given in the following letter:

"Texarkana, Tex., Dec. 16.

"Postmaster, East Liverpool, O.

"Dear Sir—On the night of December 13, 1902, a man fell dead in the streets of our city. On his person was found a memorandum book on which was written: 'My name is A. C. Snider, East Liverpool, O., care of Joseph Williamson, my brother-in-law, the dry goods man.' His body was turned over to an undertaker and he telegraphed to the Williamson, of the above address, but could not find him. If you know anything of Snider or Williamson, will you kindly give me all the information you can. If you can't give me any information, please hand this to some officer who will investigate and answer my letter. He had only 10 cents on his person. He was buried in the paupers' field. Would be pleased to hear from you. Yours respectfully,

"W. A. HARGETT,

"Deputy Sheriff of Bowie County."

The letter was received last evening by Postmaster Surles and turned over to Chief Thompson. He immediately made an investigation, but has been unable to throw any light upon the matter.

A News Review reporter, by careful inquiry discovered that Joseph Williamson, who in all probability is the man alluded to in the memorandum book, lived in this city for a number of years, but is now located at Columbus. He was in business in the Diamond at the store room now occupied by Frank, Shumaker & Co. Seven years have elapsed since Williamson left the city, and though he moved to Columbus, living, however, a year or more at Springfield before settling there, it is not known whether or not he still lives there. Older residents of the city remember distinctly of Mr. Williamson's business career here, but none of them can remember anything of a man named A. C. Snider.

Chief Thompson will delay answering the letter until further investigation is made, but he has little hopes of locating any one knowing the deceased.

GRANTED A DIVORCE ON CRUELTY CHARGE

Court Relieves Mrs. Susan M. Hopkins of Unpleasant Matrimonial Ties.

Lisbon, December 18.—(Special.)—Susan M. Hopkins has been granted a divorce from William E. Hopkins and her maiden name, Susan Ward, restored. The petition recited that they were married December 25, 1898, and alleged that her husband was a habitual drunkard. Extreme cruelty was also charged.

It is alleged that on October 4 last the husband struck the woman in the face and knocked her against the side of the porch, her face being badly bruised and her arms and side made black and blue. The husband also threatened more violence and she left him and has not lived with him since. With her divorce $300 alimony was allowed, the husband being the owner of considerable property.

Missionary Society.

The Women's Missionary society of the First Presbyterian church yesterday afternoon held a meeting of unusual interest at the church. A program had been arranged which added still more to the pleasure of the meeting. Mrs. Mills Bennett read an excellent paper on "The Mountaineers," while Mrs. Gipner and Mrs. Wyllie took for their theme "Syria" and wrote elaborately on the subject.

To Reformatory And Asylum.

Lisbon, December 18.—(Special)—Sheriff Leonard took Ernest Phillips, of Salem, to the Mansfield reformatory today and Deputy Davidson accompanied him as far as Massillon having in charge Joseph Bratt and Frank Halderman, who had been committed to the asylum.

MANUFACTURING POTTERS MOST EARNESTLY DESIRE FIXED SCALE OF PRICES

Not Higher Rates, But Maintenance of Rates the Avowed Object of the Pittsburg Meeting.

The stupendous task of bringing all the manufacturing potters of the United States into an agreement that will put an end to the price cutting that has proven so disastrous in the past six months was still far from completion this morning. The plan and scope committee of the United States Potters' association, in conjunction with many prominent manufacturers, which was in session at Pittsburg, all of yesterday and far in to the night. At the close of last night's session D. E. McNicol, president of the D. E. McNicol Pottery company, made the following statement:

"We are here to carry out the plan forming for several months. We do not want the mistaken impression to get out that we are attempting to raise the prices on pottery—we are simply trying to find a means to maintain the prices established last year.

"During the year we have been unable to get these prices on account of the condition of the business in general. There has been a continual opening up of new plants, each with its own scale of prices. The United States Potters' associaion has been unable to get them in line as fast as they were established.

"Now we feel that they are all in shape to enter the agreement and we feel that we can maintain that price, which, by the way, most of the old-established potteries have been maintaining during the year. The old rivalry between the east and the west, as represented by Trenton, N. J., and East Liverpool, is a thing of the past and we are now all working in perfect harmony for the welfare of the trade."

The work was resumed again this morning and may not be finally adjourned until tomorrow.

It is proposed, under the supervisor of the present organization to form "The Pottery Association of America," to govern all sales and pay the rebates on purchases. The plan contemplates the division of ware into premium and non-premium goods. The business will be administered by an executive committee, divided into two sections, meeting monthly in this city and Trenton, N. J.

According to the plan proposed by the associations' committee, all sales will go through the new association. A forfeit will be put by every member of the compact for violation of its terms.

WHARF PAVING IS NOW PROMISED

Captain Martindill Will Undertake the Necessary Work With the City's Consent.

The public wharf, which has for years not only been an eyesore but a detriment to the city in many ways, owing to its filthy, rocky and unkempt condition, is to be repaired, paved and made one of the finest which adorns a river front between Pittsburg and Cincinnati. Wharfmaster Gus Martindill has made the proposition to do the work and the only barrier that can prevent its early commencement will be unfavorable action of council, which is not in the least anticipated.

Captian Martindill, a short time after purchasing the wharfboat, readily became acquainted with the needs of a wharf and decided that he would, if possible, prevail upon council to improve it. Circulating a petition among the manufacturers and business men he had no difficulty in securing the signatures of a hundred or more who expressed personal wishes that council take action on the matter. The petition was presented to the council-manic body and was looked favorably upon by every member, but the action was delayed as a result of the city engineer not being able to exactly designate the portion of the wharf that belongs to the city.

Council did not wish to hastily take up that work, especially when in ignorance of this fact, and the engineer and solicitor were ordered to make an investigation and render a report. A visit by them to Cleveland and an inspection of the blue prints of the C. & P. railroad, which company, it was alleged, owned a part of the wharf, revealed nothing. The record at Lisbon was also inspected with a similar result. Finally tiring of being foiled in their every attempt to discover exact location the engineer was instructed to make lines of the tract.

The proposition of Captain Martindill is practically as follows: He agrees to pave the entire wharf with brick and place it in a condition of which any city would be proud of if council will in return give him a 25-year franchise on the wharf and allow him to be wharfmaster throughout the given time.

It is estimated that the cost of paving the wharf will not be less than $5,000. Captain Martindill is very desirous that council will act favorably on the proposition and will commence the work immediately, if given the opportunity.

THE ECK CASE HAS BEEN DECIDED

VERDICT FOR THE PLAINTIFF IN AN INTERESTING SUIT.

The City of East Liverpool Can, However, Legalize Its Act By Passing a Resolution.

Lisbon, December 18.—(Special.)—In the case of Nicholas Eck versus the city of East Liverpool the jury returned a verdict for the plaintiff, giving him possession of the strip of land which had been irregularly appropriated by the city in widening Pennsylvania avenue. Eck was also allowed $100 damages.

The city council by passing a resolution can regularly appropriate the strip and present the return to Eck.

An almost exactly similar case is that of Lucinda A. Martin, of East Liverpool, which was to have been heard next. It was continued to the January term of court by the consent of the parties.

WRONG MEDICINE TAKEN BY CHILD

LITTLE GIRL MISTOOK LAUDANUM FOR CASTORIA.

Got a Big Dose, But Prompt Attention of a Physician Saved Her Life.

There was considerable excitement last evening at the home of Mr. and Mrs. T. Brooks, of Sixth street, where the 9-year-old daughter of Mrs. Roberts took a dose of laudanum in mistake for castoria.

Dr. Ikirt was summoned and relieved the child from apparent death, as the little girl had taken a large quantity of the poison before her mother discovered the mistake and its danger. The child is much improved today and Dr. Ikirt states that she will recover.

Pleasantly Entertained.

At her home on Pleasant street, Mrs. John Graham charmingly entertained a number of friends Tuesday evening. Music, games and refreshments were the features. Among those present were William Nimmond, Wheeling, and Miss Ellen Hardy, of Lisbon.

ENFORCEMENT OF LAW DEMANDED

Street Railway Operatives Appeal to Trades Council Regarding Better Car Vestibules.

The street car operatives have appealed to the Trades And Labor Council to have the state laws concerning vestibules on the cars enforced. All the cars are provided with vestibules, but very few afford complete protection from the elements, as the law contemplates. The operatives' union, No. 52, appointed a committee some time ago to take the matter up with the management of the road, but as yet there have been no results. The Trades and Labor Council took the matter under advisement at its meeting last night and will stand behind the car men in their demand.

The soliciting committee for the co-operative store reported that 418 of the 500 shares had been taken and the success of the enterprise seems assured. The committee will continue soliciting for some time yet.

TERM OF COURT A RECORD BREAKER

ABOUT 150 CRIMINAL AND 300 CIVIL CASES DECIDED.

Grim's Bridge Cutting Cases to Come Up Next Monday—Court Notes.

Lisbon, December 18.—(Special)—When court adjourned yesterday afternoon the jury was excused until next Monday at 1 o'clock.

The criminal cases of the state of Ohio against Albert McIntosh and George Mayes were set for hearing at that time. Both men are under indictment for participating in a cutting affray at Grim's bridge.

January 2 has been set for hearing all motions for new trials for the present term of court. Demurrers will also be heard on that day.

The present term of court has been a record breaker in the amount of business disposed of. About 150 civil and nearly 300 criminal cases have been passed upon.

Judge Hole will be in Youngstown next Saturday to hear a motion for a new trial in the case of Ohio vs. Raymond Scott, alias Cleveland Smith. Probably the judge will then hand down his decision in the Evans case which was tried before him there last Saturday.

BRICK AND TILE BUSINESS IN OHIO

Labor Commissioner Ratchford's Interesting Statistics on the Industry's Growth.

Columbus, December 18.—(Special.)—State Labor Commissioner M. D. Ratchford has adopted a plan which is an innovation, to secure the publication of its annual report. Realizing that it would be impossible for the papers to print his report in full were it issued in entirety at one time, he gives it out in sections at intervals of several days. Each section contains statistics on certain industries, summarizing the output, number employed, capital invested, wages paid, etc. Yesterday afternoon he issued a statistical exhibit showing the returns made to his department by brick and tile manufacturers.

Reports were received from 222 establishments employing 8,981 males, 363 females and 465 managers, officers, helpers, etc. The capital invested amounts to $18,306,169 and the value of the manufactured product is $6,167,273.64. The value of goods sold was $8,762,722.33, and the value of materials used was $1,792,310.73. Value of manufactured goods on hand at end of year was $1,797,081.73, and of materials on hand $422,813.25. Amount paid in wages for labor $3,530,686.98; amount paid managers, office help, etc., $434,530.96. Number affected by advance in wages, 2,840. Average per cent advance in wages, .12. Only 29 establishments reported in 1900, making the increase for 1901 193.

Officers Installed.

Josiah Wedgwood lodge No. 235 met last night in Fowler hall and installed their recently elected officers. The ceremonies were attended only by the members of the lodge. The following were inducted into office: John Rigby, president; Albert Townley, vice president; A. C. Townley, secretary; Geo. Hall, treasurer; John Bowers, assistant secretary; Thomas Winstanley, messenger; George Neal, assistant messenger and Robert Williams, trustee.

COSHOCTON POTTRY NOW INCORORATED

I. Bentley Pope, President of the Concern, Capitalized at $125,000.

The Pope-Gosser China company, capital $125,000, of which $90,000 has been subscribed, has been chartered in New Jersey to operate the new pottery to be built at Coshocton. It is expected that the plans will be changed for a larger plant than the one first contemplated.

The directors of the comp'y are I. Bentley Pope, H. B. Pope, John M. Pope, C. F. Gosser, C. B. Hunt and S. M. Williams. The directors representing the common stock are I. Pope, H. B. Pope, C. F. Gosser and C. B. Hunt, and the preferred stock is represented by John M. Pope and S. M. Williams.

I. Bentley Pope is president of the company; H. B. Pope, vice president, and C. F. Gosser, secretary and treasurer.

GRANTED A DIVORCE ON CRUELTY CHARGE

Court Relieves Mrs. Susan M. Hopkins of Unpleasant Matrimonial Ties.

Lisbon, December 18.—(Special.)—Susan M. Hopkins has been granted a divorce from William E. Hopkins and her maiden name, Susan Ward, restored. The petition recited that they were married December 25, 1898, and alleged that her husband was a habitual drunkard. Extreme cruelty was also charged.

It is alleged that on October 4 last the husband struck the woman in the face and knocked her against the side of the porch, her face being badly bruised and her arms and side made black and blue. The husband also threatened more violence and she left him and has not lived with him since. With her divorce $300 alimony was allowed, the husband being the owner of considerable property.

Missionary Society.

The Women's Missionary society of the First Presbyterian church yesterday afternoon held a meeting of unusual interest at the church. A program had been arranged which added still more to the pleasure of the meeting. Mrs. Mills Bennett read an excellent paper on "The Mountaineers," while Mrs. Gipner and Mrs. Wyllie took for their theme "Syria" and wrote elaborately on the subject.

To Reformatory And Asylum.

Lisbon, December 18.—(Special)—Sheriff Leonard took Ernest Phillips, of Salem, to the Mansfield reformatory today and Deputy Davidson accompanied him as far as Massillon having in charge Joseph Bratt and Frank Halderman, who had been committed to the asylum.

WHARF PAVING IS NOW PROMISED

Captain Martindill Will Undertake the Necessary Work With the City's Consent.

The public wharf, which has for years not only been an eyesore but a detriment to the city in many ways, owing to its filthy, rocky and unkempt condition, is to be repaired, paved and made one of the finest which adorns a river front between Pittsburg and Cincinnati. Wharfmaster Gus Martindill has made the proposition to do the work and the only barrier that can prevent its early commencement will be unfavorable action of council, which is not in the least anticipated.

Captian Martindill, a short time after purchasing the wharfboat, readily became acquainted with the needs of a wharf and decided that he would, if possible, prevail upon council to improve it. Circulating a petition among the manufacturers and business men he had no difficulty in securing the signatures of a hundred or more who expressed personal wishes that council take action on the matter. The petition was presented to the councilmanic body and was looked favorably upon by every member, but the action was delayed as a result of the city engineer not being able to exactly designate the portion of the wharf that belongs to the city.

Council did not wish to hastily take up that work, especially when in ignorance of this fact, and the engineer and solicitor were ordered to make an investigation and render a report. A visit by them to Cleveland and an inspection of the blue prints of the C. & P. railroad, which company, it was alleged, owned a part of the wharf, revealed nothing. The record at Lisbon was also inspected with a similar result. Finally tiring of being foiled in their every attempt to discover exact location the engineer was instructed to make lines of the tract.

The proposition of Captain Martindill is practically as follows: He agrees to pave the entire wharf with brick and place it in a condition of which any city would be proud of if council will in return give him a 25-year franchise on the wharf and allow him to be wharfmaster throughout the given time.

It is estimated that the cost of paving the wharf will not be less than $5,000. Captain Martindill is very desirous that council will act favorably on the proposition and will commence the work immediately, if given the opportunity.

THE ECK CASE HAS BEEN DECIDED

VERDICT FOR THE PLAINTIFF IN AN INTERESTING SUIT.

The City of East Liverpool Can, However, Legalize Its Act By Passing a Resolution.

Lisbon, December 18.—(Special.)—In the case of Nicholas Eck versus the city of East Liverpool the jury returned a verdict for the plaintiff, giving him possession of the strip of land which had been irregularly appropriated by the city in widening Pennsylvania avenue. Eck was also allowed $100 damages.

The city council by passing a resolution can regularly appropriate the strip and present the return to Eck.

An almost exactly similar case is that of Lucinda A. Martin, of East Liverpool, which was to have been heard next. It was continued to the January term of court by the consent of the parties.

NO OTHER CORPORATION HAS ANY INTEREST IN THE NEW TROLLEY LINE

Gen. Asa W. Jones Indignantly Repudiates Insinuations That His Company Intends to Sell Out.

General Asa W. Jones, president of the Youngstown & Southern Railroad company, was in town last evening in the interest of the project and talked interestingly and enthusiastically of its prospects. His attention being called to articles in an irresponsible East Liverpool publication which, with much waste of words, has been trying to throw doubt on the sincerity and good faith of General Jones and his associates, he said:

"The Youngstown & Southern will be built. You can set that down for a fact. It will not be built for sale, but for use. Nobody but the officers of the Youngstown & Southern have any interests in the franchises or th erights of way which we are asking and obtaining.

"No other company or persons have any interest, either present or prospective in onr line. Neither have we any interest in any other line, or any desire to shut any other lines out of this city.

"What the Wabash railroad's plans may be or what plans the promoters of other trolley projects may have we know not. We do know, however, that we have the rights of way for our road practically all secured with the exception of a portion of the distance between Leetonia and Lisbon, and the reason rights have not been secured there is because it has not been definitely decided which of two routes will be followed.

"Any one who will take the trouble to consult the Bloomfield Land company, of East Liverpool, from which we have obtained valuable rights, will discover that our agreement will not permit us to hawk our franchise. A written agreement has been etered into between the officials of the road and those of the land company which stipulates that the rights cannot be transferred; if they are they revert to the owners of the land. In this agreement also the date is set for commencing work within a year.

"Work will surely be started as soon as the weather will permit in the spring. The first step, of course, will be to provide for building the power houses.

"Another evidence that we mean what we say is that before undertaking this road I secured extensive leases of coal land in the North Lima field, and all these leases become void unless a railroad is built there by us.

"You can set it down as a fact that any company which proposes to obtain

MAYOR APPOINTS CHIEF OF POLICE

Code Expert of the Attorney General's Office Thus Decides Issue Raised.

SCHOOL BOARD ELECTION

Still Something of a Puzzle, Though the Secretary of State Laylin Holds That the Old Law Will Apply. Capital News

From a Staff Corespondent.

Columbus, December 18.—The question of who is to appoint the chief of police under the code, raised by Solicitor McGarry, of East Liverpool, was propounded to Smith Bennett, code expert of the attorney general's department, yesterday, and his answer was that the mayo appoints and council confirms. The ode states that the chief shall be appinted from a classified list, but in te absence of such a list, according to Mr. Bennett's opinion, the mayor shall make a temporary appointment until he is available. The chief of the fire department is appointed similarly.

Another puzzling question has been raised over the pasage of the municipal code. As no provision is made by the law for the election of school board members, Wade Ellis, of Cincinnati, who had a hand in the formation of the code, says the only way out of the difficulty is to omit the regular school board election next spring and permit the old members to hold over until the following spring, by which time the legislature will have enacted remedial legislation.

Judge Alread, chief clerk in the office of the secretary of state, stated to the representative of this paper that Secretary of State Laylin had held that school board members should be elected next spring under the present laws. His position is that where the code does not specify therwise, the old laws should be observed as in the past regardless of the constitutionality. The supreme court has tacitly consented to this. Although the school laws are unsound the court would not knock them out before the legislature had an opportunity of placing them with valid acts.

DRUMMER BOY ABLY PRESENTED

Amateurs Played Like Professionals Before a Crowded House Last Night.

A FINE INTERPRETATION

Of the Great War Time Play Surprised And Delighted All Who Witnessed It—All the Roles Well Acted—Features of the Play.

The popular drama, "The Drummer Boy, or the Spy of Shiloh," is not a new piece in this city, but its production at the Grand by home talent last night, was so far superior to any previous effort that one could scarcely recognize the play. The house was packed.

Harry C. Nail, who takes the part of Martin Howard, leading man, has been brought up with the play and his interpretation of the character is almost perfect.

The principal old-man character was in the hands of F. G. Croxall, who has on several occasions played the part with unusual ability.

Perhaps the strongest and most difficult part is that of Frank Rutledge, portrayed by W. R. Dawson, one of the best known and most popular members of the local camp of Sons of Veterans. Mr. Dawson displays rare talent in the villain character.

W. H. Surles has handled the part of Harry Howard on a number of occasions, and his work is always appreciated. Mr. Surles' solo in the second act is especially fine.

Johnny Howard, the drummer boy, was entrusted to Miss Nina Kinsey, one of the most charming little ladies in the city. Her ready conception of every detail of the part assigned her and the manner in which she enacts the difficult role, at once captivated the large audience and made her a general favorite.

It has been conceded that there never was a better old-man character turned out in the city than William Hackworth, and his work last night did not fall short of the usual excellence of the past.

W. A. Davis has the difficult part of General Grant and played it in an excellent manner.

"Fatty" Smith is pronounced one of the finest parts ever created, and Jacob Shenkel portrayed it to perfection. Mr. Shenkel is a German dialect artist of rare ability, and he with his awkward squad kept the audience convulsed with laughter at every appearance.

A. F. Nail, for the first time in this city, played the part of Uncle Joe, and demonstrated that he is one of the best black face artists in the business.

The lady characters had been placed in competent hands. Mrs. W. W. Hamilton displayed much talent in the part of Mother Howard, and the interest taken by her in the success of the affair has gone a long way toward encouraging the other members of the cast.

Miss Lottie Smith distinguished herself in the character of Mrs. Mart Howard and supported Mr. Nail in a pleasing manner.

The part of Jennie Howard was taken by Miss Margaret Hamil. Dur-

DROPPED DEAD UPON THE STREET

Sudden Demise in Texas of a Man Hailing From East Liverpool.

HIS NAME WAS A. C. SNIDER

He Had a Brother-in-Law Named Williamson Who Is Known Here, But Nobody Appears to Have Any Recollection of Snider.

An account of an East Liverpool man's sudden death in Texas is given in the following letter:

"Texarkana, Tex., Dec. 16.

"Postmaster, East Liverpool, O.

"Dear Sir—On the night of December 13, 1902, a man fell dead in the streets of our city. On his person was found a memorandum book on which was written: 'My name is A. C. Snider, East Liverpool, O., care of Joseph Williamson, my brother-in-law, the dry goods man.' His body was turned over to an undertaker and he telegraphed to the Williamson, of the above address, but could not find him. If you know anything of Snider or Williamson, will you kindly give me all the information you can. If you can't give me any information, please hand this to some officer who will investigate and answer my letter. He had only 10 cents on his person. He was buried in the paupers' field. Would be pleased to hear from you. Yours respectfully,

"W. A. HARGETT,

"Deputy Sheriff of Bowie County."

The letter was received last evening by Postmaster Surles and turned over to Chief Thompson. He immediately made an investigation, but has been unable to throw any light upon the matter.

A News Review reporter, by careful inquiry discovered that Joseph Williamson, who in all probability is the man alluded to in the memorandum book, lived in this city for a number of years, but is now located at Columbus. He was in business in the Diamond at the store room now occupied by Frank, Shumaker & Co. Seven years have elapsed since Williamson left the city, and though he moved to Columbus, living, however, a year or more at Springfield before settling there, it is not known whether or not he still lives there. Older residents of the city remember distinctly of Mr. Williamson's business career here, but none of them can remember anything of a man named A. C. Snider.

Chief Thompson will delay answering the letter until further investigation is made, but he has little hopes of locating any one knowing the deceased.

MANUFACTURING POTTERS MOST EARNESTLY DESIRE FIXED SCALE OF PRICES

Not Higher Rates, But Maintenance of Rates the Avowed Object of the Pittsburg Meeting.

The stupendous task of bringing all the manufacturing potters of the United States into an agreement that will put an end to the price cutting that has proven so disastrous in the past six months was still far from completion this morning. The plan and scope committee of the United States Potters' association, in conjunction with many prominent manufacturers, which was in session at Pittsburg, all of yesterday and far in to the night. At the close of last night's session D. E. McNicol, president of the D. E. McNicol Pottery company, made the following statement:

"We are here to carry out the plan forming for several months. We do not want the mistaken impression to get out that we are attempting to raise the prices on pottery—we are simply trying to find a means to maintain the prices established last year.

"During the year we have been unable to get these prices on account of the condition of the business in general. There has been a continual opening up of new plants, each with its own scale of prices. The United States Potters' association has been unable to get them in line as fast as they were established.

"Now we feel that they are all in shape to enter the agreement and we feel that we can maintain that price, which, by the way, most of the old-established potteries have been maintaining during the year. The old rivalry between the east and the west, as represented by Trenton, N. J., and East Liverpool, is a thing of the past and we are now all working in perfect harmony for the welfare of the trade."

The work was resumed again this morning and may not be finally adjourned until tomorrow.

It is proposed, under the supervisor of the present organization to form "The Pottery Association of America," to govern all sales and pay the rebates on purchases. The plan contemplates the division of ware into premium and non-premium goods. The business will be administered by an executive committee, divided into two sections, meeting monthly in this city and Trenton, N. J.

According to the plan proposed by the associations' committee, all sales will go through the new association. A forfeit will be put by every member of the compact for violation of its terms.

WITH THE WORKMEN IN THE CLAY PLANTS

WHEELING CONDITIONS.

The Warwick China company, at Wheeling, is shipping the entire product of the plant as rapidly as possible. Dinner ware and toilet sets are moving quite up to the highest expectations, but the cream of the business is the call for the unique novelties which have formed such an important part of their business for a long time, and which fit the holiday season especially well. They have quite a list of new tainings to be announced later. The Wheeling Potteries company cover such a wide field that there is nothing in pottery they cannot meet. With each distinctive plant devoted to the lines for which it is intended they have the business so systematized that all proceed with the same regularity that characterized each one of them before the consolidation. The product of all finds ready sale, and altogether the new company is in most excellent condition, with greater prospects ahead than ever before.

THE NEW SHAPES.

The new dinner and toilet sets to be placed on the market for the spring trade by the Cartwright Brothers' pottery will be ready for the sample rooms before the plant shuts down for the holiday vacation. Everything is through to the kiln with the exception of the nappies, which were finished in the clay part yesterday. The new shapes are very pleasing and the decorations will be highly artistic, in fact, the new sets should prove excellent trade winners. The clay parts quit today until the first Monday after the new year. All the other departments will follow as they catch up with the work. It will take the glost kiln crew until about next Wednesday to finish. During the layoff the necessary repairs about the plant will be made. A new saucer jigger is to be installed to replace one worn out and a new floor will be laid in the jigger shop.

SALESMEN'S BANQUET.

Recollections of the good times had at previous banquets given by the Salesmen's association will surely be enough to induce a large attendance at the next one, which will occur on December 30, at Moqoin's, New York. Tickets may be had of Henry Endemann, "Judge" Henry Seedorf, John Nixon, Leon Sultan or D. C. Tracy. Ballots for the annual election have been sent out and must be returned so as to reach the secretary not later than 10 a. m., Monday, December 22. It will be much better if the votes are mailed so that they will arrive two or three days earlier. Put a cross against the names desired for election. There are only five directors to be elected, but there are ten names to select from. Last year there were many defective ballots because the directions were not followed.

IN HONOR OF DICKENS.

The S. A. Weller pottery, at Zanesville, has produced something entirely new in art pottery. The new line is made in vases, steins, pitchers and novelties of all shapes. In color it is something on the stoneware order but of very fine texture in grays and light blues. The decorations are on the poster order, etched outline filled in with bright colors. The subjects are etched and then painted, and each piece shows the work of an artist. Some of the subjects are taken from the French and others are of the poster order which are so popular at the present time. The new line is styled Dickens ware, the name being suggested by the fact that Samuel Weller is the name given by Dickens to one of the characters in his Pickwick papers.

SEBRING INCORPORATION.

The French China company, of Sebring, capital $100,000, in $100 shares, has taken out a certificate of incorporation at Columbus. The incorporators are O. H. Sebring, E. H. Sebring, B. N. Sebring, M. Sebring and E. F. Sebring.

AMONG THE POTTERS.

James Wines, of the biscuit end at Cartwright's, is reported among the sick.

John Torr, groundlayer at the Dresden, is spending a few days in Pittsburg.

George Rigby, foreman of the Cartwright, has been indisposed for the past few days with an attack of the grip.

Miss Maude Wells, a finisher at Cartwright's, has been on the sick list for the past week.

Fred Fenton, a mould runner at Cartwright's, is confined to his home in the West End by sickness.

William Hollingshead, of the glost end at Cartwright's, is seriously ill at his home on Basil avenue.

John Hughes, of the biscuit end at Cartwright's, is the proud father of a fine baby boy that arrived at his home Tuesday.

Messrs. Milton Bell and Calvin Swift, of the glost end at Cartwright's, will take their families to Parkersburg for the holiday vacation.

Miss Annie Wilson, of the decorating department at the Dresden, will leave in a few days for New Brighton, Pa., where she will spend the holiday vacation with her uncle, Rev. Albert Wilson.

ONLY TWO SICK.

The Sick & Death Benefit association, composed of the operatives of the K., T. & K. pottery, has declared a dividend amounting to $2.38 for each of the 23 members. This amount had accumulated in the hands of Treasurer James Pinkerton from the dues paid in by the members and was in excess of benefits paid out. Only two members of the society were sick during the period and the amount paid to them was $5 each. Elmer Gaston is president of the society.

THE NEW YORK STOCK MARKET.

Sub-Treasury Drain Greatly Relaxed. Bonds Irregular in Sympathy With Stocks.

New York, Dec. 18.—The movement of the prices in yesterday's stock market was an almost repetition of that of Tuesday. There was the same broadening show of strength up to the last hour, when a selling movement developed which wiped out practically all of the earlier gains and carried some prices below Tuesday night. The reaction yesterday was rather more gradual and not quite so severe as Tuesday and was followed by a steadier tone just before the close.

The purchase of the United States Steel corporation of the Union Steel company was received at first with mixed emotions, owing to the prospect of a large bond issue against the purchase, but the steel shares subsequently became prominent factors in the advance.

The money market continued to show the sentimental effect of the formation of the bankers' $?,000,000 protective pool. The sub-treasury drain upon the market is greatly relaxed, owing to heavy pension payments and to the practical cessation of deposits for transfer to the interior. The banks gained from the sub-treasury on Tuesday's operations $324,000, reducing their loss since Friday to $265,000. Yesterday's small transfer of $50,000 to New Orleans was the first made through the sub-treasury for the last eight business days. It is also reported that heavy receipts have been made by the banks during the last few days on the regular express movement from the interior. Sterling exchange receded further yesterday in spite of considerable sales of stock here for London account and disappointing seaboard grain clearances.

Bonds were irregular in sympathy with stocks. Total sales, par value, $2,070,000.

United States bonds were all unchanged on the last call.

Vessels in Danger.

Detroit, Dec. 18.—The steamer S. K. Martin, of Marine City, and her tow, the schooners Charles Spademan, of Marine City, and Belle Hanscomb, of Detroit, were last night reported in a dangerous position about eight miles below the mouth of the Detroit river, in Lake Erie. About seven miles east of the town and about two miles off Conchester, Ont., a three-masted schooner is reported flying signals of distress. A strong wind is piling ice up on the vessels, and there is danger of the ice cutting the hulls below the water line. The tugs Home Rule and Columbia, of Amherstburg, have gone to the relief of the distressed vessels.

Another Steel Plant Taken In.

Albany, N. Y., Dec. 18.—Laborers who have been working to put in readiness for resumption the great Breaker Island steel plant, formerly the property of the Troy Steel company, have been notified that their services are no longer needed. It was announced last night that the plant has been purchased by the United States Steel corporation for $1,500,000, and that in all probability the works will not be operated.

The Par Value Company has been established and in continous operation over two years, and owns or operates TEN mines, comprising over 700 acres, located in the best districts in America, and adjoining or near the most profitable mines in the world. Eight are located in the Cripple Creek district, Colorado, and in the Mercur-Bingham districts, Utah.

The properties comprise the Mary Cashen, Coriolanus, Mary Alice, the Dillon, Par Value, Stonehouse, Dameral, Gladiato Mary Hunter, and Massasoit. The entire ten are equipped with the necessary plants of machinery and half of them are developed to the point of production, while three are now producing good ore.

The Mary Cashen mine adjoins the Gold Coin mine, which has produced $7,500,000 and pays $360,000 annual dividends and is also near Stratton's Independence, which has produced $10,000,000 and pays dividends of $1,920,000 annually. It is also close to the Strong and Portland, two other leading mines of the Cripple Creek district.

The Mary Cashen mine is opened by a shaft sunk to the depth of 850 feet and is equipped with a first class plant of machinery. It is now producing pay ore.

The Coriolanus adjoins the Ajax, one of the great mines of the district; is well equipped, has a shaft 550 feet deep and is now producing pay ore.

The Mary Alice adjoins the Portland and Independence and lies directly between the two, has a shaft 510 feet deep and numerous drifts and crosscuts. It is expected to reach the ore in this mine any day.

The Stonehouse adjoins the Par Value and open by shaft and winz to a depth of 150 feet. It shows ore assaying as high as $1,100 per ton.

The Dillon adjoins the Gold Coin on the west and the Strong on the east, and is considered the best located mine in the Cripple Creek district. It has a shaft 800 feet deep and over 2,000 feet of drifts. It is completely equipped and is producing ore.

The Par Value has a shaft 280 feet deep and 250 feet of drifts. It is situated like the core of an apple, between the Portland, Ajax, Gold Coin, Granite, Stratton's, Independence, Mary Cashen, Elkton and Strong Mines, and is expected to produce good results by development.

The Dameral is situated four miles south of Victor, contains 80 acres and gives promise of becoming one of the most valuable properties in the Cripple Creek district. It has a shaft 110 feet deep, which is now being sunk, and a tunnel 75 feet long.

MINES: VICTOR and WILBUR, CRIPPLE CREEK DIRTRICT, COLORADO; CEDAR FORT, UTAH.

The Massasoit is located in the Mercur-Bingham district, Utah, and has several hundred feet of work done on it. It contains 340 acres.

The Mary Hunter is situated in the same district, contains 200 acres and has several shafts and a tunnel on it.

The Gladiator adjoins the Dameral and has 40 acres.

The company thus possesses the great advantage of not being dependent upon the result of one mine, but it has 10 upon which to rely for results, and any one of seven of its properties would justify the capitalization for the whole at the present selling price of the stock.

All of the company's properties are well developed and have had from one to three years' work done on each, bringing some to production and the others near it.

The company, therefore, has the advantage of large acreage, a number of mines in important districts, with 5,000 feet of development work done, and two to three years' time expended, and properties at the point of production. It has grown from a third of an acre to over 700 acres in two years.

This company is conservatively capitalized and managed by competent and experienced men in the interest of the stockholders on the most careful business principles. Over $150,000 has been raised and spent on the properties, and, including the work on the Mary Cashen, Coriolanus, Mary Alice and the Dillon, fully $250,000 of work and plant are represented in the properties, without counting the value of the properties themselves.

It is believed that no safer and better mining stock was ever offered to the public. Only a small amount of stock remains to be sold at 75 cents a share, par value $1.00, fully paid and non-assessable.

Order at once to secure the stock at this price, as this offer is open only now and remit by check, registered letter, draft or money order, and apply for any further information desired to

Fiscal Agent,

WITH THE WORKMEN IN THE CLAY PLANTS

WHEELING CONDITIONS.

The Warwick China company, at Wheeling, is shipping the entire product of the plant as rapidly as possible. Dinner ware and toilet sets are moving quite up to the highest expectations, but the cream of the business is the call for the unique novelties which have formed such an important part of their business for a long time, and which fit the holiday season especially well. They have quite a list of new things to be announced later. The Wheeling Potteries company cover such a wide field that there is nothing in pottery they cannot meet. With each distinctive plant devoted to the lines for which it is intended they have the business so systematized that all proceed with the same regularity that characterized each one of them before the consolidation. The product of all finds ready sale, and altogether the new company is in most excellent condition, with greater prospects ahead than ever before.

THE NEW SHAPES.

The new dinner and toilet sets to be placed on the market for the spring trade by the Cartwright Brothers' pottery will be ready for the sample rooms before the plant shuts down for the holiday vacation. Everything is through to the kiln with the exception of the nappies, which were finished in the clay part yesterday. The new shapes are very pleasing and the decorations will be highly artistic, in fact, the new sets should prove excellent trade winners. The clay parts quit today until the first Monday after the new year. All the other departments will follow as they catch up with the work. It will take the glost kiln crew until about next Wednesday to finish. During the layoff the necessary repairs about the plant will be made. A new saucer jigger is to be installed to replace one worn out and a new floor will be laid in the jigger shop.

SALESMEN'S BANQUET.

Recollections of the good times had at previous banquets given by the Salesmen's association will surely be enough to induce a large attendance at the next one, which will occur on December 30, at Moqoin's, New York. Tickets may be had of Henry Endemann, "Judge" Henry Seedorf, John Nixon, Leon Sultan or D. C. Tracy. Ballots for the annual election have been sent out and must be returned so as to reach the secretary not later than 10 a. m., Monday, December 22. It will be much better if the votes are mailed so that they will arrive two or three days earlier. Put a cross against the names desired for election. There are only five directors to be elected, but there are ten names to select from. Last year there were many defective ballots because the directions were not followed.

IN HONOR OF DICKENS.

SEBRING INCORPORATION.

The French China company, of Sebring, capital $100,000, in $100 shares, has taken out a certificate of incorporation at Columbus. The incorporators are O. H. Sebring, E. H. Sebring, B. N. Sebring, M. Sebring and E. F. Sebring.

MINES: VICTOR and WILBUR, CRIPPLE CREEK DIRTRICT, COLORADO; CEDAR FORT, UTAH.

The Massasoit is located in the Mercur-Bingham district, Utah, and has several hundred feet of work done on it. It contains 340 acres.

The Mary Hunter is situated in the same district, contains 200 acres and has several shafts and a tunnel on it.

The Gladiator adjoins the Dameral and has 40 acres.

The company thus possesses the great advantage of not being dependent upon the result of one mine, but it has 10 upon which to rely for results, and any one of seven of its properties would justify the capitalization for the whole at the present selling price of the stock.

All of the company's properties are well developed and have had from one to three years' work done on each, bringing some to production and the others near it.

The company, therefore, has the advantage of large acreage, a number of mines in important districts, with 5,000 feet of development work done, and two to three years' time expended, and properties at the point of production. It has grown from a third of an acre to over 700 acres in two years.

This company is conservatively capitalized and managed by competent and experienced men in the interest of the stockholders on the most careful business principles. Over $150,000 has been raised and spent on the properties, and, including the work on the Mary Cashen, Coriolanus, Mary Alice and the Dillon, fully $250,000 of work and plant are represented in the properties, without counting the value of the properties themselves.

It is believed that no safer and better mining stock was ever offered to the public. Only a small amount of stock remains to be sold at 75 cents a share, par value $1.00, fully paid and non-assessable.

Order at once to secure the stock at this price, as this offer is open only now and remit by check, registered letter, draft or money order, and apply for any further information desired to

The Par Value Company has been established and in continous operation over two years, and owns or operates TEN mines, comprising over 700 acres, located in the best districts in America, and adjoining or near the most profitable mines in the world. Eight are located in the Cripple Creek district, Colorado, and in the Mercur-Bingham districts, Utah.

The properties comprise the Mary Cashen, Coriolanus, Mary Alice, the Dillon, Par Value, Stonehouse, Dameral, Gladiator, Mary Hunter, and Massasoit. The entire ten are equipped with the necessary plants of machinery and half of them are developed to the point of production, while three are now producing good ore.

The Mary Cashen mine adjoins the Gold Coin mine, which has produced $7,500,000 and pays $350,000 annual dividends and is also near Stratton's Independence, which has produced $10,000,000 and pays dividends of $1,920,000 annually. It is also close to the Strong and Portland, two other leading mines of the Cripple Creek district.

The Mary Cashen mine is opened by a shaft sunk to the depth of 350 feet and is equipped with a first class plant of machinery. It is now producing pay ore.

The Coriolanus adjoins the Ajax, one of the great mines of the district; is well equipped, has a shaft 550 feet deep and is now producing pay ore.

The Mary Alice adjoins the Portland and Independence and lies directly between the two, has a shaft 510 feet deep and numerous drifts and crosscuts. It is expected to reach the ore in this mine any day.

The Stonehouse adjoins the Par Value and open by shaft and winz to a depth of 150 feet. It shows ore assaying as high as $1,100 per ton.

The Dillon adjoins the Gold Coin on the west and the Strong on the east, and is considered the best located mine in the Cripple Creek district. It has a shaft 800 feet deep and over 2,000 feet of drifts. It is completely equipped and is producing ore.

The Par Value has a shaft 280 feet deep and 250 feet of drifts. It is situated like the core of an apple, between the Portland, Ajax, Gold Coin, Granite, Stratton's, Independence, Mary Cashen, Dillon and Strong Mines, and is expected to produce good results by development.

The Dameral is situated four miles south of Victor, contains 80 acres and gives promise of becoming one of the most valuable properties in the Cripple Creek district. It has a shaft 110 feet deep, which is now being sunk, and a tunnel 75 feet long.

WITH THE WORKMEN IN THE CLAY PLANTS

WHEELING CONDITIONS.

The Warwick China company, at Wheeling, is shipping the entire product of the plant as rapidly as possible. Dinner ware and toilet sets are moving quite up to the highest expectations, but the cream of the business is the call for the unique novelties which have formed such an important part of their business for a long time, and which fit the holiday season especially well. They have quite a list of new things to be announced later. The Wheeling Potteries company cover such a wide field that there is nothing in pottery they cannot meet. With each distinctive plant devoted to the lines for which it is intended they have the business so systematized that all proceed with the same regularity that characterized each one of them before the consolidation. The product of all finds ready sale, and altogether the new company is in most excellent condition, with greater prospects ahead than ever before.

THE NEW SHAPES.

The new dinner and toilet sets to be placed on the market for the spring trade by the Cartwright Brothers' pottery will be ready for the sample rooms before the plant shuts down for the holiday vacation. Everything is through to the kiln with the exception of the nappies, which were finished in the clay part yesterday. The new shapes are very pleasing and the decorations will be highly artistic. In fact, the new sets should prove excellent trade winners. The clay parts quit today until the first Monday after the new year. All the other departments will follow as they catch up with the work. It will take the glost kiln crew until about next Wednesday to finish. During the layoff the necessary repairs about the plant will be made. A new saucer jigger is to be installed to replace one worn out and a new floor will be laid in the jigger shop.

SALESMEN'S BANQUET.

Recollections of the good times had at previous banquets given by the Salesmen's association will surely be enough to induce a large attendance at the next one, which will occur on December 30, at Moqoin's, New York. Tickets may be had of Henry Endemann, "Judge" Henry Seedorf, John Nixon, Leon Sultan or D. C. Tracy. Ballots for the annual election have been sent out and must be returned so as to reach the secretary not later than 10 a. m., Monday, December 22. It will be much better if the votes are mailed so that they will arrive two or three days earlier. Put a cross against the names desired for election. There are only five directors to be elected, but there are ten names to select from. Last year there were many defective ballots because the directions were not followed.

IN HONOR OF DICKENS.

The S. A. Weller pottery, at Zanesville, has produced something entirely new in art pottery. The new line is made in vases, steins, pitchers and novelties of all shapes. In color it is something on the stoneware order but of very fine texture in grays and light blues. The decorations are on the poster order, etched outline filled in with bright colors. The subjects are etched and then painted, and each piece shows the work of an artist. Some of the subjects are taken from the French and others are of the poster order which are so popular at the present time. The new line is styled Dickens ware, the name being suggested by the fact that Samuel Weller is the name given by Dickens to one of the characters in his Pickwick papers.

SEBRING INCORPORATION.

The French China company, of Sebring, capital $100,000, in $100 shares, has taken out a certificate of incorporation at Columbus. The incorporators are O. H. Sebring, E. H. Sebring, B. N. Sebring, M. Sebring and E. F. Sebring.

AMONG THE POTTERS.

James Wines, of the biscuit end at Cartwright's, is reported among the sick.

John Torr, groundlayer at the Dresden, is spending a few days in Pittsburg.

George Rigby, foreman of the Cartwright, has been indisposed for the past few days with an attack of the grip.

Miss Maude Wells, a finisher at Cartwright's, has been on the sick list for the past week.

Fred Fenton, a mould runner at Cartwright's, is confined to his home in the West End by sickness.

William Hollingshead, of the glost end at Cartwright's, is seriously ill at his home on Basil avenue.

John Hughes, of the biscuit end at Cartwright's, is the proud father of a fine baby boy that arrived at his home Tuesday.

Messrs. Milton Bell and Calvin Swift, of the glost end at Cartwright's, will take their families to Parkersburg for the holiday vacation.

Miss Annie Wilson, of the decorating department at the Dresden, will leave in a few days for New Brighton, Pa., where she will spend the holiday vacation with her uncle, Rev. Albert Wilson.

ONLY TWO SICK.

The Sick & Death Benefit association, composed of the operatives of the K. T. & K. pottery, has declared a dividend amounting to $2.38 for each of the 23 members. This amount had accumulated in the hands of Treasurer James Pinkerton from the dues paid in by the members and was in excess of benefits paid out. Only two members of the society were sick during the period and the amount paid to them was $5 each. Elmer Gaston is president of the society.

THE NEW YORK STOCK MARKET.

Sub-Treasury Drain Greatly Relaxed. Bonds Irregular in Sympathy With Stocks.

New York, Dec. 18.—The movement of the prices in yesterday's stock market was an almost repetition of that of Tuesday. There was the same broadening show of strength up to the last hour, when a selling movement developed which wiped out practically all of the earlier gains and carried some prices below Tuesday night. The reaction yesterday was rather more gradual and not quite so severe as Tuesday and was followed by a steadier tone just before the close.

The purchase of the United States Steel corporation of the Union Steel company was received at first with mixed emotions, owing to the prospect of a large bond issue against the purchase, but the steel shares subsequently became prominent factors in the advance.

The money market continued to show the sentimental effect of the formation of the bankers' $2,000,000 protective pool. The sub-treasury drain upon the market is greatly relaxed, owing to heavy pension payments and to the practical cessation of deposits for transfer to the interior. The banks gained from the sub-treasury on Tuesday's operations $324,000, reducing their loss since Friday to $265,000. Yesterday's small transfer of $50,000 to New Orleans was the first made through the sub-treasury for the last eight business days. It is also reported that heavy receipts have been made by the banks during the last few days on the regular express movement from the interior. Sterling exchange receded further yesterday in spite of considerable sales of stock here for London account and disappointing seaboard grain clearances.

Bonds were irregular in sympathy with stocks. Total sales, par value, $2,070,000.

United States bonds were all unchanged on the last call.

Vessels in Danger.

Detroit, Dec. 18.—The steamer S. K. Martin, of Marine City, and her tow, the schooners Charles Spademan, of Marine City, and Belle Hanscomb, of Detroit, were last night reported in a dangerous position about eight miles below the mouth of the Detroit river, in Lake Erie. About seven miles east of the town and about two miles off Conchester, Ont., a three-masted schooner is reported flying signals of distress. A strong wind is piling ice up on the vessels, and there is danger of the ice cutting the hulls below the water line. The tugs Home Rule and Columbia, of Amherstburg, have gone to the relief of the distressed vessels.

Another Steel Plant Taken In.

Albany, N. Y., Dec. 18.—Laborers who have been working to put in readiness for resumption the great Breaker Island steel plant, formerly the property of the Troy Steel company, have been notified that their services are no longer needed. It was announced last night that the plant has been purchased by the United States Steel corporation for $1,500,000, and that in all probability the works will not be operated.

The Par Value Company has been established and in continous operation over two years, and owns or operates TEN mines, comprising over 700 acres, located in the best districts in America, and adjoining or near the most profitable mines in the world. Eight are located in the Cripple Creek district, Colorado, and in the Mercur-Bingham district, Utah.

The properties comprise the Mary Cashen, Coriolanus, Mary Alice, the Dillon, Par Value, Stonehouse, Dameral, Gladiator, Mary Hunter, and Massasoit. The entire ten are equipped with the necessary plants of machinery and half of them are developed to the point of production, while three are now producing good ore.

The Mary Cashen mine adjoins the Gold Coin mine, which has produced $7,500,000 and pays $360,000 annual dividends and is also near Stratton's Independence, which has produced $10,000,000 and pays dividends of $1,920,000 annually. It is also close to the Strong and Portland, two other leading mines of the Cripple Creek district.

The Mary Cashen mine is opened by a shaft sunk to the depth of 850 feet and is equipped with a first class plant of machinery. It is now producing pay ore.

The Coriolanus adjoins the Ajax, one of the great mines of the district; is well equipped, has a shaft 550 feet deep and is now producing pay ore.

The Mary Alice adjoins the Portland and Independence and lies directly between the two, has a shaft 510 feet deep at numerous drifts and crosscuts. It is expected to reach the ore in this mine any day.

The Stonehouse adjoins the Par Value and open by shaft and winz to a depth of 150 feet. It shows ore assaying as high as $1,100 per ton.

The Dillon adjoins the Gold Coin on the west and the Strong on the east, and is considered the best located mine in the Cripple Creek district. It has a shaft 860 feet deep and over 2,000 feet of drifts. It is completely equipped and is producing ore.

The Par Value has a shaft 280 feet deep and 250 feet of drifts. It is situated like the core of an apple, between the Portland, Ajax, Gold Coin, Granite, Stratton's, Independence, Mary Cashen, Dillon and Strong Mines, and is expected to produce good results by development.

The Dameral is situated four miles south of Victor, contains 80 acres and gives promise of becoming one of the most valuable properties in the Cripple Creek district. It has a shaft 110 feet deep, which is now being sunk, and a tunnel 75 feet long.

U. P. Session Meeting.

The session of the Second U. P. church expects to hold open house in the afternoon on New Year's day. This is an innovation in church circles in this city and will be a very pleasant affair. The parlors of the church will be open from 2:30 till 5 p. m. and all members of the church and friends of the congregation will be made welcome. The session is composed of the following persons and they expect to devote all their energies to making the afternoon pleasant for all who attend: Rev. D. W. McQuiston, Charles Hanley, W. H. Kinney, D. F. White, J. H. Smith, James B. Elliott, W. A. Andrews and Elmer Ralston.

To Debate Woman Suffrage.

The last meeting of the present year of the Protected Home Circle will be held Tuesday evening, December 30 It is expected at this meeting to initiate all candidates who have for any reason been detained from entering the lodge before. At the close of the business meeting six members will debate the question: "Resolved, That Women Should Have the Right to Vote." This is an old question, but one that is always full of interest and will bring out a large per cent of the membership.

McElwain-Sheckler.

Louis Sheckler, of the East End, was married last night in this city to Miss Edna McElwain, of Wellsville. The ceremony was performed at the Lutheran parsonage by Rev. J. G. Reinartz. The young people will make their home in the East End.

Sermon to Young Men.

Rev. D. W. McQuiston, of the Second U. P. church, has announced that he will preach a special sermon Sunday evening to young men. The theme for the evening will be "The Glory of the Young Man." The impression has got-

Some East Liverpool Residents Have Learned How to Keep it Away.

Your back may not ache very long.
But the ache will return shortly.
Comes oftener—stays longer.
Unless the kidneys are relieved.
Doan's kidney pills cure all kidney ills.

East Liverpool people endorse them.

Mr. Robert M. Newell, carpenter, of West Fifth street, says: "If everyone receives the same results as I from the course of treatment prescribed by Doan's Kidney Pills, my advice is, go to Larkins' drug store, procure a box, take them according to directions and the results will inevitably follow. One box effected a cure in my case, the particulars of which I will only be too pleased to give to anyone personally calling upon me."

Sold for 50 cents per box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name Doan's, and take no other.

Exodus of Negroes.

South Bend, Ind., Dec. 18.—Four shootings and one murder, in which negroes took part, have been followed not only by closing clubs and saloons conducted by negroes, but many colored people are leaving the city. They are afraid to stay here, owing to a feeling against them among the white people. The negroes say they cannot get food and service at the resturants, although they have the money to pay for it. A committee has raised more than $500 among business men as a reward for the capture of three negroes who murdered John M. Koonsman. No further clews to the negroes have been found.

Convention of Assessors.

Harrisburg, Dec. 18.—A convention of assessors of the Pennsylvania cities of the third class was held in Harrisburg yesterday for the purpose of exchanging views on matters of assessments, with a view to the possible introduction of a uniform system. A. B. Tack, of this city, was elected chairman, and H. A. Shireman, of Reading, secretary. A convention of the mayors and solicitors of third class cities will be held today for the discussion of legislation for the benefit of cities which they represent.

A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children, for it contains no harmful substance. It is pleasant to take—both adults and children like it. Buy it and you will get the best. It always cures. For sale by Alvin H. Bulger, druggist.

Mrs. Austin's Buckwheat is the real thing, gives you the real genuine old buckwheat flavor. Be sure and get the genuine. 20

GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than seventy-five per cent. of the people in the United States, are afflicted with these two diseases and their effects: such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-Burn, Waterbrash, Gnawing and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming up of Food after Eating, Low Spirits, etc. Go to your Druggist and get a bottle of August Flower for 25 or 75 cents. Two doses will relieve you. Try it. At Charles F. Craig's.

C. J. Williams, of Gustavus, O., has been appointed state agriculturist.

Mrs. Daniel Sanor died at her residence, near North Georgetown, aged 65.

Henry Walthey, a prominent merchant of Alliance, died from blood poisoning. He was 65 years old.

The new United Presbyterian church at Toronto is rapidly nearing completion and is now under roof.

Ed A. Williams, of East Rochester, $17 per month; Elizabeth Weir, Hanoverton, $8 per month, are pensions lately granted.

Warren Billingsley, aged 18, of California, Pa., tried to commit suicide in Washington, Pa., jail, where he was confined for forgery.

Rev. T. C. Hatfield died at Wellsburg. He was 77 years old and had filled the Methodist pulpit in that and neighboring counties for 50 years.

T. H. Gillmer, of Warren, is suggested as a Republican candidate for congress in the Nineteenth district if General Dick is nominated for governor. He is a lawyer and manufacturer.

When the steamer Queen City arrived in Pittsburg the chief clerk, A. B. Brown, handed Captain James A. Henderson a letter from a New Martinsville, W. Va., resident, enclosing $1. The sender, who did not give his name, said that it rightly belonged to the boat, he having ridden on the vessel and not paid his fare.

West Virginia—Fair today and tomorrow.

Not a Compliment.

"Old war horse" has long been a complimentary and affectionate sobriquet bestowed on veteran political workers by their party confreres and admirers. A Washington correspondent once endeavored to compliment Susan B. Anthony, Elizabeth Cady Stanton and other women suffragists by referring to them as "old war mares." He protested that he had heard them say there could be no opprobrium in sex, but the old ladies kicked like young fillies, and the correspondent lost his job.

Exchange of Courtesies.

One of the keenest of journalists and wits, Moritz Gottlieb Saphir, had the better of the irate stranger against whom he ran by accident at the corner of a street in Munich. "Beast!" cried the offended person without waiting for an apology. "Thank you," said the journalist, "and mine is Saphir."

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous services.

EAST END

OFFICERS CHOSEN

For the Second Presbyterian Church Sunday School at a Meeting Last Evening.

The regular election of the officers of the Sunday school of the Second Presbyterian church of the East End was held last night after prayer meeting. The election resulted as follows:

Superintendent—J. S. Noah.

Assistant Superintendent—Ira Chamberlain.

Treasurer—Edward Sprague.

Secretary—Wilbur McCain.

Assistant Secretary — Miss Kate Stamm.

Librarian—Miss Sadie McKinnon.

Assistant Librarian—Harley Howard.

Organist—Miss Lida Farrar.

Assistant Organist—Miss Alice Alabaugh.

U. P. Session Meeting.

The session of the Second U. P. church expects to hold open house in the afternoon on New Year's day. This is an innovation in church circles in this city and will be a very pleasant affair. The parlors of the church will be open from 2:30 till 5 p. m. and all members of the church and friends of the congregation will be made welcome. The session is composed of the following persons and they expect to devote all their energies to making the afternoon pleasant for all who attend: Rev. D. W. McQuiston, Charles Hanley, W. H. Kinney, D. F. White, J. H. Smith, James B. Elliott, W. A. Andrews and Elmer Ralston.

To Debate Woman Suffrage.

The last meeting of the present year of the Protected Home Circle will be held Tuesday evening, December 30 It is expected at this meeting to initiate all candidates who have for any reason been detained from entering the lodge before. At the close of the business meeting six members will debate the question: "Resolved, That Women Should Have the Right to Vote." This is an old question, but one that is always full of interest and will bring out a large per cent of the membership.

McElwain-Sheckler.

Louis Sheckler, of the East End, was married last night in this city to Miss Edna McElwain, of Wellsville. The ceremony was performed at the Lutheran parsonage by Rev. J. G. Reinartz. The young people will make their home in the East End.

Sermon to Young Men.

Rev. D. W. McQuiston, of the Second U. P. church, has announced that he will preach a special sermon Sunday evening to young men. The theme for the evening will be "The Glory of the Young Man." The impression has got-

ten out with some that none but young men would be expected to attend, but such is not the case, as everybody will be made welcome, although the sermon is particularly adapted to young men.

EAST END AFFAIRS.

H. H. Meanor is suffering with an attack of the grip.

Mrs. Pearl Martin, of Pennsylvania avenue, is seriously ill.

John Finley, of Georgetown, is confined to the house on accountof sickness.

Mrs. Harry Cooper went to Lisbon this morning to spend a few days visiting relatives.

Thomas Ramsey, Sr., of Pennsylvania avenue, is confined to the house with an attack of grip.

Mrs. Charles Hanley, of Pennsylvania avenue, who recently fell and broke a bone in her shoulder, is now able to be out.

Mr. and Mrs. John Logan and Mr. and Mrs. Claude McCoy, of Hooksown, moved to this city yesterday and are now living on St. George street.

Larkins & Ferguson have purchased a fine horse from George Smith, and expect to make a good showing with it in the winter matinee races in this vicinity.

Last night another meeting of the Orientals was held in the P. H. C. hall. Four new members were initiated, which swells the total membership to about 150.

The twin babies of Mr. and Mrs. D. F. White, of St. George street, who have been sick for several weeks, were considerably worse yesterday, but are slightly improved today.

Mrs. Frank White, who makes her home with her daughter, Mrs. William Price, in the East End, is confined to her bed on account of serious illness. Owing to her advanced age serious results are feared.

EAST END

OFFICERS CHOSEN

For the Second Presbyterian Church Sunday School at a Meeting Last Evening.

The regular election of the officers of the Sunday school of the Second Presbyterian church of the East End was held last night after prayer meeting. The election resulted as follows:

Superintendent—J. S. Noah.

Assistant Superintendent—Ira Chamberlain.

Treasurer—Edward Sprague.

Secretary—Wilbur McCain.

Assistant Secretary — Miss Kate Stamm.

Librarian—Miss Sadie McKinnon.

Assistant Librarian—Harley Howard.

Organist—Miss Lida Farrar.

Assistant Organist—Miss Alice Alabaugh.

U. P. Session Meeting.

The session of the Second U. P. church expects to hold open house in the afternoon on New Year's day. This is an innovation in church circles in this city and will be a very pleasant affair. The parlors of the church will be open from 2:30 till 5 p. m. and all members of the church and friends of the congregation will be made welcome. The session is composed of the following persons and they expect to devote all their energies to making the afternoon pleasant for all who attend: Rev. D. W. McQuiston, Charles Hanley, W. H. Kinney, D. F. White, J. H. Smith, James B. Elliott, W. A. Andrews and Elmer Ralston.

To Debate Woman Suffrage.

The last meeting of the present year of the Protected Home Circle will be held Tuesday evening, December 30 It is expected at this meeting to initiate all candidates who have for any reason been detained from entering the lodge before. At the close of the business meeting six members will debate the question: "Resolved, That Women Should Have the Right to Vote." This is an old question, but one that is always full of interest and will bring out a large per cent of the membership.

McElwain-Sheckler.

Louis Sheckler, of the East End, was married last night in this city to Miss Edna McElwain, of Wellsville. The ceremony was performed at the Lutheran parsonage by Rev. J. G. Reinartz. The young people will make their home in the East End.

Sermon to Young Men.

Rev. D. W. McQuiston, of the Second U. P. church, has announced that he will preach a special sermon Sunday evening to young men. The theme for the evening will be "The Glory of the Young Man." The impression has got-

ten out with some that none but young men would be expected to attend, but such is not the case, as everybody will be made welcome, although the sermon is particularly adapted to young men.

EAST END AFFAIRS.

H. H. Meanor is suffering with an attack of the grip.

Mrs. Pearl Martin, of Pennsylvania avenue, is seriously ill.

John Finley, of Georgetown, is confined to the house on accountof sickness.

Mrs. Harry Cooper went to Lisbon this morning to spend a few days visiting relatives.

Thomas Ramsey, Sr., of Pennsylvania avenue, is confined to the house with an attack of grip.

Mrs. Charles Hanley, of Pennsylvania avenue, who recently fell and broke a bone in her shoulder, is now able to be out.

Mr. and Mrs. John Logan and Mr. and Mrs. Claude McCoy, of Hooksown, moved to this city yesterday and are now living on St. George street.

Larkins & Ferguson have purchased a fine horse from George Smith, and expect to make a good showing with it in the winter matinee races in this vicinity.

Last night another meeting of the Orientals was held in the P. H. C. hall. Four new members were initiated, which swells the total membership to about 150.

The twin babies of Mr. and Mrs. D. F. White, of St. George street, who have been sick for several weeks, were considerably worse yesterday, but are slightly improved today.

Mrs. Frank White, who makes her home with her daughter, Mrs. William Price, in the East End, is confined to her bed on account of serious illness. Owing to her advanced age serious results are feared.

IT WILL COME BACK

Some East Liverpool Residents Have Learned How to Keep it Away.

Your back may not ache very long.
But the ache will return shortly.
Comes oftener—stays longer.
Unless the kidneys are relieved.
Doan's kidney pills cure all kidney ills.
East Liverpool people endorse them.

Mr. Robert M. Newell, carpenter, of West Fifth street, says: "If everyone receives the same results as I from the course of treatment prescribed by Doan's Kidney Pills, my advice is, go to Larkins' drug store, procure a box, take them according to directions and the results will inevitably follow. One box effected a cure in my case, the particulars of which I will only be too pleased to give to anyone personally calling upon me."

Sold for 50 cents per box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name Doan's, and take no other.

Exodus of Negroes.

South Bend, Ind., Dec. 18.—Four shootings and one murder, in which negroes took part, have been followed not only by closing clubs and saloons conducted by negroes, but many colored people are leaving the city. They are afraid to stay here, owing to a feeling against them among the white people. The negroes say they cannot get food and service at the resturants, although they have the money to pay for it. A committee has raised more than $500 among business men as a reward for the capture of three negroes who murdered John M. Koonsman. No further clews to the negroes have been found.

Convention of Assessors.

Harrisburg, Dec. 18.—A convention of assessors of the Pennsylvania cities of the third class was held in Harrisburg yesterday for the purpose of exchanging views on matters of assessments, with a view to the possible introduction of a uniform system. A. B. Tack, of this city, was elected chairman, and H. A. Shireman, of Reading, secretary. A convention of the mayors and solicitors of third class cities will be held today for the discussion of legislation for the benefit of cities which they represent.

A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children, for it contains no harmful substance. It is pleasant to take—both adults and children like it. Buy it and you will get the best. It always cures. For sale by Alvin H. Bulger, druggist.

Mrs. Austin's Buckwheat is the real thing, gives you the real genuine old buckwheat flavor. Be sure and get the genuine. 30

GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than seventy-five per cent. of the people in the United States, are afflicted with these two diseases and their effects: such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-Burn, Waterbrash, Gnawing and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming up of Food after Eating, Low Spirits, etc. Go to your Druggist and get a bottle of August Flower for 25 or 75 cents. Two doses will relieve you. Try it. At Charles F. Craig's.

Not a Compliment.

"Old war horse" has long been a complimentary and affectionate sobriquet bestowed on veteran political workers by their party confreres and admirers. A Washington correspondent once endeavored to compliment Susan B. Anthony, Elizabeth Cady Stanton and other women suffragists by referring to them as "old war mares." He protested that he had heard them say there could be no opprobrium in sex, but the old ladies kicked like young fillies, and the correspondent lost his job.

Exchange of Courtesies.

One of the keenest of journalists and wits, Moritz Gottlieb Saphir, had the better of the irate stranger against whom he ran by accident at the corner of a street in Munich. "Beast!" cried the offended person without waiting for an apology. "Thank you," said the journalist, "and mine is Saphir."

"You ought not to beg," she said.

"No, ma'am," admitted the tramp.

"Why do you do it?"

"Well, ma'am, I wouldn't if I could git people to give me money by jest lookin' sad."—Chicago Post.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous services.

ALLIED PRINTING TRADES UNION LABEL COUNCIL EAST LIVERPOOL, O.

THURSDAY, DECEMBER 18, 1902.

It is perhaps not generally known that under the Ohio statutes robbery or attempted robbery may be punished by life imprisonment. The amendment allowing this penalty to be imposed was passed by the legislature last winter. The object was to put a stop to the numerous outrages which have disgraced the state, wherein aged people have been beaten and tortured in the effort to make them give up their money. In most instances the victims have been farmers and their families. A short sime ago in Lorain county a band of robbers attacked a farm house in which resided three old men. The robbers met with stout resistance and one of them was shot dead. The others escaped, but were afterwards arrested, and their trials have just been completed at Elyria. One of the robbers found guilty was not extended any clemency by the jury, and the judge sentenced him to the penitentiary for life. The other pleaded guilty to attempted robbery; so for him the jury asked clemency, and he drew a sentence for 50 years. The sentences of life imprisonment is the first inflicted under the lew law. Here is a case in which the punishment fits the crime. Lorain county justice is the right sort, and if Ohio had more of it the robbery business would soon become too precarious and unprofitable to engage the attention of any considerable number of people.

The house of representatives has interpreted aright the feeling on the part of the public that the trust question is one which congress must meet and decide and in committee of the whole has appropriated half a million dollars, to be immediately available, to enable the department of justice to carry on a vigorous crusade for the enforcement of the trust laws now on the statute books. More legislation is needed, and the indications are that it will be forthcoming. The regulation of trusts ought not to be a party question, but since the Democracy has determined to make it one and throw the whole responsibility of making new laws regarding it upon the Republicans, the latter will meet the responsibility manfully, redeem party pledges and act conservatively for the good of the whole people.

Democrats are usually very hopeful. They extract encouragement from the smallest things. Just at present, however, they are wildly looking about for some favorable omen. Even the New York World and other prominent eastern journals talk exceedingly gloomily about the prospects of national victory in 1904. It sees not a ray of hope unless the Republicans commit some irreparable blunder between now and 1904, and that is not looked for. It appears that the Democratic journals foresee a more crushing defeat for their party in 1904 than overtook it in 1900 and are beginning thus early to prepare the minds of their readers for it. The effort is commendable, though unusual.

It is pleasant to have the repeated assurances of Gen. Asa W. Jones that the trolley line is coming. We have always found that Gen. Jones knows what he is talking about, and we would rather have his word about street railway building or anything else than that of a hundred unknown promoters. But of course the knockers will do all they can against his enterprise. It is their way. Gen. Jones, however, rather enjoys a fight, and as he will have plenty of help in this one, it is not difficult to foretell on whose banners victory will perch. It is all right to be watchful of the city's interests, but it is insane folly to throw obstacles in the way of a man like Gen. Jones, who is making an honest effort to give East Liverpool what it has long desired, a trolley line to Lisbon.

Because purely vegetable—yet thorough, prompt, healthful, satisfactory—

Hood's Pills

It begins to look as if there were to be an interesting and spirited contest for the Republican nomination for governor of Ohio next year. Every section of the state apparently has a favorite son, and new districts are continually being heard from.

The people of Ohio want to see the new code given a fair trial and voters should aid in this by a careful selection of candidates and the weeding out of all persons who would bring reproach on any statute.

The friends of Mr. Rockefeller will doubtless be rejoiced to learn that that gentleman's modest income has been added to by his winning, in the Ohio supreme court, a case involving $8,000,000.

Venezuela is now in favor of arbitration. She would have saved money and avoided trouble by espousing that policy earlier.

OBITUARY

John Rolley.

John Rolley died at his home on Steubenville street Tuesday evening, the result of pulmonary troubles and asthma. The funeral will be held at Wellsville Christian church tomorrow at 1 p. m., Rev. W. Continued from First Page.

franchises for an electric road along the public highway is a fake concern. The utmost time for which franchises for such roads can be granted is 25 years, and they become no good thereafter. There has even been a proposition in a bill before the legislature to limit the speed of cars operated on such roads to five miles an hour. No financiers in the country will now put their money into any scheme which proposes occupying a public road with a street railway.

"As for building a street railroad from Youngstown to Canfield, there is nobody who would more gladly welcome such a project than myself. I have a farm near that town, and would not only give right of way through it, but would give a thousand dollars to any company that would guarantee the building of a road there.

"Our East Liverpool journalist critic raises objection, saying he wants a guarantee that "each and every company franchise granted is for an independent company, and not for heirs or assigns.' If the fellow knew what he was talking about he would know that corporations have no heirs. A railroad company is composed of stockholders. They may and do frequently sell their stock. They may sell it a hundred times, but that does not affect the railroad company which remains in existence as before. We, however, are not contemplating selling the stock we shall hold, because we believe it will be a good thing. The money is in sight with which to build the road and it is ample for the purpose.

"Some criticism has been raised because we have not stated what cars we intend to use upon the road. Improvements in railway equipment are constantly being made. We propose having the best. It will be entirely new and first-class in all respects. The roadbed will also be solid and substantial with the fewest grades possible.

"Further, as to the suggestion that the franchise should limit us to electricity only. The critic should revise the statutes of Ohio. Every railroad chartered in the state states that either electricity or steam or power other than animal shall be used. If this is 'misleading' then every railroad charter in Ohio is in the same category."

Lisbon, December 18.—(Special.)—General Asa W. Jones, John H. Ruhlin and J. R. Long, all of Youngstown, who have been doing field work for the Youngstown & Southern railway, accompanied by Frank Foutts, an engineer of Boston, Mass., were in town yesterday afternoon on their way to East Liverpool, going over the route of the proposed railway. General Jones says the railroad projectors are in dead earnest. The officials of the road are well known men, which counts much in their favor, and they received much encouragement from the citizens hereabout.

In speaking of the Myrkle & Harder Stock company, which opens a weeks' engagement at the opera house Monday night, the Streator Illinois Free Press says: "The Myrkle & Harder Company began a weeks' engagement at the opera house last evening, playing to standing room only. 'A Man of Mystery' was the bill and judging from the frequent applause and hearty laughter the audience seemed to be well pleased."

ALLIED PRINTING TRADES UNION LABEL COUNCIL EAST LIVERPOOL, O.

THURSDAY, DECEMBER 18, 1902.

It is perhaps not generally known that under the Ohio statutes robbery or attempted robbery may be punished by life imprisonment. The amendment allowing this penalty to be imposed was passed by the legislature last winter. The object was to put a stop to the numerous outrages which have disgraced the state, wherein aged people have been beaten and tortured in the effort to make them give up their money. In most instances the victims have been farmers and their families. A short sime ago in Lorain county a band of robbers attacked a farm house in which resided three old men. The robbers met with stout resistance and one of them was shot dead. The others escaped, but were afterwards arrested, and their trials have just been completed at Elyria. One of the robbers found guilty was not extended any clemency by the jury, and the judge sentenced him to the penitentiary for life. The other pleaded guilty to attempted robbery; so for him the jury asked clemency, and he drew a sentence for 50 years. The sentences of life imprisonment is the first inflicted under the lew law. Here is a case in which the punishment fits the crime. Lorain county justice is the right sort, and if Ohio had more of it the robbery business would soon become too precarious and unprofitable to engage the attention of any considerable number of people.

The house of representatives has interpreted aright the feeling on the part of the public that the trust question is one which congress must meet and decide and in committee of the whole has appropriated half a million dollars, to be immediately available, to enable the department of justice to carry on a vigorous crusade for the enforcement of the trust laws now on the statute books. More legislation is needed, and the indications are that it will be forthcoming. The regulation of trusts ought not to be a party question, but since the Democracy has determined to make it one and throw the whole responsibility of making new laws regarding it upon the Republicans, the latter will meet the responsibility manfully, redeem party pledges and act conservatively for the good of the whole people.

Democrats are usually very hopeful. They extract encouragement from the smallest things. Just at present, however, they are wildly looking about for some favorable omen. Even the New York World and other prominent eastern journals talk exceedingly gloomily about the prospects of national victory in 1904. It sees not a ray of hope unless the Republicans commit some irreparable blunder between now and 1904, and that is not looked for. It appears that the Democratic journals foresee a more crushing defeat for their party in 1904 than overtook it in 1900 and are beginning thus early to prepare the minds of their readers for it. The effort is commendable, though unusual.

It is pleasant to have the repeated assurances of Gen. Asa W. Jones that the trolley line is coming. We have always found that Gen. Jones knows what he is talking about, and we would rather have his word about street railway building or anything else than that of a hundred unknown promoters. But of course the knockers will do all they can against his enterprise. It is their way. Gen. Jones, however, rather enjoys a fight, and as he will have plenty of help in this one, it is not difficult to foretell on whose banners victory will perch. It is all right to be watchful of the city's interests, but it is insane folly to throw obstacles in the way of a man like Gen. Jones, who is making an honest effort to give East Liverpool what it has long desired, a trolley line to Lisbon.

It begins to look as if there were to be an interesting and spirited contest for the Republican nomination for governor of Ohio next year. Every section of the state apparently has a favorite son, and new districts are continually being heard from.

The people of Ohio want to see the new code given a fair trial and voters should aid in this by a careful selection of candidates and the weeding out of all persons who would bring reproach on any statute.

The friends of Mr. Rockefeller will doubtless be rejoiced to learn that that gentleman's modest income has been added to by his winning, in the Ohio supreme court, a case involving $8,000,000.

Venezuela is now in favor of arbitration. She would have saved money and avoided trouble by espousing that policy earlier.

OBITUARY

John Rolley.

John Rolley died at his home on Steubenville street Tuesday evening, the result of pulmonary troubles and asthma. The funeral will be held at Wellsville Christian church tomorrow at 1 p. m., Rev. W. C. Prewitt, officiating. Mr. Rolley was an honored soldier of the civil war and well known and esteemed in Wellsville.

franchises for an electric road along the public highway is a fake concern. The utmost time for which franchises for such roads can be granted is 25 years, and they become no good thereafter. There has even been a proposition in a bill before the legislature to limit the speed of cars operated on such roads to five miles an hour. No financiers in the country will now put their money into any scheme which proposes occupying a public road with a street railway.

"As for building a street railroad from Youngstown to Canfield, there is nobody who would more gladly welcome such a project than myself. I have a farm near that town, and would not only give right of way through it, but would give a thousand dollars to any company that would guarantee the building of a road there.

"Our East Liverpool journalist critic raises objection, saying he wants a guarantee that "each and every company franchise granted is for an independent company, and not for heirs or assigns.' If the fellow knew what he was talking about he would know that corporations have no heirs. A railroad company is composed of stockholders. They may and do frequently sell their stock. They may sell it a hundred times, but that does not affect the railroad company which remains in existence as before. We, however, are not contemplating selling the stock we shall hold, because we believe it will be a good thing. The money is in sight with which to build the road and it is ample for the purpose.

"Some criticism has been raised because we have not stated what cars we intend to use upon the road. Improvements in railway equipment are constantly being made. We propose having the best. It will be entirely new and first-class in all respects. The roadbed will also be solid and substantial with the fewest grades possible.

"Further, as to the suggestion that the franchise should limit us to electricity only. The critic should revise the statutes of Ohio. Every railroad chartered in the state states that either electricity or steam or power other than animal shall be used. If this is 'misleading' then every railroad charter in Ohio is in the same category."

Lisbon, December 18.—(Special.)—General Asa W. Jones, John H. Ruhlin and J. R. Long, all of Youngstown, who have been doing field work for the Youngstown & Southern railway, accompanied by Frank Foutts, an engineer of Boston, Mass., were in town yesterday afternoon on their way to East Liverpool, going over the route of the proposed railway. General Jones says the railroad projectors are in dead earnest. The officials of the road are well known men, which counts much in their favor, and they received much encouragement from the citizens hereabout.

ALLIED PRINTING TRADES UNION LABEL COUNCIL EAST LIVERPOOL, O.

THURSDAY, DECEMBER 18, 1902.

It is perhaps not generally known that under the Ohio statutes robbery or attempted robbery may be punished by life imprisonment. The amendment allowing this penalty to be imposed was passed by the legislature last winter. The object was to put a stop to the numerous outrages which have disgraced the state, wherein aged people have been beaten and tortured in the effort to make them give up their money. In most instances the victims have been farmers and their families. A short sime ago in Lorain county a band of robbers attacked a farm house in which resided three old men. The robbers met with stout resistance and one of them was shot dead. The others escaped, but were afterwards arrested, and their trials have just been completed at Elyria. One of the robbers found guilty was not extended any clemency by the jury, and the judge sentenced him to the penitentiary for life. The other pleaded guilty to attempted robbery; so for him the jury asked clemency, and he drew a sentence for 50 years. The sentences of life imprisonment is the first inflicted under the lew law. Here is a case in which the punishment fits the crime. Lorain county justice is the right sort, and if Ohio had more of it the robbery business would soon become too precarious and unprofitable to engage the attention of any considerable number of people.

The house of representatives has interpreted aright the feeling on the part of the public that the trust question is one which congress must meet and decide and in committee of the whole has appropriated half a million dollars, to be immediately available, to enable the department of justice to carry on a vigorous crusade for the enforcement of the trust laws now on the statute books. More legislation is needed, and the indications are that it will be forthcoming. The regulation of trusts ought not to be a party question, but since the Democracy has determined to make it one and throw the whole responsibility of making new laws regarding it upon the Republicans, the latter will meet the responsibility manfully, redeem party pledges and act conservatively for the good of the whole people.

Democrats are usually very hopeful. They extract encouragement from the smallest things. Just at present, however, they are wildly looking about for some favorable omen. Even the New York World and other prominent eastern journals talk exceedingly gloomily about the prospects of national victory in 1904. It sees not a ray of hope unless the Republicans commit some irreparable blunder between now and 1904, and that is not looked for. It appears that the Democratic journals foresee a more crushing defeat for their party in 1904 than overtook it in 1900 and are beginning thus early to prepare the minds of their readers for it. The effort is commendable, though unusual.

It is pleasant to have the repeated assurances of Gen. Asa W. Jones that the trolley line is coming. We have always found that Gen. Jones knows what he is talking about, and we would rather have his word about street railway building or anything else than that of a hundred unknown promoters. But of course the knockers will do all they can against his enterprise. It is their way. Gen. Jones, however, rather enjoys a fight, and as he will have plenty of help in this one, it is not difficult to foretell on whose banners victory will perch. It is all right to be watchful of the city's interests, but it is insane folly to throw obstacles in the way of a man like Gen. Jones, who is making an honest effort to give East Liverpool what it has long desired, a trolley line to Lisbon.

It begins to look as if there were to be an interesting and spirited contest for the Republican nomination for governor of Ohio next year. Every section of the state apparently has a favorite son, and new districts are continually being heard from.

The people of Ohio want to see the new code given a fair trial and voters should aid in this by a careful selection of candidates and the weeding out of all persons who would bring reproach on any statute.

The friends of Mr. Rockefeller will doubtless be rejoiced to learn that that gentleman's modest income has been added to by his winning, in the Ohio supreme court, a case involving $8,000,000.

Venezuela is now in favor of arbitration. She would have saved money and avoided trouble by espousing that policy earlier.

franchises for an electric road along the public highway is a fake concern. The utmost time for which franchises for such roads can be granted is 25 years, and they become no good thereafter. There has even been a proposition in a bill before the legislature to limit the speed of cars operated on such roads to five miles an hour. No financiers in the country will now put their money into any scheme which proposes occupying a public road with a street railway.

"As for building a street railroad from Youngstown to Canfield, there is nobody who would more gladly welcome such a project than myself. I have a farm near that town, and would not only give right of way through it, but would give a thousand dollars to any company that would guarantee the building of a road there.

"Our East Liverpool journalist critic raises objection, saying he wants a guarantee that "each and every company franchise granted is for an independent company, and not for heirs or assigns.' If the fellow knew what he was talking about he would know that corporations have no heirs. A railroad company is composed of stockholders. They may and do frequently sell their stock. They may sell it a hundred times, but that does not affect the railroad company which remains in existence as before. We, however, are not contemplating selling the stock we shall hold, because we believe it will be a good thing. The money is in sight with which to build the road and it is ample for the purpose.

"Some criticism has been raised because we have not stated what cars we intend to use upon the road. Improvements in railway equipment are constantly being made. We propose having the best. It will be entirely new and first-class in all respects. The roadbed will also be solid and substantial with the fewest grades possible.

"Further, as to the suggestion that the franchise should limit us to electricity only. The critic should revise the statutes of Ohio. Every railroad chartered in the state states that either electricity or steam or power other than animal shall be used. If this is 'misleading' then every railroad charter in Ohio is in the same category."

Lisbon, December 18.—(Special.)—General Asa W. Jones, John H. Ruhlin and J. R. Long, all of Youngstown, who have been doing field work for the Youngstown & Southern railway, accompanied by Frank Foutts, an engineer of Boston, Mass., were in town yesterday afternoon on their way to East Liverpool, going over the route of the proposed railway. General Jones says the railroad projectors are in dead earnest. The officials of the road are well known men, which counts much in their favor, and they received much encouragement from the citizens hereabout.

bers of the association will be established by the executive committee, and must be adhered to. No member will be allowed to give or allow any extra or additional discount, rebate or gratuity to any customer, or to offer any inducement in money or in connection with the sale of other goods. A quotation by either the principal or a representative of the firm in violation of terms or prices will be considered equivalent to an actual sale in violation. To prevent secret violations the association, in the person of its secretary or treasurer, may enter upon the premises of members at all times for the necessary inspection of the business and books and enforce the agreement. A regular scale of premiums upon sales is established.

It is proposed to market all semi-porcelain, white granite and C. C. wares made by members of the association at certain fixed base prices to all classes of trade alike. The following are the base discounts from the standard list:

Semi-porcelain—Run of kiln, 55 per cent; thirds, 66 2-3.

White granite—Run of kiln, 55 per cent.; thirds, 66 2-3.

Cream colored—Run of kiln, 44 per cent.; thirds, 60 and 5.

The premiums will range from 2 to 16 per cent. on purchases from $500 to $22,000. For each additional $1,000 up to and including $32,000 1-10 of 1 per cent. is to be added to the premium rate and for each additional $1,000 over and above $32,000 ½ of 1 per cent. is to be added up to and including $52,000.

Good Enough For a Beast.

A droll little story is told of Mr. W. S. Gilbert. He put up his horse one day at a small country inn, on the signboard of which was painted conspicuously the notice, "Entertainment For Man and Beast." When his lunch was brought, he looked dissatisfied and surprised the waiter by saying, "This is all very well so far, but where is the entertainment for the man?"—London Tit-Bits.

The Candid Pepys.

No man has ever yet succeeded in painting an honest portrait of himself in an autobiography however sedulously he may have set to work about it. In spite of his candid purpose he omits necessary touches and adds superfluous ones. At times he cannot help draping his thought, and the least shred of drapery disguises it. It is only the diarist who accomplishes the feat of self portraiture, and he, without any such end in view, does it unconsciously. A man cannot keep a daily record of his comings and goings and the little items that make up the sum of his life and not inadvertently give himself away at every turn. He lays bare his heart with a candor not possible to the self consciousness that inevitably colors premeditated revelation. Unknowingly he wears his heart upon his pen for daws to peck at. While Mr. Samuel Pepys was filling those small octavo pages with his perplexing cipher he never once imagined that he was adding a photographic portrait of himself to the world's gallery of immortals. We are more intimately acquainted with Mr. Samuel Pepys, the inner man—his little meannesses and his generosities—than we are with half the persons we call our dear friends.—T. B. Aldrich in Atlantic.

Punctuation.

In the earliest Latin inscriptions and manuscripts no system of punctuation is followed. The full point (.) was gradually introduced, being placed on the level, middle or top of the letters. In the minuscule manuscripts of the eighth, ninth and following centuries the period, on the line or high, was first used; then the comma and semicolon and the inverted semicolon, whose power was rather stronger than that of the comma. Some say that the Caroline minuscules of the ninth century exhibit the note of interrogation, for which the inverted semicolon, which was gradually dropped, may have furnished the mark. The Greeks use the semicolon as an interrogation point. In English the colon is said to have been introduced about 1485, the comma about 1501 and the semicolon about 1570. In Sir Philip Sidney's "Arcadia" (1587) all the punctuation points appear, including the note of interrogation, asterisk and parentheses.

Incorrigible.

It was decided that Mr. Wright must administer a stern lecture to his four-year-old daughter Florence. The little girl had been naughty, but she did not seem to appreciate the fact, and Mr. Wright reluctantly undertook a "scolding."

He hated to make the tender little heart ache and to see the dear child cry, but he forced himself to speak judiciously and severely. He recounted her misdeeds and explained the why and wherefore of his stern rebuke. Mrs. Wright sat by, looking duly impressed.

Finally Mr. Wright paused for breath and also to hear the small culprit acknowledge her error. The scolding was never continued. Florence turned a face beaming with admiration to her mother and said innocently:

"Isn't papa interesting?"

Wellsville Sends Solicitor to Secure Obedience to Franchise.

THE SWITCH ORDINANCE UP

Amended And Passed Second Reading. Contractor Rinehart Attacked, But He Says the Matters Complained of Are Not His Fault—Other Matters.

Only six members of council were present at the special meeting held last evening for the purpose of placing the new switch ordinance upon its second reading. Councilmen Weaver, Smith, McLain and Bissett were the absent ones.

An amendment was made fixing a time that the railroad company should do their filling in at street crossings. The railroad company will not have to do filling in at the same time as the city. The ordinance was placed on its second reading.

After this matter was disposed of, Mayor Fogo requested council to send a representative, for the city, to Lisbon either Saturday or Monday to meet with the county commissioners relative to the street railway situation in this city. Council ordered City Solicitor Boyd to go to Lisbon and register a big protest against the street railway company in its recent and past treatment of the city. Council seems determined to bring the company to time. A 12-minute schedule it is determined to have.

Mayor Fogo made a complete explanation to council of the conditions of the roadway on Spring Hill avenue, which has partially been paved by Contractor Rinehart. For the past two days this road has been in a very bad condition. There are large piles of sand and gravel in the middle of the street and small springs are bubbling out from the center of the street and flowing down the hill.

A motion was finally passed that the matter be placed in the hands of the improvement committee with power to act. The mayor suggested that they act at once, as there is a funeral both today and tomorrow.

Mr. Rinehart appeared at the meeting and matters were explained to him. He stated that he had simply worked as hard as he could to finish Spring Hill avenue before the cold weather set in, and that he had found it an impossible task. He said he was not responsible for the present condition of the street.

Mayor Fogo brought up another matter against Mr. Rinehart. He stated that Rinehart had cut several feet of a good lead water pipe off the property of Mrs. Ralph Nattress on Spring Hill avenue, thereby cutting the house off of all water supply. Mrs. Nattress has a very sick husband, making it very hard for her to get along, especially without water. She has paid heavy taxes in this city in the past 30 years. The mayor said James Rinehart, a brother of the contractor, had sent plumbers to Mrs. Nattress' place to fix up the water pipe, putting in a piece of galvanized iron pipe. Mrs. Nattress demanded the same kind of pipe which the contractor had torn away. Council thought Mrs. Nattress right in this. Mr. Rinehart stated that he knew nothing of Mrs. Nattress' complaint, but would investigate.

Councilman Brennan made a motion to adjourn, which was seconded and passed so quickly that several of the councilmen did not know what they had voted upon. They were called back by Councilman Henderson, however, who thought that they ought to finish the business of the evening and not go away leaving things half done.

Financial matters were then talked over for a short time, several committees reporting that the reason certain things had not been done was that there was no money in their respective funds with which to pay for the work. Solicitor Boyd stated that money would be paid into several funds before the first of the year.

Council adjourned to meet again this evening for the purpose of passing the switch ordinance on its third and final reading.

Grounds For Divorce.

A Salem (Mass.) man who sought a divorce proved, according to a Boston paper, that his wife tore the sign from his store, put into his tea something that made him vomit, threw his clothes downstairs, filled his shoes with cold water, put swill in his overcoat pocket, threw water over him as he went downstairs, put pepper in his bed, made him sleep in an attic, wouldn't do his washing, wouldn't mend his clothes, made him darn his socks and sew buttons on his shirts, spat on his toast, when he was getting his breakfast, rocked in a squeaky chair for hours at a time to annoy him, put grease on his Sunday clothes, wouldn't let him have a fire on the coldest evenings so that he often had to go to bed at 7 p. m. to keep warm, and finally "she rubbed a butcher knife over his neck and threatened to blow out his brains."

The Worm Turned.

He loved her devotedly. He was also bowlegged. Both facts gave him pain at times.

He passed it by with a rueful smile when she merrily said that his affliction gave him such an arch look and that, after all, he was a pretty good sort when you got on to his curves. He bore it patiently when she referred to his walk as parenthetical progress. But he rebelled and broke the engagement when she called her pet dog through the wicket formed by his legs.

"I may not be so over ornamental," said he, "but I emphatically object to being made useful so unseasonably early in the game!"—Smart Set.

A Quick Witted Waiter.

During mosquito season a party of diners seated themselves at table in an outdoor restaurant, and a man of the party took the bill of fare and began to study it. A mosquito lighted upon it and instantly lost its life by a quick blow from the man, its little carcass remaining on the bill. Pointing to it, the man said to the waiter:

"Do you serve those on toast?" And the waiter promptly replied:

"They're on the bill, sir!"—New York Times.

The Origin of Johnnycake.

No doubt many others besides the writer may have wondered how johnnycake came to be thus named. When a child, I settled it for myself by imagining John Smith, whom Pocahontas saved, had something to do with it. The cake, being made of Indian meal, became thus associated in my mind with the historical name. A writer in the Housekeeper says:

In tracing the term we find ourselves at a time antedating by many years steam cars and hotels on wheels, in an age when mankind depended entirely upon his four footed companions for transportation and had only saddlebags in which to carry his luggage. Taverns were few and far apart, and a lunch was always acceptable. Cornmeal, forming so large a part of the dietary in those days, held a chief place in making up the lunch. Wet with water and a little salt added, it was baked in a shape that stored away in the saddlebags nicely and was called journey cake. This is the origin of our modern, unconventional johnnycake.

The Candid Pepys.

No man has ever yet succeeded in painting an honest portrait of himself in an autobiography however sedulously he may have set to work about it. In spite of his candid purpose he omits necessary touches and adds superfluous ones. At times he cannot help draping his thought, and the least shred of drapery disguises it. It is only the diarist who accomplishes the feat of self portraiture, and he, without any such end in view, does it unconsciously. A man cannot keep a daily record of his comings and goings and the little items that make up the sum of his life and not inadvertently give himself away at every turn. He lays bare his heart with a candor not possible to the self consciousness that inevitably colors premeditated revelation. Unknowingly he wears his heart upon his pen for daws to peck at. While Mr. Samuel Pepys was filling those small octavo pages with his perplexing cipher he never once imagined that he was adding a photographic portrait of himself to the world's gallery of immortals. We are more intimately acquainted with Mr. Samuel Pepys, the inner man—his little meannesses and his generosities—than we are with half the persons we call our dear friends.—T. B. Aldrich in Atlantic.

Punctuation.

In the earliest Latin inscriptions and manuscripts no system of punctuation is followed. The full point (.) was gradually introduced, being placed on the level, middle or top of the letters. In the minuscule manuscripts of the eighth, ninth and following centuries the period, on the line or high, was first used; then the comma and semicolon and the inverted semicolon, whose power was rather stronger than that of the comma. Some say that the Caroline minuscules of the ninth century exhibit the note of interrogation, for which the inverted semicolon, which was gradually dropped, may have furnished the mark. The Greeks use the semicolon as an interrogation point. In English the colon is said to have been introduced about 1485, the comma about 1501 and the semicolon about 1570. In Sir Philip Sidney's "Arcadia" (1587) all the punctuation points appear, including the note of interrogation, asterisk and parentheses.

Incorrigible.

It was decided that Mr. Wright must administer a stern lecture to his four-year-old daughter Florence. The little girl had been naughty, but she did not seem to appreciate the fact, and Mr. Wright reluctantly undertook a "scolding."

He hated to make the tender little heart ache and to see the dear child cry, but he forced himself to speak judiciously and severely. He recounted her misdeeds and explained the why and wherefore of his stern rebuke. Mrs. Wright sat by, looking duly impressed.

Finally Mr. Wright paused for breath and also to hear the small culprit acknowledge her error. The scolding was never continued. Florence turned a face beaming with admiration to her mother and said innocently:

"Isn't papa interesting?"

Wellsville Sends Solicitor to Secure Obedience to Franchise.

THE SWITCH ORDINANCE UP

Amended And Passed Second Reading. Contractor Rinehart Attacked, But He Says the Matters Complained of Are Not His Fault—Other Matters.

Only six members of council were present at the special meeting held last evening for the purpose of placing the new switch ordinance upon its second reading. Councilmen Weaver, Smith, McLain and Bissett were the absent ones.

An amendment was made fixing a time that the railroad company should do their filling in at street crossings. The railroad company will not have to do filling in at the same time as the city. The ordinance was placed on its second reading.

After this matter was disposed of, Mayor Fogo requested council to send a representative, for the city, to Lisbon either Saturday or Monday to meet with the county commissioners relative to the street railway situation in this city. Council ordered City Solicitor Boyd to go to Lisbon and register a big protest against the street railway company in its recent and past treatment of the city. Council seems determined to bring the company to time. A 12-minute schedule it is determined to have.

Mayor Fogo made a complete explanation to council of the conditions of the roadway on Spring Hill avenue, which has partially been paved by Contractor Rinehart. For the past two days this road has been in a very bad condition. There are large piles of sand and gravel in the middle of the street and small springs are bubbling out from the center of the street and flowing down the hill.

A motion was finally passed that the matter be placed in the hands of the improvement committee with power to act. The mayor suggested that they act at once, as there is a funeral both today and tomorrow.

Mr. Rinehart appeared at the meeting and matters were explained to him. He stated that he had simply worked as hard as he could to finish Spring Hill avenue before the cold weather set in, and that he had found it an impossible task. He said he was not responsible for the present condition of the street.

Mayor Fogo brought up another matter against Mr. Rinehart. He stated that Rinehart had cut several feet of a good lead water pipe off the property of Mrs. Ralph Nattress on Spring Hill avenue, thereby cutting the house off of all water supply. Mrs. Nattress has a very sick husband, making it very hard for her to get along, especially without water. She has paid heavy taxes in this city in the past 30 years. The mayor said James Rinehart, a brother of the contractor, had sent plumbers to Mrs. Nattress' place to fix up the water pipe, putting in a piece of galvanized iron pipe. Mrs. Nattress demanded the same kind of pipe which the contractor had torn away. Council thought Mrs. Nattress right in this. Mr. Rinehart stated that he knew nothing of Mrs. Nattress' complaint, but would investigate.

Councilman Brennan made a motion to adjourn, which was seconded and passed so quickly that several of the councilmen did not know what they had voted upon. They were called back by Councilman Henderson, however, who thought that they ought to finish the business of the evening and not go away leaving things half done.

Financial matters were then talked over for a short time, several committees reporting that the reason certain things had not been done was that there was no money in their respective funds with which to pay for the work. Solicitor Boyd stated that money would be paid into several funds before the first of the year.

Council adjourned to meet again this evening for the purpose of passing the switch ordinance on its third and final reading.

MACCABEES' ELECTION

Grounds For Divorce.

A Salem (Mass.) man who sought a divorce proved, according to a Boston paper, that his wife tore the sign from his store, put into his tea something that made him vomit, threw his clothes downstairs, filled his shoes with cold water, put swill in his overcoat pocket, threw water over him as he went downstairs, put pepper in his bed, made him sleep in an attic, wouldn't do his washing, wouldn't mend his clothes, made him darn his socks and sew buttons on his shirts, spat on his toast, when he was getting his breakfast, rocked in a squeaky chair for hours at a time to annoy him, put grease on his Sunday clothes, wouldn't let him have a fire on the coldest evenings so that he often had to go to bed at 7 p. m. to keep warm, and finally "she rubbed a butcher knife over his neck and threatened to blow out his brains."

The Worm Turned.

He loved her devotedly. He was also bowlegged. Both facts gave him pain at times.

He passed it by with a rueful smile when she merrily said that his affliction gave him such an arch look and that, after all, he was a pretty good sort when you got on to his curves. He bore it patiently when she referred to his walk as parenthetical progress. But he rebelled and broke the engagement when she called her pet dog through the wicket formed by his legs.

"I may not be so over ornamental," said he, "but I emphatically object to being made useful so unseasonably early in the game!"—Smart Set.

A Quick Witted Waiter.

During mosquito season a party of diners seated themselves at table in an outdoor restaurant, and a man of the party took the bill of fare and began to study it. A mosquito lighted upon it and instantly lost its life by a quick blow from the man, its little carcass remaining on the bill. Pointing to it, the man said to the waiter:

"Do you serve those on toast?" And the waiter promptly replied:

"They're on the bill, sir!"—New York Times.

The Origin of Johnnycake.

No doubt many others besides the writer may have wondered how johnnycake came to be thus named. When a child, I settled it for myself by imagining John Smith, whom Pocahontas saved, had something to do with it. The cake, being made of Indian meal, became thus associated in my mind with the historical name. A writer in the Housekeeper says:

In tracing the term we find ourselves at a time antedating by many years steam cars and hotels on wheels, in an age when mankind depended entirely upon his four footed companions for transportation and had only saddlebags in which to carry his luggage. Taverns were few and far apart, and a lunch was always acceptable. Cornmeal, forming so large a part of the dietary in those days, held a chief place in making up the lunch. Wet with water and a little salt added, it was baked in a shape that stored away in the saddlebags nicely and was called journey cake. This is the origin of our modern, unconventional johnnycake.

Get your husband or brother a nice pair of our dress shoes or a pair of our new slippers. They'll appreciate them.

Mr. Paul Alexandre, the celebrated Automobilist, after his record-breaking run says: "The terrific strain on my nerves added to the constant pounding and jumping of my heart almost set me crazy. I was ill for days with Nervous Prostration and weakness, with dull, aching head and a bad taste in my mouth. I noticed a bottle of 'Blood Wine' in the training quarters, and took some, and it certainly did the business for me. Made my head clear, nerves steady, stomach and heart strong and healthy. 'Blood Wine' will go with me on all my trips hereafter."

To run an automobile in record-breaking time requires a cool head, steady nerve, good eye, strong pair of lungs. The expert must be free from stiffness, lameness, aches and pains. "Blood Wine" fills the first requisite; it gives him good blood. It stimulates his nerve. It hardens the muscles and makes him have greater endurance.

FREE BLOOD TEST—You can have your blood examined under the powerful microscope by an expert bacteriologist without charge by sending your name to the Louis Dandelin Co., Worcester, Mass. This is the only accurate way to diagnose a disease.

"Blood Wine" costs fifty cents a bottle. It is the only medicine of its kind in the world. Don't be fooled. "Blood Wine" is a remarkable medicine. Don't accept a substitute.

DISCUSSING TERMS.

It Has Been Decided That the Venezuelan Difficulty Shall Be Arbitrated.

COERCION FEARED BY CASTRO.

Balfour Declared in House of Commons that Peaceful Blockade Was Impossible—Minister Bowen Will Likely Be One of Arbitrators.

Caracas, Dec. 18.—It has been decided that the Venezuelan difficulty shall be arbitrated and the terms of discussion of settlement is now going on. United States Minister Bowen undoubtedly will be one of the arbitrators.

The government fears that coercive measures will follow the establishment of the blockade.

The leading citizens of Caracas have addressed a note to President Castro asking him to give full powers to United States Minister Bowen to effect a termination of the present difficulty. This note was transmitted to President Castro at 1 o'clock yesterday afternoon. It is signed by all the leading merchants, bankers and agriculturists of Caracas. It reflects truly the consensus of current opinion among the business element of this city. The men who signed the note met again last night to discuss ways and means of obtaining money with which Venezuela can meet her obligations as well as the guarantees which it will be possible to offer to her creditors.

The note is signed by more than 200 prominent citizens of Caracas.

Venezuelan Vessels Only.

The blockade of La Guaira, notification of which, in the names of Great Britain and Germany, was communicated to the Venezuelan government Dec. 13, went into effect yesterday. The order applies to Venezuelan vessels only.

The Italian minister left Caracas yesterday morning.

The Venezuelan newspapers are still ignorant of the fact that the Italian minister presented an ultimatum to the Venezuelan government Tuesday afternoon, and therefore there were no crowds at the railway station and no hostile demonstration. The city was quiet yesterday.

Italy Sends Cruiser.

Rome, Dec. 18.—The Italian cruiser Agordat has been ordered to proceed at once for Venezuela.

The rejection by Venezuela of the Italian ultimatum was expected, consequently the announcement that this had been done created no sensation and no surprise. During the day frequent communications were exchanged between Italy and Great Britain and Germany on the question of arbitration. The friendly attitude of the United States is particularly appreciated here. Opinion generally favors arbitration, although it is understood that Great Britain and Germany are the leaders and have priority in the present action. At the weekly diplomation reception Ambassador Meyer and Signor Prinetti had a lengthy conference on Venezuelan affairs.

Ridicules Idea of Peaceful Blockade.

London, Dec. 18.—"If the seizure of Venezuelan gunboats does not result as we all hope, it will be necessary to proceed to a blockade."

In the speech in the house of commons yesterday, during which Premier Balfour made the above statement, he conveyed the impression of possible, though as yet unnecessary, further hostilities, but that also arbitration on the same basis might be accepted.

Immediately after uttering these words the premier said that in the event of a blockade no difference would be made between the ships of neutral powers, who would not be consulted. He then ridiculed the idea of a peaceful blockade. When he said: "I think it quite likely that the United States government would not think there is such a thing as a pacific blockade, and I personally take the same view that evidently a blockade does involve a state of war."

The house expressed its approbation. Throughout the discussion the tenor of questions and answers showed regard for the views of the United States. Mr. Balfour assured the house that the papers in the Venezuelan matter were in course of being prepared as rapidly as possible, and answering a question by Sir William Vernon Harcourt, he said they would include the communications with reference to Venezuela, which had passed between his majesty's government and the United States. Sir William Vernon Harcourt asked this question: "So we may know how we stand with reference to the government of the United States?"

Premier Balfour gave no hint to the house as to the ultimate result of the arbitration proposal and nothing further in this respect has been given out at the foreign office.

Minister Bowen Given Assistant.

Washington, Dec. 18.—The following cablegram was sent yesterday by the navy department to Admiral Dewey, in command of the combined fleets, addressed to San Juan:

"Send competent officer with dispatch in torpedo boat destroyer or other vessel to Caracas as assistant to American minister."

The following cablegram also was sent to Commander Diehl, of the Marietta, now lying at La Guaira:

"Send Van Duseen (executive officer of the Marietta) as assistant to the American minister temporarily."

The officer from Dewey's fleet will relieve Lieutenant Commander Van Duseen, who is only an hour distant from Caracas, when he arrives upon the scene. While no explanation is given for the above orders it is believed that these measures are being taken to guard against an interruption in the cable connecting Mr. Bowen with his home government.

It was stated at the navy department that one reason for sending the officers to Caracas was the fact that Mr. Bowen is almost overwhelmed with the amount of work imposed upon him by his many charges.

No Effort to Resist.

There will be no effort on the part of this government to resist a war blockade of the Venezuelan coast as against merchant ships. Custom requires that due notice shall be given of the blockade, and that fact, taken in connection with the declarations that have been made in the British parliament by the authorized representatives of the British government, will, it is understood, be sufficient to justify all neutral nations in the understanding that a state of war does actually exist. This might in the end require the issue of a proclamation of neutrality by President Roosevelt, but this, it is stated, would not be timely now.

GENERAL FOREIGN NEWS.

Marseilles, Dec. 18.—The strike is at an end. The sailors have voted to resume work today.

Rome, Dec. 18.—It is reported that Bishop James E. Quigley, of Buffalo, N. Y., has been appointed archbishop of Chicago in succession to the late Archbishop Feehan.

San Juan, P. R., Dec. 18.—The exercising of the American fleet in squadron formation was continued yesterday. The Texas arrived here Tuesday and has taken her place in the battleship fleet.

Vienna, Dec. 18.—Acording to dispatches from Hungary 63 persons were frozen to death there during the last three days. Wolves are devastating the sheep folds and have devoured three shepherds.

St. Petersburg, Dec. 18.—It is announced in a special dispatch from Seoul that the United States minister to Corea has demanded the payment of $1,500,000 due to the builders of the electric railroad.

Port Au Prince, Hayti, Dec. 18.—Order has been re-established here. During the fighting Tuesday a number of persons were wounded, including two Italians, who were seriously injured. Two men accused of committing crimes were executed during the day without trial. The United States legation is protected by troops.

San Juan, P. R., Dec. 18.—Collector Cruzen yesterday seized several hundred cases of liquors which had been brought from St. Thomas on board the United States lighthouse tender Laurel. It is reported that certain army and navy officers, as well as some prominent citizens of San Juan, are implicated in the matter.

SHOT HERSELF IN HEAD.

Woman Commits Suicide Through Fear of Insanity.

Cleveland, Dec. 18.—Mrs. W. W. Jones, wife of a railroad station agent at Rockport, O., shot herself in the head in front of the postoffice late yesterday afternoon and died at 1 o'clock last night in a hospital. The husband of the dead woman gives as a cause for the deed her belief that she was becoming insane and she had been heard to say that she would rather be dead than have to go to an asylum.

The woman shot herself immediately after receiving a letter at the general delivery of the postoffice. She fell to the sidewalk while hundreds of persons were passing by, and the sight of the woman gasping for breath, while the blood was streaming from the bullet wound, caused intense excitement.

THE WAGE QUESTION.

Fairness of Statement Hardee in By the Pennsylvania Company Challenged.

OPERATORS OPEN THEIR CASE.

Attorneys Representing Non-Union Men Began Calling Witnesses Yesterday—Deputy Factory Inspector Examined Regarding Child Labor.

Scranton, Pa., Dec. 18.—The anthracite coal operators opened their side of the controversy with the mine workers yesterday before the strike commission and the attorneys who are on record before the commission as representing the non-union men, who have been admitted to the arbitration scheme, began calling witnesses. The sessions yesterday were probably the liveliest yet held by the commission. At the morning session the miners' lawyers challenged the fairness of certain wage statements handed to the commission by the Pennsylvania Coal company, and in the afternoon Lawyer Darrow had a spirited discussion with Chairman Gray as to whether or not the miners had a right to know who is paying the lawyers representing the non-union men before the commission. Mr. Darrow asserted they were employed by the coal operators. The commission decided it was immaterial who was back of the non-union men.

Preceding this Simon P. Wolverton, counsel for the Reading company, who delivered the opening address on behalf of all the large coal companies, made the point in his address that the recognition of the union is not an issue before the commission, which brought out a protest from Mr. Darrow. The latter claimed that if it were not, then the operators should be forbidden from presenting testimony that tended to show the union was responsible for all the alleged violence committed during the strike.

Child Labor.

The alleged unfairness of the wage statements came to the notice of the commission as a result of its inquiry into the child labor question in this immediate vicinity. Several little girls testified on Monday that they worked all night in a silk mill in order to help their fathers along, who were employed in the mines and received poor pay. Yesterday Everett Warren, who represents the Erie company, which controls the Pennsylvania Coal company, in whose mines some of these fathers worked, handed to the commission a memorandum showing that one father last year received about $1,400 for himself and laborers, and the other father received $1,600 for himself and laborers. At the opening of the session yesterday the miners placed the two parents on the stand, and they swore that the earnings mentioned was divided among from four to six men. This testimony surprised the commission, and Judge Gray asked if the figures on the memorandum were taken from the wage statement already filed by the company with the commission, and Mr. Warren replied in the affirmative.

Explained System.

The company through its general manager, W. A. May, was permitted to make a statement. He said: "The Pennsylvania Coal company has two systems, one where four men work in a place and known as a four-handed place, and then they have another in which there are only two men. The place in which these two men work is commonly known as a two-handed place. There may be places where only one man works and there may be places where there are four men working, but that fact is not known to the company itself. The company does not keep a record of the individuals in a contract or the number. It only keeps the name of the man in whose name the place is run. It can be possible that in that place there are more men than the company has any cognizance of, but that is entirely outside its province.

The company, he said, does not pay the laborer; it only pays the man in whose name the place appears.

Challenged Good Faith.

In discussing the matter Mr. Darrow directly challenged the good faith of Mr. May, who handed the figures to the company's attorney for presentation to the commission and said it was unfair to have given them to him or to the commission without indicating how many workmen's earnings were represented in them.

This ended the matter, and the commission examined a deputy factory inspector regarding child labor and suggested that the legislature of Pennsylvania be permitted to improve the factory inspection laws.

The miners here rested their case and Mr. Wolverton formally opened the operators' side of the controversy by reading a statement which represented the views of all the large coal companies.

Ira H. Burns one of the attorneys for the independent operators, then presented the opening statement of the individual companies.

It was arranged that the attorneys representing the non-union men should first call their witnesses and five witnesses were produced who testified that strikers had killed one man and had more or less seriously annoyed two other men who worked during the suspension.

At 5 o'clock the commission adjourned until this morning.

Give Warning of Approach of More Serious Trouble.

Do you experience fits of depression with restlessness, alternating with extreme irritability, bordering upon hysteria? Are your spirits easily affected so that one minute you laugh, and the next fall into convulsive weeping?

Do you feel something like a ball rising in your throat and threatening to choke you; all the senses perverted, morbidly sensitive to light and sound; pain in the ovaries, and especially between the shoulders; sometimes loss of voice; nervous dyspepsia, and almost continually cross and snappy, with a tendency to cry at the least provocation?

If so, your nerves are in a shattered condition, and you are threatened with nervous prostration.

Undoubtedly you do not know it, but in nine cases out of ten this is caused by some uterine disorder, and the nerves centering in and about the organs which make you a woman influence your entire nervous system. Something must be done at once to restore their natural condition or you will be prostrated for weeks and months perhaps, and suffer untold misery.

Proof is monumental that nothing in the world is better for this purpose than **Lydia E. Pinkham's Vegetable Compound**; thousands and thousands of women have written us so.

How Mrs. Holland, of Philadelphia, suffered among the finest physicians in the country, none of whom could help her—finally cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—For over two years I was a constant sufferer from extreme nervousness, indigestion, and dizziness. Menstruation was irregular, had backache and a feeling of great lassitude and weakness. I was so bad that I was not able to do my own work or go far in the street. I could not sleep nights.

"I tried several splendid doctors, but they gave me no relief. After taking **Lydia E. Pinkham's Vegetable Compound** I soon began to feel better, and was able to go out and not feel as if I would fall at every step. I continued to take the medicine until cured.

"I cannot say enough in behalf of Lydia E. Pinkham's medicine, and heartily recommend all suffering women to try it and find the relief I did."—MRS. FLORENCE HOLLAND, 622 S. Clifton St., Philadelphia, Pa. (Jan. 6, 1902.)

Another case of severe female trouble cured by Lydia E. Pinkham's Vegetable Compound, after the doctors had failed.

"DEAR MRS. PINKHAM:—I was in poor health for several years. I had female trouble and was not able to do my housework alone. I felt tired, very nervous, and could not sleep. I doctored with several doctors. They doctored me for my stomach, but did not relieve me. I read in your book about your medicine, and thought I would try it. I did so, and am now cured and abie to do my work alone, and feel good. I was always very poor, but now weigh one hundred and fifty pounds.

"I thank you for the relief I have obtained, and I hope that every woman troubled with female weakness will give **Lydia E. Pinkham's Vegetable Compound** a trial. I have recommended it to many of my friends."—MRS. MARIA BOWERS, Millersville, Ohio. (Aug. 15, 1901.)

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all of the virtues of this medicine?

How shall the fact that it will help them be made plain?

Surely you cannot wish to remain weak, and sick, and discouraged, exhausted with each day's work. You have some derangement of the feminine organism, and Lydia E. Pinkham's Vegetable Compound will help you just as surely as it has others.

Refused to Appoint Receiver.

Trenton, N. J., Dec. 18.—Vice Chancellor Reed yesterday filed an opinion in which he refused to appoint a receiver for the Person & Riegel company, which conducts department stores at Bethlehem, Pa., and other places. The vice chancellor held that the evidence presented was not sufficient to warrant the appointment of a receiver.

ALLIED PRINTING TRADES UNION LABEL COUNCIL EAST LIVERPOOL, O.

THURSDAY, DECEMBER 18, 1902.

It is perhaps not generally known that under the Ohio statutes robbery or attempted robbery may be punished by life imprisonment. The amendment allowing this penalty to be imposed was passed by the legislature last winter. The object was to put a stop to the numerous outrages which have disgraced the state, wherein aged people have been beaten and tortured in the effort to make them give up their money. In most instances the victims have been farmers and their families. A short sime ago in Lorain county a band of robbers attacked a farm house in which resided three old men. The robbers met with stout resistance and one of them was shot dead. The others escaped, but were afterwards arrested, and their trials have just been completed at Elyria. One of the robbers found guilty was not extended any clemency by the jury, and the judge sentenced him to the penitentiary for life. The other pleaded guilty to attempted robbery; so for him the jury asked clemency, and he drew a sentence for 50 years. The sentences of life imprisonment is the first inflicted under the lew law. Here is a case in which the punishment fits the crime. Lorain county justice is the right sort, and if Ohio had more of it the robbery business would soon become too precarious and unprofitable to engage the attention of any considerable number of people.

The house of representatives has interpreted aright the feeling on the part of the public that the trust question is one which congress must meet and decide and in committee of the whole has appropriated half a million dollars, to be immediately available, to enable the department of justice to carry on a vigorous crusade for the enforcement of the trust laws now on the statute books. More legislation is needed, and the indications are that it will be forthcoming. The regulation of trusts ought not to be a party question, but since the Democracy has determined to make it one and throw the whole responsibility of making new laws regarding it upon the Republicans, the latter will meet the responsibility manfully, redeem party pledges and act conservatively for the good of the whole people.

Democrats are usually very hopeful. They extract encouragement from the smallest things. Just at present, however, they are wildly looking about for some favorable omen. Even the New York World and other prominent eastern journals talk exceedingly gloomily about the prospects of national victory in 1904. It sees not a ray of hope unless the Republicans commit some irreparable blunder between now and 1904, and that is not looked for. It appears that the Democratic journals foresee a more crushing defeat for their party in 1904 than overtook it in 1900 and are beginning thus early to prepare the minds of their readers for it. The effort is commendable, though unusual.

It is pleasant to have the repeated assurances of Gen. Asa W. Jones that the trolley line is coming. We have always found that Gen. Jones knows what he is talking about, and we would rather have his word about street railway building or anything else than that of a hundred unknown promoters. But of course the knockers will do all they can against his enterprise. It is their way. Gen. Jones, however, rather enjoys a fight, and as he will have plenty of help in this one, it is not difficult to foretell on whose banners victory will perch. It is all right to be watchful of the city's interests, but it is insane folly to throw obstacles in the way of a man like Gen. Jones, who is making an honest effort to give East Liverpool what it has long desired, a trolley line to Lisbon.

It begins to look as if there were to be an interesting and spirited contest for the Republican nomination for governor of Ohio next year. Every section of the state apparently has a favorite son, and new districts are continually being heard from.

The people of Ohio want to see the new code given a fair trial and voters should aid in this by a careful selection of candidates and the weeding out of all persons who would bring reproach on any statute.

The friends of Mr. Rockefeller will doubtless be rejoiced to learn that that gentleman's modest income has been added to by his winning, in the Ohio supreme court, a case involving $8,000,000.

Venezuela is now in favor of arbitration. She would have saved money and avoided trouble by espousing that policy earlier.

franchises for an electric road along the public highway is a fake concern. The utmost time for which franchises for such roads can be granted is 25 years, and they become no good thereafter. There has even been a proposition in a bill before the legislature to limit the speed of cars operated on such roads to five miles an hour. No financiers in the country will now put their money into any scheme which proposes occupying a public road with a street railway.

"As for building a street railroad from Youngstown to Canfield, there is nobody who would more gladly welcome such a project than myself. I have a farm near that town, and would not only give right of way through it, but would give a thousand dollars to any company that would guarantee the building of a road there.

"Our East Liverpool journalist critic raises objection, saying he wants a guarantee that "each and every company franchise granted is for an independent company, and not for heirs or assigns.' If the fellow knew what he was talking about he would know that corporations have no heirs. A railroad company is composed of stockholders. They may and do frequently sell their stock. They may sell it a hundred times, but that does not affect the railroad company which remains in existence as before. We, however, are not contemplating selling the stock we shall hold, because we believe it will be a good thing. The money is in sight with which to build the road and it is ample for the purpose.

"Some criticism has been raised because we have not stated what cars we intend to use upon the road. Improvements in railway equipment are constantly being made. We propose having the best. It will be entirely new and first-class in all respects. The roadbed will also be solid and substantial with the fewest grades possible.

"Further, as to the suggestion that the franchise should limit us to electricity only. The critic should revise the statutes of Ohio. Every railroad chartered in the state states that either electricity or steam or power other than animal shall be used. If this is 'misleading' then every railroad charter in Ohio is in the same category."

Lisbon, December 18.—(Special.)—General Asa W. Jones, John H. Ruhlin and J. R. Long, all of Youngstown, who have been doing field work for the Youngstown & Southern railway, accompanied by Frank Foutts, an engineer of Boston, Mass., were in town yesterday afternoon on their way to East Liverpool, going over the route of the proposed railway. General Jones says the railroad projectors are in dead earnest. The officials of the road are well known men, which counts much in their favor, and they received much encouragement from the citizens hereabout.

bers of the association will be established by the executive committee, and must be adhered to. No member will be allowed to give or allow any extra or additional discount, rebate or gratuity to any customer, or to offer any inducement in money or in connection with the sale of other goods. A quotation by either the principal or a representative of the firm in violation of terms or prices will be considered equivalent to an actual sale in violation. To prevent secret violations the association, in the person of its secretary or treasurer, may enter upon the premises of members at all times for the necessary inspection of the business and books and enforce the agreement. A regular scale of premiums upon sales is established.

It is proposed to market all semi-porcelain, white granite and C. C. wares made by members of the association at certain fixed base prices to all classes of trade alike. The following are the base discounts from the standard list:

Semi-porcelain—Run of kiln, 55 per cent; thirds, 66 2-3.

White granite—Run of kiln, 55 per cent.; thirds, 66 2-3.

Cream colored—Run of kiln, 44 per cent.; thirds, 60 and 5.

The premiums will range from 2 to 16 per cent. on purchases from $500 to $22,000. For each additional $1,000 up to and including $32,000 1-10 of 1 per cent. is to be added to the premium rate and for each additional $1,000 over and above $32,000 ½ of 1 per cent. is to be added up to and including $52,000.

franchises for an electric road along the public highway is a fake concern. The utmost time for which franchises for such roads can be granted is 25 years, and they become no good thereafter. There has even been a proposition in a bill before the legislature to limit the speed of cars operated on such roads to five miles an hour. No financiers in the country will now put their money into any scheme which proposes occupying a public road with a street railway.

"As for building a street railroad from Youngstown to Canfield, there is nobody who would more gladly welcome such a project than myself. I have a farm near that town, and would not only give right of way through it, but would give a thousand dollars to any company that would guarantee the building of a road there.

"Our East Liverpool journalist critic raises objection, saying he wants a guarantee that "each and every company franchise granted is for an independent company, and not for heirs or assigns.' If the fellow knew what he was talking about he would know that corporations have no heirs. A railroad company is composed of stockholders. They may and do frequently sell their stock. They may sell it a hundred times, but that does not affect the railroad company which remains in existence as before. We, however, are not contemplating selling the stock we shall hold, because we believe it will be a good thing. The money is in sight with which to build the road and it is ample for the purpose.

"Some criticism has been raised because we have not stated what cars we intend to use upon the road. Improvements in railway equipment are constantly being made. We propose having the best. It will be entirely new and first-class in all respects. The roadbed will also be solid and substantial with the fewest grades possible.

"Further, as to the suggestion that the franchise should limit us to electricity only. The critic should revise the statutes of Ohio. Every railroad chartered in the state states that either electricity or steam or power other than animal shall be used. If this is 'misleading' then every railroad charter in Ohio is in the same category."

Lisbon, December 18.—(Special.)—General Asa W. Jones, John H. Ruhlin and J. R. Long, all of Youngstown, who have been doing field work for the Youngstown & Southern railway, accompanied by Frank Foutts, an engineer of Boston, Mass., were in town yesterday afternoon on their way to East Liverpool, going over the route of the proposed railway. General Jones says the railroad projectors are in dead earnest. The officials of the road are well known men, which counts much in their favor, and they received much encouragement from the citizens hereabout.

Good Enough For a Beast.

A droll little story is told of Mr. W. S. Gilbert. He put up his horse one day at a small country inn, on the signboard of which was painted conspicuously the notice, "Entertainment For Man and Beast." When his lunch was brought, he looked dissatisfied and surprised the waiter by saying, "This is all very well so far, but where is the entertainment for the man?"—London Tit-Bits.

REALM OF SPORTS

BOXING UNDER STATE LICENSE

New York Will Be Asked to Legalize and Take Charge of Sports.

STATE TO BE BENEFICIARY

A Boxing Commission Appointed By the Governor to Have Undisputed Power in the Matter—Fake Fighters to Be Barred.

New York, December 18.—The men who are handling the new boxing bill which will be presented to the legislature next month are confident of its passage, but are not sure of its success upon reaching the governor. Last year Assemblyman John T. Dooling framed a bill to legalize amateur boxing in the state, which, it is thought, would have passed both houses, but the athletic clubs of this city could not agree upon some points, and the bill was not introduced.

The present bill, however, is not for amateurs alone. It will provide for bouts between professionals and amateurs, no matter how prominent, the sport to be governed by rigid rules.

The state, according to provisions, will be a beneficiary, as a certain percentage of the gross receipts of each contest, no matter how small, will be turned over to the state treasurer, just as the racing associations are assessed yearly a tax in the shape of a percentage of the gate receipts.

The creators of the bill believe that the state must also take absolute control of the sport, in the shape of appointment of a state boxing commission, composed of five experts of recognized ability and integrity, who will have undisputed power. The commissioners shall be appointed by the governor, and it shall be their duty to license clubs, the number in each town to be limited as to the size of the population; to sanction all matches, to issue licenses to boxers, their managers, seconds and other attendants; to appoint a corps of official referees, timekeepers, masters of ceremony and a board of state inspectors of boxing, who must attend all contests, make sure that boxers are physically fit before entering the ring, and also see to it that the state's interests are looked out for at the gates.

There will be not more than four clubs in Greater New York, two in Manhattan borough and two in Brooklyn. The licenses for these clubs will be awarded to persons who can satisfy the commissioners as to their financial responsibility and past records in the game. It is safe to say that in case the bill becomes a law the commissioners will not license a club conducted by a person who is in any way was mixed up in the fake fights that were the means of killing the law in this state. With four clubs operating in the Greater city, there will be two in Buffalo, Rochester and Syracuse, while one will be enough for the sports in Birmingham, Albany, Troy, Utica and other cities in their class.

In licensing fighters and their managers and seconds, the idea is to keep out objectionable persons who may in the past have been mixed up in some fraud of which the sporting public is well aware. If a fighter, known to be guilty of faking or crooked dealing, applies for a license he will be turned down immediately. So will managers trainers and others who cannot present a clean bill of health. It will be the province of the commissioners to revoke a license as easily as they can grant one. The state inspectors can make reports of the matters calculated to hurt the game and upon a repetition of the offense, after due warning, the license of a club can be revoked at once. A fighter or any other person involved in the game can be ruled out of the big clubs, and, in fact, all the clubs as soon as it can be shown that they are not living up to the requirements, or that they are guilty of behavior that will not do the sport any good.

Another important stipulation in the bill is that all contests must be limited to 10 rounds of three minutes each and that the referee shall have absolute power to stop a contest or let it go on. Those who are behind the bill say there is as much real action in a 10-round bout as in the old 25-round affairs, which were often drawn out in such a way that the crowd became grievously disappointed.

There has been some talk about including a clause barring heavyweights from competition, but as a matter of fact, fights between big men are less calculated to produce harmful results than the matches between smaller pugilists, who, because of light physique, are really unable to stand the strain in the ring as well as the fighters in the Jeffries, Corbett, Fitzsimmons class.

It would be left to the state inspector to select the gloves for each contest; to decide all disagreements; to see that referees enforced the rules to the letter, and to have the power to suspend a boxer or an official on the spot if there might be any evidence of wrongdoing. Clubs applying for licenses must show a membership of 500; must own the club house and arenas, or must hold long leases for the same, and must also put up a forfeit bond with the commissioners so as to protect boxers and others against losing shows.

The referees must all be appointed by the commissioners, and they must be men of recognized ability. They will receive a stated salary from the commissioners, the clubs having nothing to do with the selection of a referee to preside at their bouts.

McClelland Challenged.

Hughey McPadden, confident of victory over Jack McClelland, of Pittsburg, proclaims that he will put up $1,500 on his chances tonight. "I simply know what I can do," said he tonight. "If I do not dispose of McClelland I am surely going back. However, I have $1,000 at my command to say I am still in business." McPadden's statement was shown to McClelland. The latter merely remarked: "If he wants a bet I guess Pittsburg can furnish it."

Ferns vs. Matthews.

Rubs Ferns, who meets Matty Matthews in Allegheny next Monday night in a 10-round contest, is matched to meet Snowey Sturgon, of Sydney, Australia, for a $2,500 purse in March. Sturgon is the welterweight champion of Australia. After Ferns' contest with Matthews he will take on any of the white welterweights and later will leave for San Francisco and sail for Australia.

Bidding High For a Fight.

The Philadelphia Penn Art A. C.'s purse offer of $3,000 for a six round bout between Bob Fitzsimmons and Gus Ruhlin has stirred up the Chicago fight promoters, and now many of the matchmakers of clubs in that city are bidding for the contest. One offer of $7,000 or 50 per cent. of the gross receipts for the men to meet in a six-round bout some time next month, or early in February, has been made. It has been wired to Fitzsimmons and Billy Madden, manager of Ruhlin. Madden will surely accept the percentage offer as he is anxious to have Ruhlin fight Fitzsimmons.

THE TRYING TIME

In a young girl's life is reached when Nature leads her uncertain steps across the line which divides girlhood from womanhood. Ignorance and neglect at this critical period are largely responsible for much of the after misery of womanhood. Not only does Nature often need help in the regular establishment of the womanly function, but there is almost always need of some safe, strengthening tonic, to overcome the languor, nervousness and weakness, commonly experienced at this time.

Dr. Pierce's Favorite Prescription establishes regularity. It is a strengthening tonic, soothing the nerves, encouraging the appetite and inducing restful sleep. It contains no alcohol neither opium, cocaine or other narcotic.

"I wish to tell you the benefit we have received from using your remedies," writes Mrs. Dan Hall, of Brodhead, Green Co., Wis. "Two years ago my daughter's health began to fail. Everything that could be thought of was done to help her but it was of no use. When she began to complain she was quite stout, weighed 170, the picture of good health, until about the age of fourteen, then in six months she was so run down her weight was but 120. She kept failing and I gave up, thinking there was no use, she must die. Friends all said, 'You will lose your daughter.' I said I fear I shall. I must say, doctor, that only for your 'Favorite Prescription' my daughter would have been in her grave to-day. When she had taken one-half bottle the natural function was established and we bought another one, making only two bottles in all, and she completely recovered. Since then she is as well as can be."

LaGrippe Caused Heart Trouble, Nervous Prostration and Dyspepsia.

My Friends Know Heart Cure Cured Me.

Mrs. C. O. Hurd, 118 W. Third St., Muscatine, Ia., is well known throughout her section of Iowa as an ardent worker in the M. E. Church. She says: "LaGrippe left me with a severe case of nervous depression and nervous dyspepsia, which soon affected my heart. I suffered from sleeplessness, headache, extreme nervousness and twitching of the muscles. The slightest exertion would cause shortness of breath, a numbness of my body and hot flashes with pain. I will tell you what I am constantly telling my friends—that Dr. Miles' Heart Cure cured me so that all these disagreeable symptoms left me. I may add that for severe pain I have never found anything to equal Dr. Miles' Anti-Pain Pills and think the Nerve and Liver Pills are a wonderful stomach remedy."

"Our son was stricken down with heart trouble in his twentieth year. For two months we got no sleep with him at night, so we commenced to use Dr. Miles' Heart Cure and Nervine with the Nerve and Liver Pills and today he is sound and well. In fact he passed a physical examination since his sickness and is with the Army in the Philippines. I desire to add that Dr. Miles' Anti-Pain Pills have certainly been a boon to me. I am frequently troubled with sick and nervous headaches and I have never found anything that would relieve me so quickly and leave me feeling so well thereafter."—Mrs. Alice Moad, Buffalo, Mo.

FREIGHTS COLLIDE HEAD ON.

One Man Killed and Six Injured—All the Victims Were Caught in the Wreckage.

Pittsburg, Dec. 18.—In a head-on collision between freight trains on the Redstone branch of the Pittsburg, Virginia and Charleston railroad yesterday afternoon about 1 o'clock, one man was killed and six others, all railroaders, were injured. Five victims of the wreck were brought to the West Penn hospital last evening about six o'clock. The dead:

John McCoy, engineer, 48 years old, of No. 2708 Cobden street, South Side, Pittsburg.

The injured:

George Gray, fireman, of Pittsburg, left foot cut off above the ankle and badly scalded about the body; condition critical.

David Patterson, engineer, 28 years old, of West Brownsville, wounded on left knee and cut on forehead; will recover.

John Martin, brakeman, 28 years old, of Arlington avenue, South Side, Pittsburg, nose broken and face scalded; wounds dressed and sent home.

Charles Woody, brakeman, 28 years old, of Second street, California, Pa., contusion of knee and shoulders.

W. H. Sergeant, fireman, of West Brownsville, internally injured and crushed.

I. C. Campbell, flagman, of Brownsville, scalded and crushed.

The accident occurred about one mile from West Brownsville junction, between freight No. 198, in charge of Engineer McCoy and Fireman Gray, and freight No. 1289, in charge of Engineer Patterson.

The trains were running at high speed and before the men in the engines had a chance to jump the crash came, and they were caught in the wreckage.

General Advance.

Toledo, Dec. 18.—The Ann Arbor Railroad company yesterday announced a general advance of from 5 to 7 per cent in the wages of all employes of the system. This makes a general advance of 10 per cent during the past year.

Stepped in Front of Train.

Lancaster, Pa., Dec. 18.—Henry Miller, of Columbia, a Pennsylvania railroad conductor, stepped from his train at Atglen yesterday evening directly in front of the St. Louis express and was instantly killed.

Senate Passed Pension Appropriation Bill, Carrying $139,847,000, Without Demur.

LOWER BRANCH AFTER TRUSTS.

Passes Amendment to Appropriate Funds to Enforce Sherman Anti-Trust Law and to Direct Attorney General to Prosecute Violations.

Washington, Dec. 18.—The senate yesterday passed the pension appropriation bill without discussion. It carries $139,847,000. An urgent deficiency bill also was passed. The amount carried by this bill is $1,140,400, and includes an item of $500,000 to enable the secretary of agriculture to stamp out the foot and mouth disease, which has become epidemic in the New England states.

The militia bill was up for a short time, Mr. Bacon, of Georgia, continuing his remarks against the constitutionality of the provision for a reserve force of trained men.

At 2 o'clock Mr. Kean, of New Jersey, called up the resolutions expressing the regret of the senate at the death of the late Senator Sewell, of New Jersey, and feelingly spoke of the life and character of the deceased. Addresses were made by other senators.

At 4:05 p. m. the senate, as a further mark of respect, adjourned until Saturday.

In the House.

Washington, Dec. 18.—Mr. Bartlett, a Georgia Democrat, during consideration of the legislative appropriation bill in the house yesterday, unexpectedly and without warning, sprung an amendment to appropriate $250,000 to enforce the Sherman anti-trust law, and to direct the attorney general to proceed to the prosecution of all violators of the law. Although such a provision was plainly amenable to a point of order, not a member on either side of the house raised objection. Both sides wheeled into line, and all agreed that some such action was advisable. Some of the Republicans, however, raised objection to the looseness of the language of the amendment, and Mr. Hepburn, of Iowa, offered as a substitute for it, the language of the bill he introduced on the opening day of the session, to appropriate $500,000 for the enforcement of the law. This was further strengthened to make the appropriation immediately available, and as amended the substitute was agreed to without division. The legislative bill was passed practically as it came from the committee, except for the amendment.

Jan. 31, at 3 o'clock, was fixed as the time for holding the exercises in connection with the acceptance of the statues of Charles Carroll and John Hansen, Maryland's contribution to statuary hall.

NATIONAL CAPITAL NEWS.

Assistant Secretary of the Treasury has selected a site for a federal building at Allentown, Pa., on the southwest corner of Turner and Sixth streets, the price being $20,500.

The tendency to combine continues the most significant feature of railway development, according to the annual report of the interstate commerce commission, issued yesterday.

Special Agent J. F. Evans, stationed at El Paso, Texas, has reported to the secretary of the treasury the seizure at El Paso of diamonds, said to be worth $24,000 and which, it is claimed, were smuggled from England via New York.

The senate committee on foreign relations yesterday devoted an hour and a half to hearing reports from the Maine and Massachusetts fishery interests, in opposition to the Hay-Bond treaty for reciprocity between the United States and Newfoundland.

Senator Hoar yesterday secured permission from the senate to file with the secretary of that body, while the senate is not in session, a bill for the regulation of trusts. He did not state the nature of his bill, but said he would prepare and file it before next Saturday.

Unofficial advices have reached here that China intends to pay the next instalment of the Boxer indemnity in silver. The reports indicate that China is driven to this course by the fact that all of her revenues are payable in silver and the great internal financial strain makes it impossible to obtain gold.

Rerpresentative Fowler, chairman of the house committee on banking and currency, introduced a bill yesterday which was drawn by him in accordance with the views of the Republican members expressed at recent conferences, and which will be urged instead of the currency bill reported to the house at the last session.

Senator Depew yesterday introduced a bill authorizing the issuance of emergency currency by the treasury department. It provides that such currency shall be supplied to any national bank with a capital of not less than $50,000 to the extent of 50 per cent of the bank's capital. The extra capital is, however, to be supplied only in case of a stringency in the money market sufficiently serious to jeopardise values and imperil the commercial business interests of the country.

The Candid Pepys.

No man has ever yet succeeded in painting an honest portrait of himself in an autobiography however sedulously he may have set to work about it. In spite of his candid purpose he omits necessary touches and adds superfluous ones. At times he cannot help draping his thought, and the least shred of drapery disguises it. It is only the diarist who accomplishes the feat of self portraiture, and he, without any such end in view, does it unconsciously. A man cannot keep a daily record of his comings and goings and the little items that make up the sum of his life and not inadvertently give himself away at every turn. He lays bare his heart with a candor not possible to the self consciousness that inevitably colors premeditated revelation. Unknowingly he wears his heart upon his pen for daws to peck at. While Mr. Samuel Pepys was filling those small octavo pages with his perplexing cipher he never once imagined that he was adding a photographic portrait of himself to the world's gallery of immortals. We are more intimately acquainted with Mr. Samuel Pepys, the inner man—his little meannesses and his generosities—than we are with half the persons we call our dear friends.—T. B. Aldrich in Atlantic.

Punctuation.

In the earliest Latin inscriptions and manuscripts no system of punctuation is followed. The full point (.) was gradually introduced, being placed on the level, middle or top of the letters. In the minuscule manuscripts of the eighth, ninth and following centuries the period, on the line or high, was first used; then the comma and semicolon and the inverted semicolon, whose power was rather stronger than that of the comma. Some say that the Caroline minuscules of the ninth century exhibit the note of interrogation, for which the inverted semicolon, which was gradually dropped, may have furnished the mark. The Greeks use the semicolon as an interrogation point. In English the colon is said to have been introduced about 1485, the comma about 1501 and the semicolon about 1570. In Sir Philip Sidney's "Arcadia" (1587) all the punctuation points appear, including the note of interrogation, asterisk and parentheses.

Incorrigible.

It was decided that Mr. Wright must administer a stern lecture to his four-year-old daughter Florence. The little girl had been naughty, but she did not seem to appreciate the fact, and Mr. Wright reluctantly undertook a "scolding."

He hated to make the tender little heart ache and to see the dear child cry, but he forced himself to speak judiciously and severely. He recounted her misdeeds and explained the why and wherefore of his stern rebuke. Mrs. Wright sat by, looking duly impressed.

Finally Mr. Wright paused for breath and also to hear the small culprit acknowledge her error. The scolding was never continued. Florence turned a face beaming with admiration to her mother and said innocently:

"Isn't papa interesting?"

THE SWITCH ORDINANCE UP

Amended And Passed Second Reading. Contractor Rinehart Attacked, But He Says the Matters Complained of Are Not His Fault—Other Matters.

Only six members of council were present at the special meeting held last evening for the purpose of placing the new switch ordinance upon its second reading. Councilmen Weaver, Smith, McLain and Bissett were the absent ones.

An amendment was made fixing a time that the railroad company should do their filling in at street crossings. The railroad company will not have to do filling in at the same time as the city. The ordinance was placed on its second reading.

After this matter was disposed of, Mayor Fogo requested council to send a representative, for the city, to Lisbon either Saturday or Monday to meet with the county commissioners relative to the street railway situation in this city. Council ordered City Solicitor Boyd to go to Lisbon and register a big protest against the street railway company in its recent and past treatment of the city. Council seems determined to bring the company to time. A 12-minute schedule it is determined to have.

Mayor Fogo made a complete explanation to council of the conditions of the roadway on Spring Hill avenue, which has partially been paved by Contractor Rinehart. For the past two days this road has been in a very bad condition. There are large piles of sand and gravel in the middle of the street and small springs are bubbling out from the center of the street and flowing down the hill.

A motion was finally passed that the matter be placed in the hands of the improvement committee with power to act. The mayor suggested that they act at once, as there is a funeral both today and tomorrow.

Mr. Rinehart appeared at the meeting and matters were explained to him. He stated that he had simply worked as hard as he could to finish Spring Hill avenue before the cold weather set in, and that he had found it an impossible task. He said he was not responsible for the present condition of the street.

Mayor Fogo brought up another matter against Mr. Rinehart. He stated that Rinehart had cut several feet of a good lead water pipe off the property of Mrs. Ralph Nattress on Spring Hill avenue, thereby cutting the house off of all water supply. Mrs. Nattress has a very sick husband, making it very hard for her to get along, especially without water. She has paid heavy taxes in this city in the past 30 years. The mayor said James Rinehart, a brother of the contractor, had sent plumbers to Mrs. Nattress' place to fix up the water pipe, putting in a piece of galvanized iron pipe. Mrs. Nattress demanded the same kind of pipe which the contractor had torn away. Council thought Mrs. Nattress right in this. Mr. Rinehart stated that he knew nothing of Mrs. Nattress' complaint, but would investigate.

Councilman Brennan made a motion to adjourn, which was seconded and passed so quickly that several of the councilmen did not know what they had voted upon. They were called back by Councilman Henderson, however, who thought that they ought to finish the business of the evening and not go away leaving things half done.

Financial matters were then talked over for a short time, several committees reporting that the reason certain things had not been done was that there was no money in their respective funds with which to pay for the work. Solicitor Boyd stated that money would be paid into several funds before the first of the year.

Council adjourned to meet again this evening for the purpose of passing the switch ordinance on its third and final reading.

MACCABEES' ELECTION

Grounds For Divorce.

A Salem (Mass.) man who sought a divorce proved, according to a Boston paper, that his wife tore the sign from his store, put into his tea something that made him vomit, threw his clothes downstairs, filled his shoes with cold water, put swill in his overcoat pocket, threw water over him as he went downstairs, put pepper in his bed, made him sleep in an attic, wouldn't do his washing, wouldn't mend his clothes, made him darn his socks and sew buttons on his shirts, spat on his toast, when he was getting his breakfast, rocked in a squeaky chair for hours at a time to annoy him, put grease on his Sunday clothes, wouldn't let him have a fire on the coldest evenings so that he often had to go to bed at 7 p. m. to keep warm, and finally "she rubbed a butcher knife over his neck and threatened to blow out his brains."

The Worm Turned.

He loved her devotedly. He was also bowlegged. Both facts gave him pain at times.

He passed it by with a rueful smile when she merrily said that his affliction gave him such an arch look and that, after all, he was a pretty good sort when you got on to his curves. He bore it patiently when she referred to his walk as parenthetical progress. But he rebelled and broke the engagement when she called her pet dog through the wicket formed by his legs.

"I may not be so over ornamental," said he, "but I emphatically object to being made useful so unseasonably early in the game!"—Smart Set.

A Quick Witted Waiter.

During mosquito season a party of diners seated themselves at table in an outdoor restaurant, and a man of the party took the bill of fare and began to study it. A mosquito lighted upon it and instantly lost its life by a quick blow from the man, its little carcass remaining on the bill. Pointing to it, the man said to the waiter:

"Do you serve those on toast?" And the waiter promptly replied:

"They're on the bill, sir!"—New York Times.

The Origin of Johnnycake.

No doubt many others besides the writer may have wondered how johnnycake came to be thus named. When a child, I settled it for myself by imagining John Smith, whom Pocahontas saved, had something to do with it. The cake, being made of Indian meal, became thus associated in my mind with the historical name. A writer in the Housekeeper says:

In tracing the term we find ourselves at a time antedating by many years steam cars and hotels on wheels, in an age when mankind depended entirely upon his four footed companions for transportation and had only saddlebags in which to carry his luggage. Taverns were few and far apart, and a lunch was always acceptable. Cornmeal, forming so large a part of the dietary in those days, held a chief place in making up the lunch. Wet with water and a little salt added, it was baked in a shape that stored away in the saddlebags nicely and was called journey cake. This is the origin of our modern, unconventional johnnycake.

Get your husband or brother a nice pair of our dress shoes or a pair of our new slippers. They'll appreciate them.

Grounds For Divorce.

A Salem (Mass.) man who sought a divorce proved, according to a Boston paper, that his wife tore the sign from his store, put into his tea something that made him vomit, threw his clothes downstairs, filled his shoes with cold water, put swill in his overcoat pocket, threw water over him as he went downstairs, put pepper in his bed, made him sleep in an attic, wouldn't do his washing, wouldn't mend his clothes, made him darn his socks and sew buttons on his shirts, spat on his toast, when he was getting his breakfast, rocked in a squeaky chair for hours at a time to annoy him, put grease on his Sunday clothes, wouldn't let him have a fire on the coldest evenings so that he often had to go to bed at 7 p. m. to keep warm, and finally "she rubbed a butcher knife over his neck and threatened to blow out his brains."

The Worm Turned.

He loved her devotedly. He was also bowlegged. Both facts gave him pain at times.

He passed it by with a rueful smile when she merrily said that his affliction gave him such an arch look and that, after all, he was a pretty good sort when you got on to his curves. He bore it patiently when she referred to his walk as parenthetical progress. But he rebelled and broke the engagement when she called her pet dog through the wicket formed by his legs.

"I may not be so over ornamental," said he, "but I emphatically object to being made useful so unseasonably early in the game!"—Smart Set.

A Quick Witted Waiter.

During mosquito season a party of diners seated themselves at table in an outdoor restaurant, and a man of the party took the bill of fare and began to study it. A mosquito lighted upon it and instantly lost its life by a quick blow from the man, its little carcass remaining on the bill. Pointing to it, the man said to the waiter:

"Do you serve those on toast?" And the waiter promptly replied:

"They're on the bill, sir!"—New York Times.

The Origin of Johnnycake.

No doubt many others besides the writer may have wondered how johnnycake came to be thus named. When a child, I settled it for myself by imagining John Smith, whom Pocahontas saved, had something to do with it. The cake, being made of Indian meal, became thus associated in my mind with the historical name. A writer in the Housekeeper says:

In tracing the term we find ourselves at a time antedating by many years steam cars and hotels on wheels, in an age when mankind depended entirely upon his four footed companions for transportation and had only saddlebags in which to carry his luggage. Taverns were few and far apart, and a lunch was always acceptable. Cornmeal, forming so large a part of the dietary in those days, held a chief place in making up the lunch. Wet with water and a little salt added, it was baked in a shape that stored away in the saddlebags nicely and was called journey cake. This is the origin of our modern, unconventional johnnycake.

HOME AFFAIRS.

Brief Notes of a Personal Nature And of Matters About Town.

Extra Help—An extra clerk has been put on at the postoffice to help out during the holiday rush.

A Fine Lecture—Rev. J. P. Anderson, of Lisbon, who has lately returned from an extended tour of Asia, delivered a very interesting lecture on "Mission Work in Syria" at the First Presbyterian church last night.

Private Telephone Line—The Bell Telephone company is about to construct a line from Pittsburg to Wellsville which will be for the exclusive use of the American Sheet Steel company between its local office there and its office in Pittsburg.

Christmas Programs—The announcement has been made that special Christmas exercises will be held at the city schools on Friday. This announcement is only partially correct. Each separate room in the different schools will hold special exercises next Friday afternoon appropriate to Christmas. Considerable time has been taken by the pupils of the various schools and the exercises promise to be very entertaining.

Successful Revival — The revival meeting at the Free Methodist church on Avondale street is going on with increasing interest. Many people are getting saved on the bible line. Two clear conversions were made last night. One of them sounded notes of the good tidings all the way from the church to her home on Second street. Rev. A. D. Zahniser will preach tonight from a subject that will interest all.

ing the first act the lady sang a solo, which was applauded to the echo.

The character of Mrs. Rutledge was never in better hands than upon this occasion. Miss Nancy Taylor impersonated a haughty southern aristocrat, and the effort was perfection itself. in her carefully arranged costume Miss Taylor made an impression that won warm commendation.

Farmer Elliott's wife was one of the best and most amusing persons in the cast. The part was taken by Mrs. Albert Louther, and she added much to the comedy feature of the piece.

The tableaux were said to be the most beautiful ever witnessed at the Grand, and much credit is due the young ladies who contributed to the success of this part of the performance.

CRIPPS HAS SOLD OPERA HOUSE STOCK

Disposed of a Half Interest in the Property to Charles Fisher—Reported Consideration, $16,000.

Charles Fisher, a well known merchant, has purchased from S. J. Cripps his share of one-half in the Grand opera house property. Mr. Cripps will still continue as manager.

It is reported that the consideration was $16,000. Dr. W. N. Bailey and W. T. Burton still retain their interests in the property.

The stockholders will soon meet to discuss plans for the future and for possible improvements.

Christmas Eve Party.

Invitations have been issued announcing the party of Miss Florence Louthan, daughter of Mr. and Mrs. B. M. Louthan. The event will occur on Christmas eve, and will be one of the large and elaborate functions of the holiday time, as Miss Louthan is very popular in social circles. Dancing will be the diversion of the evening.

Basketball Tonight.

The Y. M. C. A. basketball team will play the Freedom boys tonight at the Y. M. C. A. building. The local boys have won 10 straight games, including 3 this season. The lineup of the local team is as follows: Forwards, Allison, Bloor; center, Rigby; guards, Chadwick, Watkins; substitutes, Powell.

New Club Organized.

A new social club, composed of about 15 well known young men, has been formed in this city. John Hughes is president, John Hagen vice president and M. Haddock secretary. It is called the Acme club and has quarters in the Seanor building. Its first function, a dance, will be given this evening.

A Vacuum Pressure Experiment.

Chemical science has taught us how to overcome the dreaded diseases that have swept away whole cities in the past. It has taught us the manufacture of explosives and munitions of war and has made possible the greatly improved modes of travel, and it may be truly said that to chemistry we owe the most material progress the world has made.

While this little experiment will not deal with the hidden secrets that live in the famous laboratories or treat upon the mystic powers of viscosity and relegation, it will show what power the absence of air has in attracting movable substances into the place that has been vacated by the air. Few think when they breathe the atmosphere that surrounds them that it has a pressure of fifteen pounds to the square inch or that it can attract even a piece of iron into the space which it leaves.

For an example of the strength of air take any tumbler, fill it about half full of tissue paper, set fire to the paper, turn over the glass in a basin containing water about one-half inch deep and then watch the water ascend the interior of the glass.

Didn't Know His Own Child.

At Antietam, just after the artillery had been sharply engaged, the Rockbridge (Va.) battery was standing waiting orders. General Lee rode by and stopped a moment. A dirty faced driver about seventeen said to him:

"General, are you going to put us in again?"

Think of such a question from such a source to the general of the army, especially when that general's name was Lee!

"Yes, my boy," the stately officer kindly answered, "I have to put you in again. But what is your name? Your face seems familiar somehow."

"I don't wonder you didn't know me, sir," laughed the lad, "I'm so dirty. But I'm Bob."

It was the general's youngest son, whom he had thought safe at the Virginia Military Institute. "God bless you, my son; do your duty," and the general rode on.

Our shoes are the most comfortable because we fit them properly and we have the proper shapes.

Monkey Policemen.

In Hindustan monkeys are made useful, and they do police duty after a fashion and often really assist the police in quelling disturbances or suppressing riots. Sometimes these four handed policemen act as protectors to the weak and helpless, as this incident will show:

At Agra on the platform of a public warehouse a little street arab had spread his rug in the shade of a stack of country produce and had just dropped asleep when one of the wealthy residents strolled up with a pet leopard that had learned to accompany him in all his rambles.

A troop of monkeys had taken post on the opposite side of the shed, but at sight of the spotted intruder the whole gang charged along the platform and, instantly forming a semicircle about the little sleeper, faced the leopard with bristling manes, evidently resolved to defeat the suspected purpose of his visit.

Ocean Cliffs Set on Fire by Waves.

It is not often that the waves of the ocean can set cliffs afire, but they do sometimes. At Ballybunnion, on the west coast of Ireland, the waves which for unnumbered centuries have been beating against the shores one day broke into a great deposit of iron pyrites and alum. A rapid oxidation took place which produced a fierce heat and set the whole cliff to burning. For weeks the cliff burned like a volcano, and great clouds of smoke and vapor rose in the air. When the fire died out, great masses of lava and clay burned to brick were seen in every direction.

In the arctic regions there is another such burning cliff, which when last seen was on fire for twenty miles. The burning material was composed largely of lignite, but is believed to be made up of several other combustible chemical substances which had been set on fire when the waves reached them.

Sugar and the Hygienists.

Sugar is doubtless a food. It is a food of great energy. But we must not abuse it, says the Revue Scientifique. Why? Because, according to M. G. Bunge, the physiologist, pure cane sugar is lacking in lime and iron. Now, lime and iron are necessary to the organism. It is better to take the sugar in the form of legumes and fruits rich in hydrocarbons. And what is honey worth? Very little also. It has the same inconveniences—it also is wanting in lime and iron.

It will be observed, however, that if we consider all the advantages which, according to the hygienists, attach to various foods, we shall find that it is almost impossible to get any nourishment at all if we want to adjust our diet to scientific teaching.—Literary Digest.

A few days ago an elderly gentleman and his wife were walking along the street when a lady in crossing the road fell down. The old gentleman rushed to her assistance and helped her in every possible way. When he returned to his wife, she looked like a thundercloud.

"Yes, I know it's all right!" she replied hotly. "Here's an unknown woman falls down, and you plow across the street to help her, and the other day, when I fell downstairs, you wanted to know if I was practicing for a circus."

Mr. Paul Alexandre, the celebrated Automobilist, after his record-breaking run says: "The terrific strain on my nerves added to the constant pounding and jumping of my heart almost set me crazy. I was ill for days with Nervous Prostration and weakness, with dull, aching head and a bad taste in my mouth. I noticed a bottle of 'Blood Wine' in the training quarters, and took some, and it certainly did the business for me. Made my head clear, nerves steady, stomach and heart strong and healthy. 'Blood Wine' will go with me on all my trips hereafter."

To run an automobile in record-breaking time requires a cool head, steady nerve, good eye, strong pair of lungs. The expert must be free from stiffness, lameness, aches and pains. "Blood Wine" fills the first requisite; it gives him good blood. It stimulates his nerve. It hardens the muscles and makes him have greater endurance.

FREE BLOOD TEST—You can have your blood examined under the powerful microscope by an expert bacteriologist without charge by sending your name to the Louis Dandelin Co., Worcester, Mass. This is the only accurate way to diagnose a disease.

"Blood Wine" costs fifty cents a bottle. It is the only medicine of its kind in the world. Don't be fooled. "Blood Wine" is a remarkable medicine. Don't accept a substitute.

DISCUSSING TERMS.

It Has Been Decided That the Venezuelan Difficulty Shall Be Arbitrated.

COERCION FEARED BY CASTRO.

Balfour Declared in House of Commons that Peaceful Blockade Was Impossible—Minister Bowen Will Likely Be One of Arbitrators.

Caracas, Dec. 18.—It has been decided that the Venezuelan difficulty shall be arbitrated and the terms of discussion of settlement is now going on. United States Minister Bowen undoubtedly will be one of the arbitrators.

The government fears that coercive measures will follow the establishment of the blockade.

The leading citizens of Caracas have addressed a note to President Castro asking him to give full powers to United States Minister Bowen to effect a termination of the present difficulty. This note was transmitted to President Castro at 1 o'clock yesterday afternoon. It is signed by all the leading merchants, bankers and agriculturists of Caracas. It reflects truly the consensus of current opinion among the business element of this city. The men who signed the note met again last night to discuss ways and means of obtaining money with which Venezuela can meet her obligations as well as the guarantees which it will be possible to offer to her creditors.

The note is signed by more than 200 prominent citizens of Caracas.

Venezuelan Vessels Only.

The blockade of La Guaira, notification of which, in the names of Great Britain and Germany, was communicated to the Venezuelan government Dec. 13, went into effect yesterday. The order applies to Venezuelan vessels only.

The Italian minister left Caracas yesterday morning.

The Venezuelan newspapers are still ignorant of the fact that the Italian minister presented an ultimatum to the Venezuelan government Tuesday afternoon, and therefore there were no crowds at the railway station and no hostile demonstration. The city was quiet yesterday.

Italy Sends Cruiser.

Rome, Dec. 18.—The Italian cruiser Agordat has been ordered to proceed at once for Venezuela.

The rejection by Venezuela of the Italian ultimatum was expected, consequently the announcement that this had been done created no sensation and no surprise. During the day frequent communications were exchanged between Italy and Great Britain and Germany on the question of arbitration. The friendly attitude of the United States is particularly appreciated here. Opinion generally favors arbitration, although it is understood that Great Britain and Germany are the leaders and have priority in the present action. At the weekly diplomation reception Ambassador Meyer and Signor Prinetti had a lengthy conference on Venezuelan affairs.

Ridicules Idea of Peaceful Blockade.

London, Dec. 18.—"If the seizure of Venezuelan gunboats does not result as we all hope, it will be necessary to proceed to a blockade."

In the speech in the house of commons yesterday, during which Premier Balfour made the above statement, he conveyed the impression of possible, though as yet unnecessary, further hostilities, but that also arbitration on the same basis might be accepted.

Immediately after uttering these words the premier said that in the event of a blockade no difference would be made between the ships of neutral powers, who would not be consulted. He then ridiculed the idea of a peaceful blockade. When he said: "I think it quite likely that the United States government would not think there is such a thing as a pacific blockade, and I personally take the same view that evidently a blockade does involve a state of war."

The house expressed its approbation. Throughout the discussion the tenor of questions and answers showed regard for the views of the United States. Mr. Balfour assured the house that the papers in the Venezuelan matter were in course of being prepared as rapidly as possible, and answering a question by Sir William Vernon Harcourt, he said they would include the communications with reference to Venezuela, which had passed between his majesty's government and the United States. Sir William Vernon Harcourt asked this question: "So we may know how we stand with reference to the government of the United States?"

Premier Balfour gave no hint to the house as to the ultimate result of the arbitration proposal and nothing further in this respect has been given out at the foreign office.

Minister Bowen Given Assistant.

Washington, Dec. 18.—The following cablegram was sent yesterday by the navy department to Admiral Dewey, in command of the combined fleets, addressed to San Juan:

"Send competent officer with dispatch in torpedo boat destroyer or other vessel to Caracas as assistant to American minister."

The following cablegram also was sent to Commander Diehl, of the Marietta, now lying at La Guaira:

"Send Van Duseen (executive officer of the Marietta) as assistant to the American minister temporarily."

The officer from Dewey's fleet will relieve Lieutenant Commander Van Duseen, who is only an hour distant from Caracas, when he arrives upon the scene. While no explanation is given for the above orders it is believed that these measures are being taken to guard against an interruption in the cable connecting Mr. Bowen with his home government.

It was stated at the navy department that one reason for sending the officers to Caracas was the fact that Mr. Bowen is almost overwhelmed with the amount of work imposed upon him by his many charges.

No Effort to Resist.

There will be no effort on the part of this government to resist a war blockade of the Venezuelan coast as against merchant ships. Custom requires that due notice shall be given of the blockade, and that fact, taken in connection with the declarations that have been made in the British parliament by the authorized representatives of the British government, will, it is understood, be sufficient to justify all neutral nations in the understanding that a state of war does actually exist. This might in the end require the issue of a proclamation of neutrality by President Roosevelt, but this, it is stated, would not be timely now.

GENERAL FOREIGN NEWS.

Marseilles, Dec. 18.—The strike is at an end. The sailors have voted to resume work today.

Rome, Dec. 18.—It is reported that Bishop James E. Quigley, of Buffalo, N. Y., has been appointed archbishop of Chicago in succession to the late Archbishop Feehan.

San Juan, P. R., Dec. 18.—The exercising of the American fleet in squadron formation was continued yesterday. The Texas arrived here Tuesday and has taken her place in the battleship fleet.

Vienna, Dec. 18.—According to dispatches from Hungary 63 persons were frozen to death there during the last three days. Wolves are devastating the sheep folds and have devoured three shepherds.

St. Petersburg, Dec. 18.—It is announced in a special dispatch from Seoul that the United States minister to Corea has demanded the payment of $1,500,000 due to the builders of the electric railroad.

Port Au Prince, Hayti, Dec. 18.—Order has been re-established here. During the fighting Tuesday a number of persons were wounded, including two Italians, who were seriously injured. Two men accused of committing crimes were executed during the day without trial. The United States legation is protected by troops.

San Juan, P. R., Dec. 18.—Collector Cruzen yesterday seized several hundred cases of liquors which had been brought from St. Thomas on board the United States lighthouse tender Laurel. It is reported that certain army and navy officers, as well as some prominent citizens of San Juan, are implicated in the matter.

SHOT HERSELF IN HEAD.

Woman Commits Suicide Through Fear of Insanity.

Cleveland, Dec. 18.—Mrs. W. W. Jones, wife of a railroad station agent at Rockport, O., shot herself in the head in front of the postoffice late yesterday afternoon and died at 3 o'clock last night in a hospital. The husband of the dead woman gives as a cause for the deed her belief that she was becoming insane and she had been heard to say that she would rather be dead than have to go to an asylum.

The woman shot herself immediately after receiving a letter at the general delivery of the postoffice. She fell to the sidewalk while hundreds of persons were passing by, and the sight of the woman gasping for breath, while the blood was streaming from the bullet wound, caused intense excitement.

Think Rates Should Be Changed.

Chicago, Dec. 18.—Members of the Central Freight association met here yesterday, with a view to obtain an agreement to raise many commodity rates. Opinion was almost unanimous that a great many rates are too low and that changes should be made.

THE WAGE QUESTION.

Fairness of Statement Hardee in By the Pennsylvania Company Challenged.

OPERATORS OPEN THEIR CASE.

Attorneys Representing Non-Union Men Began Calling Witnesses Yesterday—Deputy Factory Inspector Examined Regarding Child Labor.

Scranton, Pa. Dec. 18.—The anthracite coal operators opened their side of the controversy with the mine workers yesterday before the strike commission and the attorneys who are on record before the commission as representing the non-union men, who have been admitted to the arbitration scheme, began calling witnesses. The sessions yesterday were probably the liveliest yet held by the commission. At the morning session the miners' lawyers challenged the fairness of certain wage statements handed to the commission by the Pennsylvania Coal company, and in the afternoon Lawyer Darrow had a spirited discussion with Chairman Gray as to whether or not the miners had a right to know who is paying the lawyers representing the non-union men before the commission. Mr. Darrow asserted they were employed by the coal operators. The commission decided it was immaterial who was back of the non-union men.

Preceding this Simon P. Wolverton, counsel for the Reading company, who delivered the opening address on behalf of all the large coal companies, made the point in his address that the recognition of the union is not an issue before the commission, which brought out a protest from Mr. Darrow. The latter claimed that if it were not, then the operators should be forbidden from presenting testimony that tended to show the union was responsible for all the alleged violence committed during the strike.

Child Labor.

The alleged unfairness of the wage statements came to the notice of the commission as a result of its inquiry into the child labor question in this immediate vicinity. Several little girls testified on Monday that they worked all night in a silk mill in order to help their fathers along, who were employed in the mines and received poor pay. Yesterday Everett Warren, who represents the Erie company, which controls the Pennsylvania Coal company, in whose mines some of these fathers worked, handed to the commission a memorandum showing that one father last year received about $1,400 for himself and laborers, and the other father received $1,600 for himself and laborers. At the opening of the session yesterday the miners placed the two parents on the stand, and they swore that the earnings mentioned was divided among from four to six men. This testimony surprised the commission, and Judge Gray asked if the figures on the memorandum were taken from the wage statement already filed by the company with the commission, and Mr. Warren replied in the affirmative.

Explained System.

The company through its general manager, W. A. May, was permitted to make a statement. He said: "The Pennsylvania Coal company has two systems, one where four men work in a place and known as a four-handed place, and then they have another in which there are only two men. The place in which these two men work is commonly known as a two-handed place. There may be places where only one man works and there may be places where there are four men working, but that fact is not known to the company itself. The company does not keep a record of the individuals in a contract or the number. It only keeps the name of the man in whose name the place is run. It can be possible that in that place there are more men than the company has any cognizance of, but that is entirely outside its province.

The company, he said, does not pay the laborer; it only pays the man in whose name the place appears.

Challenged Good Faith.

In discussing the matter Mr. Darrow directly challenged the good faith of Mr. May, who handed the figures to the company's attorney for presentation to the commission and said it was unfair to have given them to him or to the commission without indicating how many workmen's earnings were represented in them.

This ended the matter, and the commission examined a deputy factory inspector regarding child labor and suggested that the legislature of Pennsylvania be permitted to improve the factory inspection laws.

The miners here rested their case and Mr. Wolverton formally opened the operators' side of the controversy by reading a statement which represented the views of all the large coal companies.

Ira H. Burns one of the attorneys for the independent operators, then presented the opening statement of the individual companies.

It was arranged that the attorneys representing the non-union men should first call their witnesses and five witnesses were produced who testified that strikers had killed one man and had more or less seriously annoyed two other men who worked during the suspension.

At 5 o'clock the commission adjourned until this morning.

Give Warning of Approach of More Serious Trouble.

Do you experience fits of depression with restlessness, alternating with extreme irritability, bordering upon hysteria? Are your spirits easily affected so that one minute you laugh, and the next fall into convulsive weeping?

Do you feel something like a ball rising in your throat and threatening to choke you; all the senses perverted, morbidly sensitive to light and sound; pain in the ovaries, and especially between the shoulders; sometimes loss of voice; nervous dyspepsia, and almost continually cross and snappy, with a tendency to cry at the least provocation?

If so, your nerves are in a shattered condition, and you are threatened with nervous prostration.

Undoubtedly you do not know it, but in nine cases out of ten this is caused by some uterine disorder, and the nerves centering in and about the organs which make you a woman influence your entire nervous system. Something must be done at once to restore their natural condition or you will be prostrated for weeks and months perhaps, and suffer untold misery.

Proof is monumental that nothing in the world is better for this purpose than **Lydia E. Pinkham's Vegetable Compound**; thousands and thousands of women have written us so.

How Mrs. Holland, of Philadelphia, suffered among the finest physicians in the country, none of whom could help her—finally cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—For over two years I was a constant sufferer from extreme nervousness, indigestion, and dizziness. Menstruation was irregular, had backache and a feeling of great lassitude and weakness. I was so bad that I was not able to do my own work or go far in the street. I could not sleep nights.

"I tried several splendid doctors, but they gave me no relief. After taking **Lydia E. Pinkham's Vegetable Compound** I soon began to feel better, and was able to go out and not feel as if I would fall at every step. I continued to take the medicine until cured.

"I cannot say enough in behalf of Lydia E. Pinkham's medicine, and heartily recommend all suffering women to try it and find the relief I did."—MRS. FLORENCE HOLLAND, 622 S. Clifton St., Philadelphia, Pa. (Jan. 6, 1902.)

Another case of severe female trouble cured by Lydia E. Pinkham's Vegetable Compound, after the doctors had failed.

"DEAR MRS. PINKHAM:—I was in poor health for several years. I had female trouble and was not able to do my housework alone. I felt tired, very nervous, and could not sleep. I doctored with several doctors. They doctored me for my stomach, but did not relieve me. I read in your book about your medicine, and thought I would try it. I did so, and am now cured and able to do my work alone, and feel good. I was always very poor, but now weigh one hundred and fifty pounds.

"I thank you for the relief I have obtained, and I hope that every woman troubled with female weakness will give **Lydia E. Pinkham's Vegetable Compound** a trial. I have recommended it to many of my friends."—MRS. MARIA BOWERS, Millersville, Ohio. (Aug. 15, 1901.)

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all of the virtues of this medicine?

How shall the fact that it will help them be made plain?

Surely you cannot wish to remain weak, and sick, and discouraged, exhausted with each day's work. You have some derangement of the feminine organism, and Lydia E. Pinkham's Vegetable Compound will help you just as surely as it has others.

Refused to Appoint Receiver.

Trenton, N. J., Dec. 18.—Vice Chancellor Reed yesterday filed an opinion in which he refused to appoint a receiver for the Person & Riegel company, which conducts department stores at Bethlehem, Pa., and other places. The vice chancellor held that the evidence presented was not sufficient to warrant the appointment of a receiver.

Mr. Paul Alexandre, the celebrated Automobilist, after his record-breaking run says: "The terrific strain on my nerves added to the constant pounding and jumping of my heart almost set me crazy. I was ill for days with Nervous Prostration and weakness, with dull, aching head and a bad taste in my mouth. I noticed a bottle of 'Blood Wine' in the training quarters, and took some, and it certainly did the business for me. Made my head clear, nerves steady, stomach and heart strong and healthy. 'Blood Wine' will go with me on all my trips hereafter."

To run an automobile in record-breaking time requires a cool head, steady nerve, good eye, strong pair of lungs. The expert must be free from stiffness, lameness, aches and pains. "Blood Wine" fills the first requisite; it gives him good blood. It stimulates his nerve. It hardens the muscles and makes him have greater endurance.

FREE BLOOD TEST—You can have your blood examined under the powerful microscope by an expert bacteriologist without charge by sending your name to the Louis Dandelin Co., Worcester, Mass. This is the only accurate way to diagnose a disease.

"Blood Wine" costs fifty cents a bottle. It is the only medicine of its kind in the world. Don't be fooled. "Blood Wine" is a remarkable medicine. Don't accept a substitute.

Ridicules Idea of Peaceful Blockade.

London, Dec. 18.—"If the seizure of Venezuelan gunboats does not result as we all hope, it will be necessary to proceed to a blockade."

In the speech in the house of commons yesterday, during which Premier Balfour made the above statement, he conveyed the impression of possible, though as yet unnecessary, further hostilities, but that also arbitration on the same basis might be accepted.

Immediately after uttering these words the premier said that in the event of a blockade no difference would be made between the ships of neutral powers, who would not be consulted. He then ridiculed the idea of a peaceful blockade. When he said: "I think it quite likely that the United States government would not think there is such a thing as a pacific blockade, and I personally take the same view that evidently a blockade does involve a state of war."

The house expressed its approbation. Throughout the discussion the tenor of questions and answers showed regard for the views of the United States. Mr. Balfour assured the house that the papers in the Venezuelan matter were in course of being prepared as rapidly as possible, and answering a question by Sir William Vernon Harcourt, he said they would include the communications with reference to Venezuela, which had passed between his majesty's government and the United States. Sir William Vernon Harcourt asked this question: "So we may know how we stand with reference to the government of the United States?"

Premier Balfour gave no hint to the house as to the ultimate result of the arbitration proposal and nothing further in this respect has been given out at the foreign office.

Minister Bowen Given Assistant.

Washington, Dec. 18.—The following cablegram was sent yesterday by the navy department to Admiral Dewey, in command of the combined fleets, addressed to San Juan:

"Send competent officer with dispatch in torpedo boat destroyer or other vessel to Caracas as assistant to American minister."

The following cablegram also was sent to Commander Diehl, of the Marietta, now lying at La Guaira:

"Send Van Duseen (executive officer of the Marietta) as assistant to the American minister temporarily."

The officer from Dewey's fleet will relieve Lieutenant Commander Van Duseen, who is only an hour distant from Caracas, when he arrives upon the scene. While no explanation is given for the above orders it is believed that these measures are being taken to guard against an interruption in the cable connecting Mr. Bowen with his home government.

It was stated at the navy department that one reason for sending the officers to Caracas was the fact that Mr. Bowen is almost overwhelmed with the amount of work imposed upon him by his many charges.

No Effort to Resist.

There will be no effort on the part of this government to resist a war blockade of the Venezuelan coast as against merchant ships. Custom requires that due notice shall be given of the blockade, and that fact, taken in connection with the declarations that have been made in the British parliament by the authorized representatives of the British government, will, it is understood, be sufficient to justify all neutral nations in the understanding that a state of war does actually exist. This might in the end require the issue of a proclamation of neutrality by President Roosevelt, but this, it is stated, would not be timely now.

GENERAL FOREIGN NEWS.

Marseilles, Dec. 18.—The strike is at an end. The sailors have voted to resume work today.

Rome, Dec. 18.—It is reported that Bishop James E. Quigley, of Buffalo, N. Y., has been appointed archbishop of Chicago in succession to the late Archbishop Feehan.

San Juan, P. R., Dec. 18.—The exercising of the American fleet in squadron formation was continued yesterday. The Texas arrived here Tuesday and has taken her place in the battleship fleet.

Vienna, Dec. 18.—Acording to dispatches from Hungary 63 persons were frozen to death there during the last three days. Wolves are devastating the sheep folds and have devoured three shepherds.

St. Petersburg, Dec. 18.—It is announced in a special dispatch from Seoul that the United States minister to Corea has demanded the payment of $1,500,000 due to the builders of the electric railroad.

Port Au Prince, Hayti, Dec. 18.—Order has been re-established here. During the fighting Tuesday a number of persons were wounded, including two Italians, who were seriously injured. Two men accused of committing crimes were executed during the day without trial. The United States legation is protected by troops.

San Juan, P. R., Dec. 18.—Collector Cruzen yesterday seized several hundred cases of liquors which had been brought from St. Thomas on board the United States lighthouse tender Laurel. It is reported that certain army and navy officers, as well as some prominent citizens of San Juan, are implicated in the matter.

SHOT HERSELF IN HEAD.

Woman Commits Suicide Through Fear of Insanity.

Cleveland, Dec. 18.—Mrs. W. W. Jones, wife of a railroad station agent at Rockport, O., shot herself in the head in front of the postoffice late yesterday afternoon and died at 9 o'clock last night in a hospital. The husband of the dead woman gives as a cause for the deed her belief that she was becoming insane and she had been heard to say that she would rather be dead than have to go to an asylum.

The woman shot herself immediately after receiving a letter at the general delivery of the postoffice. She fell to the sidewalk while hundreds of persons were passing by, and the sight of the woman gasping for breath, while the blood was streaming from the bullet wound, caused intense excitement.

Think Rates Should Be Changed.

Chicago, Dec. 18.—Members of the Central Freight association met here yesterday, with a view to obtain an agreement to raise many commodity rates. Opinion was almost unanimous that a great many rates are too low and that changes should be made.

THE WAGE QUESTION.

Fairness of Statement Hardee in By the Pennsylvania Company Challenged.

OPERATORS OPEN THEIR CASE.

Attorneys Representing Non-Union Men Began Calling Witnesses Yesterday—Deputy Factory Inspector Examined Regarding Child Labor.

Scranton, Pa. Dec. 18.—The anthracite coal operators opened their side of the controversy with the mine workers yesterday before the strike commission and the attorneys who are on record before the commission as representing the non-union men, who have been admitted to the arbitration scheme, began calling witnesses. The sessions yesterday were probably the liveliest yet held by the commission. At the morning session the miners' lawyers challenged the fairness of certain wage statements handed to the commission by the Pennsylvania Coal company, and in the afternoon Lawyer Darrow had a spirited discussion with Chairman Gray as to whether or not the miners had a right to know who is paying the lawyers representing the non-union men before the commission. Mr. Darrow asserted they were employed by the coal operators. The commission decided it was immaterial who was back of the non-union men.

Preceding this Simon P. Wolverton, counsel for the Reading company, who delivered the opening address on behalf of all the large coal companies, made the point in his address that the recognition of the union is not an issue before the commission, which brought out a protest from Mr. Darrow. The latter claimed that if it were not, then the operators should be forbidden from presenting testimony that tended to show the union was responsible for all the alleged violence committed during the strike.

Child Labor.

The alleged unfairness of the wage statements came to the notice of the commission as a result of its inquiry into the child labor question in this immediate vicinity. Several little girls testified on Monday that they worked all night in a silk mill in order to help their fathers along, who were employed in the mines and received poor pay. Yesterday Everett Warren, who represents the Erie company, which controls the Pennsylvania Coal company, in whose mines some of these fathers worked, handed to the commission a memorandum showing that one father last year received about $1,400 for himself and laborers, and the other father received $1,600 for himself and laborers. At the opening of the session yesterday the miners placed the two parents on the stand, and they swore that the earnings mentioned was divided among from four to six men. This testimony surprised the commission, and Judge Gray asked if the figures on the memorandum were taken from the wage statement already filed by the company with the commission, and Mr. Warren replied in the affirmative.

Explained System.

The company through its general manager, W. A. May, was permitted to make a statement. He said: "The Pennsylvania Coal company has two systems, one where four men work in a place and known as a four-handed place, and then they have another in which there are only two men. The place in which these two men work is commonly known as a two-handed place. There may be places where only one man works and there may be places where there are four men working, but that fact is not known to the company itself. The company does not keep a record of the individuals in a contract or the number. It only keeps the name of the man in whose name the place is run. It can be possible that in that place there are more men than the company has any cognizance of, but that is entirely outside its province.

The company, he said, does not pay the laborer; it only pays the man in whose name the place appears.

Challenged Good Faith.

In discussing the matter Mr. Darrow directly challenged the good faith of Mr. May, who handed the figures to the company's attorney for presentation to the commission and said it was unfair to have given them to him or to the commission without indicating how many workmen's earnings were represented in them.

This ended the matter, and the commission examined a deputy factory inspector regarding child labor and suggested that the legislature of Pennsylvania be permitted to improve the factory inspection laws.

The miners here rested their case and Mr. Wolverton formally opened the operators' side of the controversy by reading a statement which represented the views of all the large coal companies.

Ira H. Burns one of the attorneys for the independent operators, then presented the opening statement of the individual companies.

It was arranged that the attorneys representing the non-union men should first call their witnesses and five witnesses were produced who testified that strikers had killed one man and had more or less seriously annoyed two other men who worked during the suspension.

At 5 o'clock the commission adjourned until this morning.

Give Warning of Approach of More Serious Trouble.

Do you experience fits of depression with restlessness, alternating with extreme irritability, bordering upon hysteria? Are your spirits easily affected so that one minute you laugh, and the next fall into convulsive weeping?

Do you feel something like a ball rising in your throat and threatening to choke you; all the senses perverted, morbidly sensitive to light and sound; pain in the ovaries, and especially between the shoulders; sometimes loss of voice; nervous dyspepsia, and almost continually cross and snappy, with a tendency to cry at the least provocation?

If so, your nerves are in a shattered condition, and you are threatened with nervous prostration.

Undoubtedly you do not know it, but in nine cases out of ten this is caused by some uterine disorder, and the nerves centering in and about the organs which make you a woman influence your entire nervous system. Something must be done at once to restore their natural condition or you will be prostrated for weeks and months perhaps, and suffer untold misery.

Proof is monumental that nothing in the world is better for this purpose than **Lydia E. Pinkham's Vegetable Compound**; thousands and thousands of women have written us so.

How Mrs. Holland, of Philadelphia, suffered among the finest physicians in the country, none of whom could help her—finally cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—For over two years I was a constant sufferer from extreme nervousness, indigestion, and dizziness. Menstruation was irregular, had backache and a feeling of great lassitude and weakness. I was so bad that I was not able to do my own work or go far in the street. I could not sleep nights.

"I tried several splendid doctors, but they gave me no relief. After taking **Lydia E. Pinkham's Vegetable Compound** I soon began to feel better, and was able to go out and not feel as if I would fall at every step. I continued to take the medicine until cured.

"I cannot say enough in behalf of Lydia E. Pinkham's medicine, and heartily recommend all suffering women to try it and find the relief I did."—MRS. FLORENCE HOLLAND, 622 S. Clifton St., Philadelphia, Pa. (Jan. 6, 1902.)

Another case of severe female trouble cured by Lydia E. Pinkham's Vegetable Compound, after the doctors had failed.

"DEAR MRS. PINKHAM:—I was in poor health for several years. I had female trouble and was not able to do my housework alone. I felt tired, very nervous, and could not sleep. I doctored with several doctors. They doctored me for my stomach, but did not relieve me. I read in your book about your medicine, and thought I would try it. I did so, and am now cured and able to do my work alone, and feel good. I was always very poor, but now weigh one hundred and fifty pounds.

"I thank you for the relief I have obtained, and I hope that every woman troubled with female weakness will give **Lydia E. Pinkham's Vegetable Compound** a trial. I have recommended it to many of my friends."—MRS. MARIA BOWERS, Millersville, Ohio. (Aug. 15, 1901.)

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all of the virtues of this medicine?

How shall the fact that it will help them be made plain?

Surely you cannot wish to remain weak, and sick, and discouraged, exhausted with each day's work. You have some derangement of the feminine organism, and Lydia E. Pinkham's Vegetable Compound will help you just as surely as it has others.

Refused to Appoint Receiver.

Trenton, N. J., Dec. 18.—Vice Chancellor Reed yesterday filed an opinion in which he refused to appoint a receiver for the Person & Riegel company, which conducts department stores at Bethlehem, Pa., and other places. The vice chancellor held that the evidence presented was not sufficient to warrant the appointment of a receiver.

Flood Situation Relieved.

Memphis, Tenn., Dec. 18.—The flood situation in this section was practically relieved last night. All railroads entering the city, except the Illinois Central, have repaired the damage to their lines, and trains are arriving and departing nearly on schedule time. The Illinois Central, north of Memphis, is still cut off by a washout and damaged roadbed near St. Elmo, six miles distant. Trains are being run over the Louisville and Nashville by way of Milan. The break will be repaired soon.

BOXING UNDER STATE LICENSE

New York Will Be Asked to Legalize and Take Charge of Sports.

STATE TO BE BENEFICIARY

A Boxing Commission Appointed By the Governor to Have Undisputed Power in the Matter—Fake Fighters to Be Barred.

New York, December 18.—The men who are handling the new boxing bill which will be presented to the legislature next month are confident of its passage, but are not sure of its success upon reaching the governor. Last year Assemblyman John T. Dooling framed a bill to legalize amateur boxing in the state, which, it is thought, would have passed both houses, but the athletic clubs of this city could not agree upon some points, and the bill was not introduced.

The present bill, however, is not for amateurs alone. It will provide for bouts between professionals and amateurs, no matter how prominent, the sport to be governed by rigid rules.

The state, according to provisions, will be a beneficiary, as a certain percentage of the gross receipts of each contest, no matter how small, will be turned over to the state treasurer, just as the racing associations are assessed yearly a tax in the shape of a percentage of the gate receipts.

The creators of the bill believe that the state must also take absolute control of the sport, in the shape of appointment of a state boxing commission, composed of five experts of recognized ability and integrity, who will have undisputed power. The commissioners shall be appointed by the governor, and it shall be their duty to license clubs, the number in each town to be limited as to the size of the population; to sanction all matches, to issue licenses to boxers, their managers, seconds and other attendants; to appoint a corps of official referees, timekeepers, masters of ceremony and a board of state inspectors of boxing, who must attend all contests, make sure that boxers are physically fit before entering the ring, and also see to it that the state's interests are looked out for at the gates.

There will be not more than four clubs in Greater New York, two in Manhattan borough and two in Brooklyn. The licenses for these clubs will be awarded to persons who can satisfy the commissioners as to their financial responsibility and past records in the game. It is safe to say that in case the bill becomes a law the commissioners will not license a club conducted by a person who is in any way was mixed up in the fake fights that were the means of killing the law in this state. With four clubs operating in the Greater city, there will be two in Buffalo, Rochester and Syracuse, while one will be enough for the sports in Birmingham, Albany, Troy, Utica and other cities in their class.

In licensing fighters and their managers and seconds, the idea is to keep out objectionable persons who may in the past have been mixed up in some fraud of which the sporting public is well aware. If a fighter, known to be guilty of faking or crooked dealing, applies for a license he will be turned down immediately. So will managers trainers and others who cannot present a clean bill of health. It will be the province of the commissioners to revoke a license as easily as they can grant one. The state inspectors can make reports of the matters calculated to hurt the game and upon a repetition of the offense, after due warning, the license of a club can be revoked at once. A fighter or any other person involved in the game can be ruled out of the big clubs, and, in fact, all the clubs as soon as it can be shown that they are not living up to the requirements, or that they are guilty of behavior that will not do the sport any good.

Another important stipulation in the bill is that all contests must be limited to 10 rounds of three minutes each and that the referee shall have absolute power to stop a contest or let it go on. Those who are behind the bill say there is as much real action in a 10-round bout as in the old 25-round affairs, which were often drawn out in such a way that the crowd became grievously disappointed.

There has been some talk about including a clause barring heavyweights from competition, but as a matter of fact, fights between big men are less calculated to produce harmful results than the matches between smaller pugilists, who, because of light physique, are really unable to stand the strain in the ring as well as the fighters in the Jeffries, Corbett, Fitzsimmons class.

It would be left to the state inspector to select the gloves for each contest; to decide all disagreements; to see that referees enforced the rules to the letter, and to have the power to suspend a boxer or an official on the spot if there might be any evidence of wrongdoing. Clubs applying for licenses must show a membership of 500; must own the club house and arenas, or must hold long leases for the same, and must also put up a forfeit bond with the commissioners so as to protect boxers and others against losing shows.

The referees must all be appointed by the commissioners, and they must be men of recognized ability. They will receive a stated salary from the commissioners, the clubs having nothing to do with the selection of a referee to preside at their bouts.

McClelland Challenged.

Hughey McPadden, confident of victory over Jack McClelland, of Pittsburg, proclaims that he will put up $1,500 on his chances tonight. "I simply know what I can do," said he tonight. "If I do not dispose of McClelland I am surely going back. However, I have $1,000 at my command to say I am still in business." McPadden's statement was shown to McClelland. The latter merely remarked: "If he wants a bet I guess Pittsburg can furnish it."

Ferns vs. Matthews.

Rubs Ferns, who meets Matty Matthews in Allegheny next Monday night in a 10-round contest, is matched to meet Snowey Sturgon, of Sydney, Australia, for a $2,500 purse in March. Sturgon is the welterweight champion of Australia. After Ferns' contest with Matthews he will take on any of the white welterweights and later will leave for San Francisco and sail for Australia.

Bidding High For a Fight.

The Philadelphia Penn Art A. C.'s purse offer of $3,000 for a six round bout between Bob Fitzsimmons and Gus Ruhlin has stirred up the Chicago fight promoters, and now many of the matchmakers of clubs in that city are bidding for the contest. One offer of $7,000 or 50 per cent. of the gross receipts for the men to meet in a six-round bout some time next month, or early in February, has been made. It has been wired to Fitzsimmons and Billy Madden, manager of Ruhlin. Madden will surely accept the percentage offer as he is anxious to have Ruhlin fight Fitzsimmons.

THE TRYING TIME

In a young girl's life is reached when Nature leads her uncertain steps across the line which divides girlhood from womanhood. Ignorance and neglect at this critical period are largely responsible for much of the after misery of womanhood. Not only does Nature often need help in the regular establishment of the womanly function, but there is almost always need of some safe, strengthening tonic, to overcome the languor, nervousness and weakness, commonly experienced at this time.

Dr. Pierce's Favorite Prescription establishes regularity. It is a strengthening tonic, soothing the nerves, encouraging the appetite and inducing restful sleep. It contains no alcohol neither opium, cocaine or other narcotic.

"I wish to tell you the benefit we have received from using your remedies," writes Mrs. Dan Hall, of Brodhead, Green Co., Wis. "Two years ago my daughter's health began to fail. Everything that could be thought of was done to help her but it was of no use. When she began to complain she was quite stout; weighed 170, the picture of good health, until about the age of fourteen, then in six months she was so run down her weight was but 120. She kept failing and I gave up, thinking there was no use, she must die. Friends all said, 'You will lose your daughter.' I said I fear I shall. I must say, doctor, that only for your 'Favorite Prescription' my daughter would have been in her grave to-day. When she had taken one-half bottle the natural function was established and we bought another one, making only two bottles in all, and she completely recovered. Since then she is as well as can be."

My Friends Know Heart Cure Cured Me.

Mrs. C. O. Hurd, 118 W. Third St., Muscatine, Ia., is well known throughout her section of Iowa as an ardent worker in the M. E. Church. She says: "LaGrippe left me with a severe case of nervous depression and nervous dyspepsia, which soon affected my heart. I suffered from sleeplessness, headache, extreme nervousness and twitching of the muscles. The slightest exertion would cause shortness of breath, a numbness of my body and hot flashes with pain. I will tell you what I am constantly telling my friends—that Dr. Miles' Heart Cure cured me so that all these disagreeable symptoms left me. I may add that for severe pain I have never found anything to equal Dr. Miles' Anti-Pain Pills and think the Nerve and Liver Pills are a wonderful stomach remedy."

"Our son was stricken down with heart trouble in his twentieth year. For two months we got no sleep with him at night, so we commenced to use Dr. Miles' Heart Cure and Nervine with the Nerve and Liver Pills and today he is sound and well. In fact he passed a physical examination since his sickness and is with the Army in the Philippines. I desire to add that Dr. Miles' Anti-Pain Pills have certainly been a boon to me. I am frequently troubled with sick and nervous headaches and I have never found anything that would relieve me so quickly and leave me feeling so well thereafter."—Mrs. Alice Moad, Buffalo, Mo.

FREIGHTS COLLIDE HEAD ON.

One Man Killed and Six Injured—All the Victims Were Caught in the Wreckage.

Pittsburg, Dec. 18.—In a head-on collision between freight trains on the Redstone branch of the Pittsburg, Virginia and Charleston railroad yesterday afternoon about 1 o'clock, one man was killed and six others, all railroaders, were injured. Five victims of the wreck were brought to the West Penn hospital last evening about six o'clock. The dead:

John McCoy, engineer, 48 years old, of No. 2708 Cobden street, South Side, Pittsburg.

The injured:

George Gray, fireman, of Pittsburg, left foot cut off above the ankle and badly scalded about the body; condition critical.

David Patterson, engineer, 28 years old, of West Brownsville, wounded on left knee and cut on forehead; will recover.

John Martin, brakeman, 28 years old, of Arlington avenue, South Side, Pittsburg, nose broken and face scalded; wounds dressed and sent home.

Charles Woody, brakeman, 28 years old, of Second street, California, Pa., contusion of knee and shoulders.

W. H. Sergeant, fireman, of West Brownsville, internally injured and crushed.

I. C. Campbell, flagman, of Brownsville, scalded and crushed.

The accident occurred about one mile from West Brownsville junction, between freight No. 198, in charge of Engineer McCoy and Fireman Gray, and freight No. 1289, in charge of Engineer Patterson.

The trains were running at high speed and before the men in the engines had a chance to jump the crash came, and they were caught in the wreckage.

General Advance.

Toledo, Dec. 18.—The Ann Arbor Railroad company yesterday announced a general advance of from 5 to 7 per cent in the wages of all employes of the system. This makes a general advance of 10 per cent during the past year.

Stepped in Front of Train.

Lancaster, Pa., Dec. 18.—Henry Miller, of Columbia, a Pennsylvania railroad conductor, stepped from his train at Atglen yesterday evening directly in front of the St. Louis express and was instantly killed.

Senate Passed Pension Appropriation Bill, Carrying $139,847,000, Without Demur.

LOWER BRANCH AFTER TRUSTS.

Passes Amendment to Appropriate Funds to Enforce Sherman Anti-Trust Law and to Direct Attorney General to Prosecute Violations.

Washington, Dec. 18.—The senate yesterday passed the pension appropriation bill without discussion. It carries $139,847,000. An urgent deficiency bill also was passed. The amount carried by this bill is $1,140,400, and includes an item of $500,000 to enable the secretary of agriculture to stamp out the foot and mouth disease, which has become epidemic in the New England states.

The militia bill was up for a short time, Mr. Bacon, of Georgia, continuing his remarks against the constitutionality of the provision for a reserve force of trained men.

At 2 o'clock Mr. Kean, of New Jersey, called up the resolutions expressing the regret of the senate at the death of the late Senator Sewell, of New Jersey, and feelingly spoke of the life and character of the deceased. Addresses were made by other senators.

At 4:05 p. m. the senate, as a further mark of respect, adjourned until Saturday.

In the House.

Washington, Dec. 18.—Mr. Bartlett, a Georgia Democrat, during consideration of the legislative appropriation bill in the house yesterday, unexpectedly and without warning, sprung an amendment to appropriate $250,000 to enforce the Sherman anti-trust law, and to direct the attorney general to proceed to the prosecution of all violators of the law. Although such a provision was plainly amenable to a point of order, not a member on either side of the house raised objection. Both sides wheeled into line, and all agreed that some such action was advisable. Some of the Republicans, however, raised objection to the looseness of the language of the amendment, and Mr. Hepburn, of Iowa, offered as a substitute for it, the language of the bill he introduced on the opening day of the session, to appropriate $500,000 for the enforcement of the law. This was further strengthened to make the appropriation immediately available, and as amended the substitute was agreed to without division. The legislative bill was passed practically as it came from the committee, except for the amendment.

Jan. 31, at 3 o'clock, was fixed as the time for holding the exercises in connection with the acceptance of the statues of Charles Carroll and John Hansen, Maryland's contribution to statuary hall.

Special Agent J. F. Evans, stationed at El Paso, Texas, has reported to the secretary of the treasury the seizure at El Paso of diamonds, said to be worth $24,000 and which, it is claimed, were smuggled from England via New York.

The senate committee on foreign relations yesterday devoted an hour and a half to hearing reports from the Maine and Massachusetts fishery interests, in opposition to the Hay-Bond treaty for reciprocity between the United States and Newfoundland.

Senator Hoar yesterday secured permission from the senate to file with the secretary of that body, while the senate is not in session, a bill for the regulation of trusts. He did not state the nature of his bill, but said he would prepare and file it before next Saturday.

Unofficial advices have reached here that China intends to pay the next instalment of the Boxer indemnity in silver. The reports indicate that China is driven to this course by the fact that all of her revenues are payable in silver and the great internal financial strain makes it impossible to obtain gold.

Rerpresentative Fowler, chairman of the house committee on banking and currency, introduced a bill yesterday which was drawn by him in accordance with the views of the Republican members expressed at recent conferences, and which will be urged instead of the currency bill reported to the house at the last session.

Senator Depew yesterday introduced a bill authorizing the issuance of emergency currency by the treasury department. It provides that such currency shall be supplied to any national bank with a capital of not less than $50,000 to the extent of 50 per cent of the bank's capital. The extra capital is, however, to be supplied only in case of a stringency in the money market sufficiently serious to jeopardise values and imperil the commercial business interests of the country.

Flood Situation Relieved.

Memphis, Tenn., Dec. 18.—The flood situation in this section was practically relieved last night. All railroads entering the city, except the Illinois Central, have repaired the damage to their lines, and trains are arriving and departing nearly on schedule time. The Illinois Central, north of Memphis, is still cut off by a washout and damaged roadbed near St. Elmo, six miles distant. Trains are being run over the Louisville and Nashville by way of Milan. The break will be repaired soon.

REALM OF SPORTS

BOXING UNDER STATE LICENSE

New York Will Be Asked to Legalize and Take Charge of Sports.

STATE TO BE BENEFICIARY

A Boxing Commission Appointed By the Governor to Have Undisputed Power in the Matter—Fake Fighters to Be Barred.

New York December 18.—The men who are handling the new boxing bill which will be presented to the legislature next month are confident of its passage, but are not sure of its success upon reaching the governor. Last year Assemblyman John T. Dooling framed a bill to legalize amateur boxing in the state, which, it is thought, would have passed both houses, but the athletic clubs of this city could not agree upon some points, and the bill was not introduced.

The present bill, however, is not for amateurs alone. It will provide for bouts between professionals and amateurs, no matter how prominent, the sport to be governed by rigid rules.

The state, according to provisions, will be a beneficiary, as a certain percentage of the gross receipts of each contest, no matter how small, will be turned over to the state treasurer, just as the racing associations are assessed yearly a tax in the shape of a percentage of the gate receipts.

The creators of the bill believe that the state must also take absolute control of the sport, in the shape of appointment of a state boxing commission, composed of five experts of recognized ability and integrity, who will have undisputed power. The commissioners shall be appointed by the governor, and it shall be their duty to license clubs, the number in each town to be limited as to the size of the population; to sanction all matches, to issue licenses to boxers, their managers, seconds and other attendants; to appoint a corps of official referees, timekeepers, masters of ceremony and a board of state inspectors of boxing, who must attend all contests, make sure that boxers are physically fit before entering the ring, and also see to it that the state's interests are looked out for at the gates.

There will be not more than four clubs in Greater New York, two in Manhattan borough and two in Brooklyn. The licenses for these clubs will be awarded to persons who can satisfy the commissioners as to their financial responsibility and past records in the game. It is safe to say that in case the bill becomes a law the commissioners will not license a club conducted by a person who is in any way was mixed up in the fake fights that were the means of killing the law in this state. With four clubs operating in the Greater city, there will be two in Buffalo, Rochester and Syracuse, while one will be enough for the sports in Birmingham, Albany, Troy, Utica and other cities in their class.

In licensing fighters and their managers and seconds, the idea is to keep out objectionable persons who may in the past have been mixed up in some fraud of which the sporting public is well aware. If a fighter, known to be guilty of faking or crooked dealing, applies for a license he will be turned down immediately. So will managers trainers and others who cannot present a clean bill of health. It will be the province of the commissioners to revoke a license as easily as they can grant one. The state inspectors can make reports of the matters calculated to hurt the game and upon a repetition of the offense, after due warning, the license of a club can be revoked at once. A fighter or any other person involved in the game can be ruled out of the big clubs, and, in fact, all the clubs as soon as it can be shown that they are not living up to the requirements, or that they are guilty of behavior that will not do the sport any good.

Another important stipulation in the bill is that all contests must be limited to 10 rounds of three minutes each and that the referee shall have absolute power to stop a contest or let it go on. Those who are behind the bill say there is as much real action in a 10-round bout as in the old 25-round affairs, which were often drawn out in such a way that the crowd became grievously disappointed.

There has been some talk about including a clause barring heavyweights from competition, but as a matter of fact, fights between big men are less calculated to produce harmful results than the matches between smaller pugilists, who, because of light physique, are really unable to stand the strain in the ring as well as the fighters in the Jeffries, Corbett, Fitzsimmons class.

It would be left to the state inspector to select the gloves for each contest; to decide all disagreements; to see that referees enforced the rules to the letter, and to have the power to suspend a boxer or an official on the spot if there might be any evidence of wrongdoing. Clubs applying for licenses must show a membership of 500; must own the club house and arenas, or must hold long leases for the same, and must also put up a forfeit bond with the commissioners so as to protect boxers and others against losing shows.

The referees must all be appointed by the commissioners, and they must be men of recognized ability. They will receive a stated salary from the commissioners, the clubs having nothing to do with the selection of a referee to preside at their bouts.

McClelland Challenged.

Hughey McPadden, confident of victory over Jack McClelland, of Pittsburg, proclaims that he will put up $1,500 on his chances tonight. "I simply know what I can do," said he tonight. "If I do not dispose of McClelland I am surely going back. However, I have $1,000 at my command to say I am still in business." McPadden's statement was shown to McClelland. The latter merely remarked: "If he wants a bet I guess Pittsburg can furnish it."

Ferns vs. Matthews.

Rubs Ferns, who meets Matty Matthews in Allegheny next Monday night in a 10-round contest, is matched to meet Snowey Sturgon, of Sydney, Australia, for a $2,500 purse in March. Sturgon is the welterweight champion of Australia. After Ferns' contest with Matthews he will take on any of the white welterweights and later will leave for San Francisco and sail for Australia.

Bidding High For a Fight.

The Philadelphia Penn Art A. C.'s purse offer of $3,000 for a six round bout between Bob Fitzsimmons and Gus Ruhlin has stirred up the Chicago fight promoters, and now many of the matchmakers of clubs in that city are bidding for the contest. One offer of $7,000 or 50 per cent. of the gross receipts for the men to meet in a six-round bout some time next month, or early in February, has been made. It has been wired to Fitzsimmons and Billy Madden, manager of Ruhlin. Madden will surely accept the percentage offer as he is anxious to have Ruhlin fight Fitzsimmons.

THE TRYING TIME

In a young girl's life is reached when Nature leads her uncertain steps across the line which divides girlhood from womanhood. Ignorance and neglect at this critical period are largely responsible for much of the after misery of womanhood. Not only does Nature often need help in the regular establishment of the womanly function, but there is almost always need of some safe, strengthening tonic, to overcome the languor, nervousness and weakness, commonly experienced at this time.

Dr. Pierce's Favorite Prescription establishes regularity. It is a strengthening tonic, soothing the nerves, encouraging the appetite and inducing restful sleep. It contains no alcohol neither opium, cocaine or other narcotic.

"I wish to tell you the benefit we have received from using your remedies," writes Mrs. Dan Hall, of Brodhead, Green Co., Wis. "Two years ago my daughter's health began to fail. Everything that could be thought of was done to help her but it was of no use. When she began to complain she was quite stout, weighed 170, the picture of good health, until about the age of fourteen, then in six months she was so run down her weight was but 120. She kept failing and I gave up, thinking there was no use, she must die. Friends all said, 'You will lose your daughter.' I said I fear I shall. I must say, doctor, that only for your 'Favorite Prescription' my daughter would have been in her grave to-day. When she had taken one-half bottle the natural function was established and we bought another one, making only two bottles in all, and she completely recovered. Since then she is as well as can be."

Gentlemen,—I am pleased to add my testimony to the many who are to-day praising the efficacy of

Dr. Caldwell's (Laxative) Syrup Pepsin

Hurried meals brought on a severe case of indigestion, causing headaches and a general lassitude. I tried many remedies but found no relief until my attention was called to your Syrup Pepsin. Five bottles cured me completely, and I am glad to recommend so reliable a medicine. Respectfully yours

J. AMOS BLUME, 146 W. Madison St., Chicago, Ill.

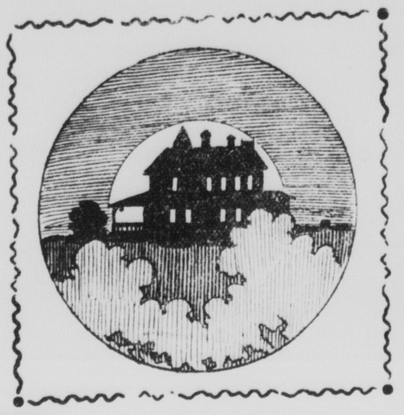
A Man's Home is His Castle.



DO YOU OWN YOUR OWN CASTLE OR ARE YOU PAYING A LANDLORD SO MUCH PER MONTH FOR A PLACE TO LIVE IN? EVERY MONTH'S RENT IS THE INTEREST, TAXES, INSURANCE AND LANDLORD'S PROFITS ON THE HOUSE YOU DO NOT OWN.

START THE NEW YEAR

With a determination to own your own home and we will help you do it. Many a thrifty, honest man has only a handful of rent receipts to show for long years of toil and struggle.

We Will Loan You Money to Build

on easy terms and you can pay part or all your loan at any time. THE ADVANTAGES WE OFFER TO BORROWERS is a definite contract for a specified payment for any number of years from 1 to 11. Your interest reduced each six months by charging you interest only on the balance still due. Advance payments can be made at any time still farther reducing the amount on which interest is charged. Repayment of loan can be made at any time.

The Key to Wealth is Systematic Saving

It is not what you earn but the amount you save that counts. If you want to become rich and do it honestly so that it will be a comfort to your family the best thing is to commence today to save. We pay six per cent. interest on savings accounts and interest commences the day you deposit with us.

Have You Any Surplus Money?

If you have bring it to us and we will issue you paid-up stock for it and pay you six per cent. interest on it. Six dollars a year on every hundred invested is better than most investments you can make and you have the assurance that your money is in an absolutely safe place.

HOME AFFAIRS.

Brief Notes of a Personal Nature And of Matters About Town.

Extra Help—An extra clerk has been put on at the postoffice to help out during the holiday rush.

A Fine Lecture—Rev. J. P. Anderson, of Lisbon, who has lately returned from an extended tour of Asia, delivered a very interesting lecture on "Mission Work in Syria" at the First Presbyterian church last night.

Private Telephone Line—The Bell Telephone company is about to construct a line from Pittsburg to Wellsville which will be for the exclusive use of the American Sheet Steel company between its local office there and its office in Pittsburg.

Christmas Programs—The announcement has been made that special Christmas exercises will be held at the city schools on Friday. This announcement is only partially correct. Each separate room in the different schools will hold special exercises next Friday afternoon appropriate to Christmas. Considerable time has been taken by the pupils of the various schools and the exercises promise to be very entertaining.

Successful Revival — The revival meeting at the Free Methodist church on Avondale street is going on with increasing interest. Many people are getting saved on the bible line. Two clear conversions were made last night. One of them sounded notes of the good tidings all the way from the church to her home on Second street. Rev. A. D. Zahniser will preach tonight from a subject that will interest all.

DRUMMER BOY

Continued from First Page.

ing the first act the lady sang a solo, which was applauded to the echo.

The character of Mrs. Rutledge was never in better hands than upon this occasion. Miss Nancy Taylor impersonated a haughty southern aristocrat, and the effort was perfection itself. In her carefully arranged costume Miss Taylor made an impression that won warm commendation.

Farmer Elliott's wife was one of the best and most amusing persons in the cast. The part was taken by Mrs. Albert Louther, and she added much to the comedy feature of the piece.

The tableaux were said to be the most beautiful ever witnessed at the Grand, and much credit is due the young ladies who contributed to the success of this part of the performance.

CRIPPS HAS SOLD OPERA HOUSE STOCK

Disposed of a Half Interest in the Property to Charles Fisher—Reported Consideration, $16,000.

Charles Fisher, a well known merchant, has purchased from S. J. Cripps his share of one-half in the Grand opera house property. Mr. Cripps will still continue as manager.

It is reported that the consideration was $16,000. Dr. W. N. Bailey and W. T. Burton still retain their interests in the property.

The stockholders will soon meet to discuss plans for the future and for possible improvements.

Christmas Eve Party.

Invitations have been issued announcing the party of Miss Florence Louthan, daughter of Mr. and Mrs. B. M. Louthan. The event will occur on Christmas eve, and will be one of the large and elaborate functions of the holiday time, as Miss Louthan is very popular in social circles. Dancing will be the diversion of the evening.

Basketball Tonight.

The Y. M. C. A. basketball team will play the Freedom boys tonight at the Y. M. C. A. building. The local boys have won 10 straight games, including 3 this season. The lineup of the local team is as follows: Forwards, Allison, Bloor; center, Rigby; guards, Chadwick, Watkins; substitutes, Powell.

New Club Organized.

A new social club, composed of about 15 well known young men, has been formed in this city. John Hughes is president, John Hagen vice president and M. Haddock secretary. It is called the Acme club and has quarters in the Seanor building. Its first function, a dance, will be given this evening.

Licensed to Marry.

Lisbon, December 18.—(Special.)—Samuel L. Swindells and Fannie F. Beardmore, both of East Liverpool, have been granted a marriage license.

TIN MILL OFFICIALS

Pays a Visit To Chester And Inspect the American Tinplate Company's Plant.

The American Tin Plate mill, at Chester, is being inspected today by the district manager and superintendents of the different mills in the district. They have found everything in excellent condition at the Chester plant and it is regarded as one of the most promising mills belonging to the trust. The gentlemen composing the party are B. Goldsmith, district manager; A. G. Baldwin, superintendent Niles; A. G. Baldwin, superintendent at Lisbon; T. Gill, formerly superintendent at Lisbon; A. A. Button, of Cleveland; O. N. Bingham and W. C. Lloyd, both of New Kensington.

BOUGHT A FARM

Mayor John Shrader Purchases 137 Acres Lying Adjacent to Chester.

Mayor John Shrader has recently purchased the farm of Alex. Allison, which is located in the edge of Chester. The farm contains about 137 acres and will be a valuable location for water reservoirs when the town of Chester builds a water works system.

Council Meeting.

The regular meeting of council will be held tonight. Several questions of importance may be discussed. It is thought that the question of damage to several pieces of property on account of sewers will be brought up. Final arrangements for the election will be made.

Protracted Meetings.

A series of protracted meetings will begin Christmas night at the Asbury M. E. church. Rev. E. C. Lindsey will conduct them and it is expected that they will continue about two or three weeks.

A Vacuum Pressure Experiment.

Chemical science has taught us how to overcome the dreaded diseases that have swept away whole cities in the past. It has taught us the manufacture of explosives and munitions of war and has made possible the greatly improved modes of travel, and it may be truly said that to chemistry we owe the most material progress the world has made.

While this little experiment will not deal with the hidden secrets that live in the famous laboratories or treat upon the mystic powers of viscosity and relegation, it will show what power the absence of air has in attracting movable substances into the place that has been vacated by the air. Few think when they breathe the atmosphere that surrounds them that it has a pressure of fifteen pounds to the square inch or that it can attract even a piece of iron into the space which it leaves.

For an example of the strength of air take any tumbler, fill it about half full of tissue paper, set fire to the paper, turn over the glass in a basin containing water about one-half inch deep and then watch the water ascend the interior of the glass.

Didn't Know His Own Child.

At Antietam, just after the artillery had been sharply engaged, the Rockbridge (Va.) battery was standing waiting orders. General Lee rode by and stopped a moment. A dirty faced driver about seventeen said to him:

"General, are you going to put us in again?"

Think of such a question from such a source to the general of the army, especially when that general's name was Lee!

"Yes, my boy," the stately officer kindly answered, "I have to put you in again. But what is your name? Your face seems familiar somehow."

"I don't wonder you didn't know me, sir," laughed the lad, "I'm so dirty. But I'm Bob."

It was the general's youngest son, whom he had thought safe at the Virginia Military institute. "God bless you, my son; do your duty," and the general rode on.

Our shoes are the most comfortable because we fit them properly and we have the proper shapes.

Monkey Policemen.

In Hindustan monkeys are made useful, and they do police duty after a fashion and often really assist the police in quelling disturbances or suppressing riots. Sometimes these four handed policemen act as protectors to the weak and helpless, as this incident will show:

At Agra on the platform of a public warehouse a little street arab had spread his rug in the shade of a stack of country produce and had just dropped asleep when one of the wealthy residents strolled up with a pet leopard that had learned to accompany him in all his rambles.

A troop of monkeys had taken post on the opposite side of the shed, but at sight of the spotted intruder the whole gang charged along the platform and, instantly forming a semicircle about the little sleeper, faced the leopard with bristling manes, evidently resolved to defeat the suspected purpose of his visit.

Ocean Cliffs Set on Fire by Waves.

It is not often that the waves of the ocean can set cliffs afire, but they do sometimes. At Ballybunnion, on the west coast of Ireland, the waves which for unnumbered centuries have been beating against the shores one day broke into a great deposit of iron pyrites and alum. A rapid oxidation took place which produced a fierce heat and set the whole cliff to burning. For weeks the cliff burned like a volcano, and great clouds of smoke and vapor rose in the air. When the fire died out, great masses of lava and clay burned to brick were seen in every direction.

In the arctic regions there is another such burning cliff, which when last seen was on fire for twenty miles. The burning material was composed largely of lignite, but is believed to be made up of several other combustible chemical substances, which had been set on fire when the waves reached them.

Sugar and the Hygienists.

Sugar is doubtless a food. It is a food of great energy. But we must not abuse it, says the Revue Scientifique. Why? Because, according to M. G. Bunge, the physiologist, pure cane sugar is lacking in lime and iron. Now, lime and iron are necessary to the organism. It is better to take the sugar in the form of legumes and fruits rich in hydrocarbons. And what is honey worth? Very little also. It has the same inconveniences—it also is wanting in lime and iron.

It will be observed, however, that if we consider all the advantages which, according to the hygienists, attach to various foods, we shall find that it is almost impossible to get any nourishment at all if we want to adjust our diet to scientific teaching.—Literary Digest.

At Home and Abroad.

A few days ago an elderly gentleman and his wife were walking along the street when a lady in crossing the road fell down. The old gentleman rushed to her assistance and helped her in every possible way. When he returned to his wife, she looked like a thundercloud.

"It's all right; it's all right," he whispered.

"Yes, I know it's all right!" she replied hotly. "Here's an unknown woman falls down, and you plow across the street to help her, and the other day, when I fell downstairs, you wanted to know if I was practicing for a circus."

HOME AFFAIRS.

Brief Notes of a Personal Nature And of Matters About Town.

Extra Help—An extra clerk has been put on at the postoffice to help out during the holiday rush.

A Fine Lecture—Rev. J. P. Anderson, of Lisbon, who has lately returned from an extended tour of Asia, delivered a very interesting lecture on "Mission Work in Syria" at the First Presbyterian church last night.

Private Telephone Line—The Bell Telephone company is about to construct a line from Pittsburg to Wellsville which will be for the exclusive use of the American Sheet Steel company between its local office there and its office in Pittsburg.

Christmas Programs—The announcement has been made that special Christmas exercises will be held at the city schools on Friday. This announcement is only partially correct. Each separate room in the different schools will hold special exercises next Friday afternoon appropriate to Christmas. Considerable time has been taken by the pupils of the various schools and the exercises promise to be very entertaining.

Successful Revival — The revival meeting at the Free Methodist church on Avondale street is going on with increasing interest. Many people are getting saved on the bible line. Two clear conversions were made last night. One of them sounded notes of the good tidings all the way from the church to her home on Second street. Rev. A. D. Zahniser will preach tonight from a subject that will interest all.

ing the first act the lady sang a solo, which was applauded to the echo.

The character of Mrs. Rutledge was never in better hands than upon this occasion. Miss Nancy Taylor impersonated a haughty southern aristocrat, and the effort was perfection itself. in her carefully arranged costume Miss Taylor made an impression that won warm commendation.

Farmer Elliott's wife was one of the best and most amusing persons in the cast. The part was taken by Mrs. Albert Louther, and she added much to the comedy feature of the piece.

The tableaux were said to be the most beautiful ever witnessed at the Grand, and much credit is due the young ladies who contributed to the success of this part of the performance.

CRIPPS HAS SOLD OPERA HOUSE STOCK

Disposed of a Half Interest in the Property to Charles Fisher—Reported Consideration, $16,000.

Charles Fisher, a well known merchant, has purchased from S. J. Cripps his share of one-half in the Grand opera house property. Mr. Cripps will still continue as manager.

It is reported that the consideration was $16,000. Dr. W. N. Bailey and W. T. Burton still retain their interests in the property.

The stockholders will soon meet to discuss plans for the future and for possible improvements.

Christmas Eve Party.

Invitations have been issued announcing the party of Miss Florence Louthan, daughter of Mr. and Mrs. B. M. Louthan. The event will occur on Christmas eve, and will be one of the large and elaborate functions of the holiday time, as Miss Louthan is very popular in social circles. Dancing will be the diversion of the evening.

Basketball Tonight.

The Y. M. C. A. basketball team will play the Freedom boys tonight at the Y. M. C. A. building. The local boys have won 10 straight games, including 3 this season. The lineup of the local team is as follows: Forwards, Allison, Bloor; center, Rigby; guards, Chadwick, Watkins; substitutes, Powell.

New Club Organized.

A new social club, composed of about 15 well known young men, has been formed in this city. John Hughes is president, John Hagen vice president and M. Haddock secretary. It is called the Acme club and has quarters in the Seanor building. Its first function, a dance, will be given this evening.

Licensed to Marry.

Lisbon, December 18.—(Special.)—Samuel L. Swindells and Fannie F. Beardmore, both of East Liverpool, have been granted a marriage license.

Select your holiday shoes this week and you'll get better selections. We'll lay them away for you. Open evenings, till Xmas.

TIN MILL OFFICIALS

Paye a Visit to Chester And Inspect the American Tinplate Company's Plant.

The American Tin Plate mill, at Chester, is being inspected today by the district manager and superintendents of the different mills in the district. They have found everything in excellent condition at the Chester plant and it is regarded as one of the most promising mills belonging to the trust. The gentlemen composing the party are B. Goldsmith, district manager; A. G. Baldwin, superintendent Niles; A. G. Baldwin, superintednent at Lisbon; T. Gill, formerly superintendent at Lisbon; A. A. Button, of Cleveland; O. N. Bingham and W. C. Lloyd, both of New Kensington.

BOUGHT A FARM

Mayor John Shrader Purchases 137 Acres Lying Adjacent to Chester.

Mayor John Shrader has recently purchased the farm of Alex. Allison, which is located in the edge of Chester. The farm contains about 137 acres and will be a valuable location for water reservoirs when the town of Chester builds a water works system.

Council Meeting.

The regular meeting of council will be held tonight. Several questions of importance may be discussed. It is thought that the question of damage to several pieces of property on account of sewers will be brought up. Final arrangements for the election will be made.

Protracted Meetings.

A series of protracted meetings will begin Christmas night at the Asbury M. E. church. Rev. E. C. Lindsey will conduct them and it is expected that they will continue about two or three weeks.

A Vacuum Pressure Experiment.

Chemical science has taught us how to overcome the dreaded diseases that have swept away whole cities in the past. It has taught us the manufacture of explosives and munitions of war and has made possible the greatly improved modes of travel, and it may be truly said that to chemistry we owe the most material progress the world has made.

While this little experiment will not deal with the hidden secrets that live in the famous laboratories or treat upon the mystic powers of viscosity and relegation, it will show what power the absence of air has in attracting movable substances into the place that has been vacated by the air. Few think when they breathe the atmosphere that surrounds them that it has a pressure of fifteen pounds to the square inch or that it can attract even a piece of iron into the space which it leaves.

For an example of the strength of air take any tumbler, fill it about half full of tissue paper, set fire to the paper, turn over the glass in a basin containing water about one-half inch deep and then watch the water ascend the interior of the glass.

Didn't Know His Own Child.

At Antietam, just after the artillery had been sharply engaged, the Rockbridge (Va.) battery was standing waiting orders. General Lee rode by and stopped a moment. A dirty faced driver about seventeen said to him:

"General, are you going to put us in again?"

Think of such a question from such a source to the general of the army, especially when that general's name was Lee!

"Yes, my boy," the stately officer kindly answered, "I have to put you in again. But what is your name? Your face seems familiar somehow."

"I don't wonder you didn't know me, sir," laughed the lad, "I'm so dirty. But I'm Bob."

It was the general's youngest son, whom he had thought safe at the Virginia Military Institute. "God bless you, my son; do your duty," and the general rode on.

Our shoes are the most comfortable because we fit them properly and we have the proper shapes.

Monkey Policemen.

In Hindustan monkeys are made useful, and they do police duty after a fashion and often really assist the police in quelling disturbances or suppressing riots. Sometimes these four handed policemen act as protectors to the weak and helpless, as this incident will show:

At Agra on the platform of a public warehouse a little street arab had spread his rug in the shade of a stack of country produce and had just dropped asleep when one of the wealthy residents strolled up with a pet leopard that had learned to accompany him in all his rambles.

A troop of monkeys had taken post on the opposite side of the shed, but at sight of the spotted intruder the whole gang charged along the platform and, instantly forming a semicircle about the little sleeper, faced the leopard with bristling manes, evidently resolved to defeat the suspected purpose of his visit.

Ocean Cliffs Set on Fire by Waves.

It is not often that the waves of the ocean can set cliffs afire, but they do sometimes. At Ballybunnion, on the west coast of Ireland, the waves which for unnumbered centuries have been beating against the shores one day broke into a great deposit of iron pyrites and alum. A rapid oxidation took place which produced a fierce heat and set the whole cliff to burning. For weeks the cliff burned like a volcano, and great clouds of smoke and vapor rose in the air. When the fire died out, great masses of lava and clay burned to brick were seen in every direction.

In the arctic regions there is another such burning cliff, which when last seen was on fire for twenty miles. The burning material was composed largely of lignite, but is believed to be made up of several other combustible chemical substances, which had been set on fire when the waves reached them.

Sugar and the Hygienists.

Sugar is doubtless a food. It is a food of great energy. But we must not abuse it, says the Revue Scientifique. Why? Because, according to M. G. Bunge, the physiologist, pure cane sugar is lacking in lime and iron. Now, lime and iron are necessary to the organism. It is better to take the sugar in the form of legumes and fruits rich in hydrocarbons. And what is honey worth? Very little also. It has the same inconveniences—it also is wanting in lime and iron.

It will be observed, however, that if we consider all the advantages which, according to the hygienists, attach to various foods, we shall find that it is almost impossible to get any nourishment at all if we want to adjust our diet to scientific teaching.—Literary Digest.

At Home and Abroad.

A few days ago an elderly gentleman and his wife were walking along the street when a lady in crossing the road fell down. The old gentleman rushed to her assistance and helped her in every possible way. When he returned to his wife, she looked like a thundercloud.

"It's all right; it's all right," he whispered.

"Yes, I know it's all right!" she replied hotly. "Here's an unknown woman falls down, and you plow across the street to help her, and the other day, when I fell downstairs, you wanted to know if I was practicing for a circus."

DO YOU OWN YOUR OWN CASTLE OR ARE YOU PAYING A LANDLORD SO MUCH PER MONTH FOR A PLACE TO LIVE IN? EVERY MONTH'S RENT IS THE INTEREST, TAXES, INSURANCE AND LANDLORD'S PROFITS ON THE HOUSE YOU DO NOT OWN.

START THE NEW YEAR

With a determination to own your own home and we will help you do it. Many a thrifty, honest man has only a handful of rent receipts to show for long years of toil and struggle.

We Will Loan You Money to Build

on easy terms and you can pay part or all your loan at any time. THE ADVANTAGES WE OFFER TO BORROWERS is a definite contract for a specified payment for any number of years from 1 to 11. Your interest reduced each six months by charging you interest only on the balance still due. Advance payments can be made at any time still farther reducing the amount on which interest is charged. Repayment of loan can be made at any time.

The Key to Wealth is Systematic Saving

It is not what you earn but the amount you save that counts. If you want to become rich and do it honestly so that it will be a comfort to your family the best thing is to commence today to save. We pay six per cent. interest on savings accounts and interest commences the day you deposit with us.

Have You Any Surplus Money?

If you have bring it to us and we we will issue you paid-up stock for it and pay you six per cent. interest on it. Six dollars a year on every hundred invested is better than most investments you can make and you have the assurance that your money is in an absolutely safe place.

DO YOU OWN YOUR OWN CASTLE OR ARE YOU PAYING A LANDLORD SO MUCH PER MONTH FOR A PLACE TO LIVE IN? EVERY MONTH'S RENT IS THE INTEREST, TAXES, INSURANCE AND LANDLORD'S PROFITS ON THE HOUSE YOU DO NOT OWN.

START THE NEW YEAR

With a determination to own your own home and we will help you do it. Many a thrifty, honest man has only a handful of rent receipts to show for long years of toil and struggle.

We Will Loan You Money to Build

on easy terms and you can pay part or all your loan at any time. THE ADVANTAGES WE OFFER TO BORROWERS is a definite contract for a specified payment for any number of years from 1 to 11. Your interest reduced each six months by charging you interest only on the balance still due. Advance payments can be made at any time still farther reducing the amount on which interest is charged. Repayment of loan can be made at any time.

The Key to Wealth is Systematic Saving

It is not what you earn but the amount you save that counts. If you want to become rich and do it honestly so that it will be a comfort to your family the best thing is to commence today to save. We pay six per cent. interest on savings accounts and interest commences the day you deposit with us.

Have You Any Surplus Money?

If you have bring it to us and we will issue you paid-up stock for it and pay you six per cent. interest on it. Six dollars a year on every hundred invested is better than most investments you can make and you have the assurance that your money is in an absolutely safe place.

19TH YEAR. NO. 298. EAST LIVERPOOL, O., THURSDAY, DECEMBER 18, 1902. TWO CENTS.

NO OTHER CORPORATION HAS ANY INTEREST IN THE NEW TROLLEY LINE

Gen. Asa W. Jones Indignantly Repudiates Insinuations That His Company Intends to Sell Out.

General Asa W. Jones, president of the Youngstown & Southern Railroad company, was in town last evening in the interest of the project and talked interestingly and enthusiastically of its prospects. His attention being called to articles in an irresponsible East Liverpool publication which, with much waste of words, has been trying to throw doubt on the sincerity and good faith of General Jones and his associates, he said:

"The Youngstown & Southern will be built. You can set that down for a fact. It will not be built for sale, but for use. Nobody but the officers of the Youngstown & Southern have any interests in the franchises or th erights of way which we are asking and obtaining.

"No other company or persons have any interest, either present or prospective in onr line. Neither have we any interest in any other line, or any desire to shut any other lines out of this city.

"What the Wabash railroad's plans may be or what plans the promoters of other trolley projects may have we know not. We do know, however, that we have the rights of way for our road practically all secured with the exception of a portion of the distance between Leetonia and Lisbon, and the reason rights have not been secured there is because it has not been definitely decided which of two routes will be followed.

"Any one who will take the trouble to consult the Bloomfield Land company, of East Liverpool, from which we have obtained valuable rights, will discover that our agreement will not permit us to hawk our franchise. A written agreement has been etered into between the officials of the road and those of the land company which stipulates that the rights cannot be transferred; if they are they revert to the owners of the land. In this agreement also the date is set for commencing work within a year.

"Work will surely be started as soon as the weather will permit in the spring. The first step, of course, will be to provide for building the power houses.

"Another evidence that we mean what we say is that before undertaking this road I secured extensive leases of coal land in the North Lima field, and all these leases become void unless a railroad is built there by us.

"You can set it down as a fact that any company which proposes to obtain

DROPPED DEAD UPON THE STREET

Sudden Demise in Texas of a Man Hailing From East Liverpool.

HIS NAME WAS A. C. SNIDER

He Had a Brother-in-Law Named Williamson Who Is Known Here, But Nobody Appears to Have Any Recollection of Snider.

An account of an East Liverpool man's sudden death in Texas is given in the following letter:

"Texarkana, Tex., Dec. 16.

"Postmaster, East Liverpool, O.

"Dear Sir—On the night of December 13, 1902, a man fell dead in the streets of our city. On his person was found a memorandum book on which was written: 'My name is A. C. Snider, East Liverpool, O., care of Joseph Williamson, my brother-in-law, the dry goods man.' His body was turned over to an undertaker and he telegraphed to the Williamson, of the above address, but could not find him. If you know anything of Snider or Williamson, will you kindly give me all the information you can. If you can't give me any information, please hand this to some officer who will investigate and answer my letter. He had only 10 cents on his person. He was buried in the paupers' field. Would be pleased to hear from you. Yours respectfully,

"W. A. HARGETT,

"Deputy Sheriff of Bowie County."

The letter was received last evening by Postmaster Surles and turned over to Chief Thompson. He immediately made an investigation, but has been unable to throw any light upon the matter.

A News Review reporter, by careful inquiry discovered that Joseph Williamson, who in all probability is the man alluded to in the memorandum book, lived in this city for a number of years, but is now located at Columbus. He was in business in the Diamond at the store room now occupied by Frank, Shumaker & Co. Seven years have elapsed since Williamson left the city, and though he moved to Columbus, living, however, a year or more at Springfield before settling there, it is not known whether or not he still lives there. Older residents of the city remember distinctly of Mr. Williamson's business career here, but none of them can remember anything of a man named A. C. Snider.

Chief Thompson will delay answering the letter until further investigation is made, but he has little hopes of locating any one knowing the deceased.

MANUFACTURING POTTERS MOST EARNESTLY DESIRE FIXED SCALE OF PRICES

Not Higher Rates, But Maintenance of Rates the Avowed Object of the Pittsburg Meeting.

The stupendous task of bringing all the manufacturing potters of the United States into an agreement that will put an end to the price cutting that has proven so disastrous in the past six months was still far from completion this morning. The plan and scope committee of the United States Potters' association, in conjunction with many prominent manufacturers, which was in session at Pittsburg, all of yesterday and far in to the night. At the close of last night's session D. E. McNicol, president of the D. E. McNicol Pottery company, made the following statement:

"We are here to carry out the plan forming for several months. We do not want the mistaken impression to get out that we are attempting to raise the prices on pottery—we are simply trying to find a means to maintain the prices established last year.

"During the year we have been unable to get these prices on account of the condition of the business in general. There has been a continual opening up of new plants, each with its own scale of prices. The United States Potters' associaion has been unable to get them in line as fast as they were established.

"Now we feel that they are all in shape to enter the agreement and we feel that we can maintain that price, which, by the way, most of the old-established potteries have been maintaining during the year. The old rivalry between the east and the west, as represented by Trenton, N. J., and East Liverpool, is a thing of the past and we are now all working in perfect harmony for the welfare of the trade."

The work was resumed again this morning and may not be finally adjourned until tomorrow.

It is proposed, under the supervisor of the present organization to form "The Pottery Association of America," to govern all sales and pay the rebates on purchases. The plan contemplates the division of ware into premium and non-premium goods. The business will be administered by an executive committee, divided into two sections, meeting monthly in this city and Trenton, N. J.

According to the plan proposed by the associations' committee, all sales will go through the new association. A forfeit will be put by every member of the compact for violation of its terms.

The minimum prices and terms for the sale of crockery made by the mem-

MAYOR APPOINTS CHIEF OF POLICE

Code Expert of the Attorney General's Office Thus Decides Issue Raised.

SCHOOL BOARD ELECTION

Still Something of a Puzzle, Though the Secretary of State Laylin Holds That the Old Law Will Apply. Capital News

From a Staff Corespondent.

Columbus, December 18.—The question of who is to appoint the chief of police under the code, raised by Solicitor McGarry, f East Liverpool, was propounded to Smith Bennett, code expert of th attorney general's department, yesterday, and his answer was that the mayo appoints and council confirms. The ode states that the chief shall be appinted from a classified list, but in te absence of such a list, according to Mr. Bennett's opinion, the mayor shall make a temporary appointment until ne is available. The chief of the fire department is appointed similarly.

Another puzzling question has been raised over the passge of the municipal code. As no provision is made by the law for the election of school board members, Wade Ellis, of Cincinnati, who had a hand in the formation of the code, says te only way out of the difficulty is to mit the regular school board election next spring and permit the old members to hold over until the following spring, by which time the legislature will have enacted remedial legislation.

Judge Alread, chief clerk in the office of the secretary of state, stated to the representative of his paper that Secretary of State Lalin had held that school board members should be elected next spring unr the present laws. His position is hat where the code does not specify therwise, the old laws should be obsved as in the past regardless of the constitutionality. The supreme cort has tacitly consented to this. Although the school laws are unsound the cort would not knock them out before e legislature had an opportunity of rlacing them with valid acts.

DRUMMER BOY ABLY PRESENTED

Amateurs Played Like Professionals Before a Crowded House Last Night.

A FINE INTERPRETATION

Of the Great War Time Play Surprised And Delighted All Who Witnessed It—All the Roles Well Acted—Features of the Play.

The popular drama, "The Drummer Boy, or the Spy of Shiloh," is not a new piece in this city, but its production at the Grand by home talent last night, was so far superior to any previous effort that one could scarcely recognize the play. The house was packed.

Harry C. Nail, who takes the part of Martin Howard, leading man, has been brought up with the play and his interpretation of the character is almost perfect.

The principal old-man character was in the hands of F. G. Croxall, who has on several occasions played the part with unusual ability.

Perhaps the strongest and most difficult part is that of Frank Rutledge, portrayed by W. R. Dawson, one of the best known and most popular members of the local camp of Sons of Veterans. Mr. Dawson displays rare talent in the villain character.

W. H. Surles has handled the part of Harry Howard on a number of occasions, and his work is always appreciated. Mr. Surles' solo in the second act is especially fine.

Johnny Howard, the drummer boy, was entrusted to Miss Nina Kinsey, one of the most charming little ladies in the city. Her ready conception of every detail of the part assigned her and the manner in which she enacts the difficult role, at once captivated the large audience and made her a general favorite.

It has been conceded that there never was a better old-man character turned out in the city than William Hackworth, and his work last night did not fall short of the usual excellence of the past.

W. A. Davis has the difficult part of General Grant and played it in an excellent manner.

"Fatty" Smith is pronounced one of the finest parts ever created, and Jacob Shenkel portrayed it to perfection. Mr. Shenkel is a German dialect artist of rare ability, and he with his awkward squad kept the audience convulsed with laughter at every appearance.

A. F. Nail, for the first time in this city, played the part of Uncle Joe, and demonstrated that he is one of the best black face artists in the business.

The lady characters had been placed in competent hands. Mrs. W. W. Hamilton displayed much talent in the part of Mother Howard, and the interest taken by her in the success of the affair has gone a long way toward encouraging the other members of the cast.

Miss Lottie Smith distinguished herself in the character of Mrs. Mart Howard and supported Mr. Nail in a pleasing manner.

The part of Jennie Howard was taken by Miss Margaret Hamil. Dur-

WHARF PAVING IS NOW PROMISED

Captain Martindill Will Undertake the Necessary Work With the City's Consent.

The public wharf, which has for years not only been an eyesore but a detriment to the city in many ways, owing to its filthy, rocky and unkempt condition, is to be repaired, paved and made one of the finest which adorns a river front between Pittsburg and Cincinnati. Wharfmaster Gus Martindill has made the proposition to do the work and the only barrier that can prevent its early commencement will be unfavorable action of council, which is not in the least anticipated.

Captian Martindill, a short time after purchasing the wharfboat, readily became acquainted with the needs of a wharf and decided that he would, if possible, prevail upon council to improve it. Circulating a petition among the manufacturers and business men he had no difficulty in securing the signatures of a hundred or more who expressed personal wishes that council take action on the matter. The petition was presented to the council-manic body and was looked favorably upon by every member, but the action was delayed as a result of the city engineer not being able to exactly designate the portion of the wharf that belongs to the city.

Council did not wish to hastily take up that work, especially when in ignorance of this fact, and the engineer and solicitor were ordered to make an investigation and render a report. A visit by them to Cleveland and an inspection of the blue prints of the C. & P. railroad, which company, it was alleged, owned a part of the wharf, revealed nothing. The record at Lisbon was also inspected with a similar result. Finally tiring of being foiled in their every attempt to discover exact location the engineer was instructed to make lines of the tract.

The proposition of Captain Martindill is practically as follows: He agrees to pave the entire wharf with brick and place it in a condition of which any city would be proud of if council will in return give him a 25-year franchise on the wharf and allow him to be wharfmaster throughout the given time.

It is estimated that the cost of paving the wharf will not be less than $5,000. Captain Martindill is very desirous that council will act favorably on the proposition and will commence the work immediately, if given the opportunity.

ENFORCEMENT OF LAW DEMANDED

Street Railway Operatives Appeal to Trades Council Regarding Better Car Vestibules.

The street car operatives have appealed to the Trades And Labor Council to have the state laws concerning vestibules on the cars enforced. All the cars are provided with vestibules, but very few afford complete protection from the elements, as the law contemplates. The operatives' union, No. 52, appointed a committee some time ago to take the matter up with the management of the road, but as yet there have been no results. The Trades and Labor Council took the matter under advisement at its meeting last night and will stand behind the car men in their demand.

The soliciting committee for the co-operative store reported that 418 of the 500 shares had been taken and the success of the enterprise seems assured. The committee will continue soliciting for some time yet.

The meeting was called to order by Secretary Reark, in the absence of President McConnell. U. G. King, of Typographical union, served as president pro tem.

TERM OF COURT A RECORD BREAKER

ABOUT 150 CRIMINAL AND 300 CIVIL CASES DECIDED.

Grim's Bridge Cutting Cases to Come Up Next Monday—Court Notes.

Lisbon, December 18.—(Special)—When court adjourned yesterday afternoon the jury was excused until next Monday at 1 o'clock.

The criminal cases of the state of Ohio against Albert McIntosh and George Mayes were set for hearing at that time. Both men are under indictment for participating in a cutting affray at Grim's bridge.

January 2 has been set for hearing all motions for new trials for the present term of court. Demurrers will also be heard on that day.

The present term of court has been a record breaker in the amount of business disposed of. About 150 civil and nearly 300 criminal cases have been passed upon.

Judge Hole will be in Youngstown next Saturday to hear a motion for a new trial in the case of Ohio vs. Raymond Scott, alias Cleveland Smith. Probably the judge will then hand down his decision in the Evans case which was tried before him there last Saturday.

BRICK AND TILE BUSINESS IN OHIO

Labor Commissioner Ratchford's Interesting Statistics on the Industry's Growth.

Columbus, December 18.—(Special.)—State Labor Commissioner M. D. Ratchford has adopted a plan which is an innovation, to secure the publication of his annual report. Realizing that it would be impossible for the papers to print his report in full were it issued in entirety at one time, he gives it out in sections at intervals of several days. Each section contains statistics on certain industries, summarizing the output, number employed, capital invested, wages paid, etc. Yesterday afternoon he issued a statistical exhibit showing the returns made to his department by brick and tile manufacturers.

Reports were received from 222 establishments employing 8,981 males, 363 females and 465 managers, officer helpers, etc. The capital invested amounts to $18,306,169 and the value of the manufactured product is $6,167,273.64. The value of goods sold was $8,762,722.33, and the value of materials used was $1,792,310.73. Value of manufactured goods on hand at end of year was $1,797,081.73, and of materials on hand $422,813.25. Amount paid in wages for labor $3,530,686.98; amount paid managers, office help, etc., $434,530.96. Number affected by advance in wages, 2,840. Average per cent advance in wages, .12. Only 29 establishments reported in 1900, making the increase for 1901 193.

GRANTED A DIVORCE ON CRUELTY CHARGE

Court Relieves Mrs. Susan M. Hopkins of Unpleasant Matrimonial Ties.

Lisbon, December 18.—(Special.)—Susan M. Hopkins has been granted a divorce from William E. Hopkins and her maiden name, Susan Ward, restored. The petition recited that they were married December 25, 1898, and alleged that her husband was a habitual drunkard. Extreme cruelty was also charged.

It is alleged that on October 4 last the husband struck the woman in the face and knocked her against the side of the porch, her face being badly bruised and her arms and side made black and blue. The husband also threatened more violence and she left him and has not lived with him since. With her divorce $300 alimony was allowed, the husband being the owner of considerable property.

Missionary Society.

The Women's Missionary society of the First Presbyterian church yesterday afternoon held a meeting of unusual interest at the church. A program had been arranged which added still more to the pleasure of the meeting. Mrs. Mills Bennett read an excellent paper on "The Mountaineers," while Mrs. Gipner and Mrs. Wyllie took for their theme "Syria" and wrote elaborately on the subject.

To Reformatory And Asylum.

Lisbon, December 18.—(Special)—Sheriff Leonard took Ernest Phillips, of Salem, to the Mansfield reformatory today and Deputy Davidson accompanied him as far as Massillon having in charge Joseph Bratt and Frank Halderman, who had been committed to the asylum.

THE ECK CASE HAS BEEN DECIDED

VERDICT FOR THE PLAINTIFF IN AN INTERESTING SUIT.

The City of East Liverpool Can, However, Legalize Its Act By Passing a Resolution.

Lisbon, December 18.—(Special.)—In the case of Nicholas Eck versus the city of East Liverpool the jury returned a verdict for the plaintiff, giving him possession of the strip of land which had been irregularly appropriated by the city in widening Pennsylvania avenue. Eck was also allowed $100 damages.

The city council by passing a resolution can regularly appropriate the strip and present the return to Eck.

An almost exactly similar case is that of Lucinda A. Martin, of East Liverpool, which was to have been heard next. It was continued to the January term of court by the consent of the parties.

WRONG MEDICINE TAKEN BY CHILD

LITTLE GIRL MISTOOK LAUDANUM FOR CASTORIA.

Got a Big Dose, But Prompt Attention of a Physician Saved Her Life.

There was considerable excitement last evening at the home of Mr. and Mrs. T. Brooks, of Sixth street, where the 2-year-old daughter of Mrs. Roberts took a dose of laudanum in mistake for castoria.

Dr. Ikirt was summoned and relieved the child from apparent death, as the little girl had taken a large quantity of the poison before her mother discovered the mistake and its danger. The child is much improved today and Dr. Ikirt states that she will recover.

Pleasantly Entertained.

At her home on Pleasant street, Mrs. John Graham charmingly entertained a number of friends Tuesday evening. Music, games and refreshments were the features. Among those present were William Nimmond, Wheeling, and Miss Ellen Hardy, of Lisbon.

WITH THE WORKMEN IN THE CLAY PLANTS

WHEELING CONDITIONS.

The Warwick China company, at Wheeling, is shipping the entire product of the plant as rapidly as possible. Dinner ware and toilet sets are moving quite up to the highest expectations, but the cream of the business is the call for the unique novelties which have formed such an important part of their business for a long time, and which fit the holiday season especially well. They have quite a list of new things to be announced later. The Wheeling Potteries company cover such a wide field that there is nothing in pottery they cannot meet. With each distinctive plant devoted to the lines for which it is intended they have the business so systematized that all proceed with the same regularity that characterized each one of them before the consolidation. The product of all finds ready sale, and altogether the new company is in most excellent condition, with greater prospects ahead than ever before.

THE NEW SHAPES.

The new dinner and toilet sets to be placed on the market for the spring trade by the Cartwright Brothers' pottery will be ready for the sample rooms before the plant shuts down for the holiday vacation. Everything is through to the kiln with the exception of the nappies, which were finished in the clay part yesterday. The new shapes are very pleasing and the decorations will be highly artistic, in fact, the new sets should prove excellent trade winners. The clay parts quit today until the first Monday after the new year. All the other departments will follow as they catch up with the work. It will take the glost kiln crew until about next Wednesday to finish. During the layoff the necessary repairs about the plant will be made. A new saucer jigger is to be installed to replace one worn out and a new floor will be laid in the jigger shop.

SALESMEN'S BANQUET.

Recollections of the good times had at previous banquets given by the Salesmen's association will surely be enough to induce a large attendance at the next one, which will occur on December 30, at Moqoin's, New York. Tickets may be had of Henry Endemann, "Judge" Henry Seedorf, John Nixon, Leon Sultan or D. C. Tracy. Ballots for the annual election have been sent out and must be returned so as to reach the secretary not later than 10 a. m., Monday, December 22. It will be much better if the votes are mailed so that they will arrive two or three days earlier. Put a cross against the names desired for election. There are only five directors to be elected, but there are ten names to select from. Last year there were many defective ballots because the directions were not followed.

IN HONOR OF DICKENS.

The S. A. Weller pottery, at Zanesville, has produced something entirely new in art pottery. The new line is made in vases, steins, pitchers and novelties of all shapes. In color it is something on the stoneware order but of very fine texture in grays and light blues. The decorations are on the poster order, etched outline filled in with bright colors. The subjects are etched and then painted, and each piece shows the work of an artist. Some of the subjects are taken from the French and others are of the poster order which are so popular at the present time. The new line is styled Dickens ware, the name being suggested by the fact that Samuel Weller is the name given by Dickens to one of the characters in his Pickwick papers.

SEBRING INCORPORATION.

The French China company, of Sebring, capital $100,000, in $100 shares, has taken out a certificate of incorporation at Columbus. The incorporators are O. H. Sebring, E. H. Sebring, B. N. Sebring, M. Sebring and E. F. Sebring.

AMONG THE POTTERS.

James Wines, of the biscuit end at Cartwright's, is reported among the sick.

John Torr, groundlayer at the Dresden, is spending a few days in Pittsburg.

George Rigby, foreman of the Cartwright, has been indisposed for the past few days with an attack of the grip.

Miss Maude Wells, a finisher at Cartwright's, has been on the sick list for the past week.

Fred Fenton, a mould runner at Cartwright's, is confined to his home in the West End by sickness.

William Hollingshead, of the glost end at Cartwright's, is seriously ill at his home on Basil avenue.

John Hughes, of the biscuit end at Cartwright's, is the proud father of a fine baby boy that arrived at his home Tuesday.

Messrs. Milton Bell and Calvin Swift, of the glost end at Cartwright's, will take their families to Parkersburg for the holiday vacation.

Miss Annie Wilson, of the decorating department at the Dresden, will leave in a few days for New Brighton, Pa., where she will spend the holiday vacation with her uncle, Rev. Albert Wilson.

ONLY TWO SICK.

The Sick & Death Benefit association, composed of the operatives of the K. T. & K. pottery, has declared a dividend amounting to $2.38 for each of the 23 members. This amount had accumulated in the hands of Treasurer James Pinkerton from the dues paid in by the members and was in excess of benefits paid out. Only two members of the society were sick during the period and the amount paid to them was $5 each. Elmer Gaston is president of the society.

THE NEW YORK STOCK MARKET.

Sub-Treasury Drain Greatly Relaxed. Bonds Irregular in Sympathy With Stocks.

New York, Dec. 18.—The movement of the prices in yesterday's stock market was an almost repetition of that of Tuesday. There was the same broadening show of strength up to the last hour, when a selling movement developed which wiped out practically all of the earlier gains and carried some prices below Tuesday night. The reaction yesterday was rather more gradual and not quite so severe as Tuesday and was followed by a steadier tone just before the close.

The purchase of the United States Steel corporation of the Union Steel company was received at first with mixed emotions, owing to the prospect of a large bond issue against the purchase, but the steel shares subsequently became prominent factors in the advance.

The money market continued to show the sentimental effect of the formation of the bankers' $2,000,000 protective pool. The sub-treasury drain upon the market is greatly relaxed, owing to heavy pension payments and to the practical cessation of deposits for transfer to the interior. The banks gained from the sub-treasury on Tuesday's operations $324,000, reducing their loss since Friday to $265,000. Yesterday's small transfer of $50,000 to New Orleans was the first made through the sub-treasury for the last eight business days. It is also reported that heavy receipts have been made by the banks during the last few days on the regular express movement from the interior. Sterling exchange receded further yesterday in spite of considerable sales of stock here for London account and disappointing seaboard grain clearances.

Bonds were irregular in sympathy with stocks. Total sales, par value, $2,070,000.

United States bonds were all unchanged on the last call.

Vessels in Danger.

Detroit, Dec. 18.—The steamer S. K. Martin, of Marine City, and her tow, the schooners Charles Spademan, of Marine City, and Belle Hanscomb, of Detroit, were last night reported in a dangerous position about eight miles below the mouth of the Detroit river, in Lake Erie. About seven miles east of the town and about two miles off Conchester, Ont., a three-masted schooner is reported flying signals of distress. A strong wind is piling ice up on the vessels, and there is danger of the ice cutting the hulls below the water line. The tugs Home Rule and Columbia, of Amherstburg, have gone to the relief of the distressed vessels.

Another Steel Plant Taken In.

Albany, N. Y., Dec. 18.—Laborers who have been working to put in readiness for resumption, the great Breaker Island steel plant, formerly the property of the Troy Steel company, have been notified that their services are no longer needed. It was announced last night that the pant has been purchased by the United States Steel corporation for $1,500,000, and that in all probability the works will not be operated.

MINES: VICTOR and WILBUR, CRIPPLE CREEK DIRTRICT, COLORADO; CEDAR FORT, UTAH.

The Massasoit is located in the Mercur-Bingham district, Utah, and has several hundred feet of work done on it. It contains 340 acres.

The Mary Hunter is situated in the same district, contains 200 acres and has several shafts and a tunnel on it.

The Gladiator adjoins the Dameral and has 40 acres.

The company thus possesses the great advantage of not being dependent upon the result of one mine, but it has 10 upon which to rely for results, and any one of seven of its properties would justify the capitalization for the whole at the present selling price of the stock.

All of the company's properties are well developed and have had from one to three years' work done on each, bringing some to production and the others near it.

The company, therefore, has the advantage of large acreage, a number of mines in important districts, with 5,000 feet of development work done, and two to three years' time expended, and properties at the point of production. It has grown from a third of an acre to over 700 acres in two years.

This company is conservatively capitalized and managed by competent and experienced men in the interest of the stockholders on the most careful business principles. Over $150,000 has been raised and spent on the properties, and, including the work on the Mary Cashen, Coriolanus, Mary Alice and the Dillon, fully $250,000 of work and plant are represented in the properties, without counting the value of the properties themselves.

It is believed that no safer and better mining stock was ever offered to the public. Only a small amount of stock remains to be sold at 75 cents a share, par value $1.00, fully paid and non-assessable.

Order at once to secure the stock at this price, as this offer is open only now and remit by check, registered letter, draft or money order, and apply for any further information desired to

G. A. WILKINSON,
Fiscal Agent,
Thompson House, East Liverpool, Ohio.

The Par Value Company has been established and in continuous operation over two years, and owns or operates TEN mines, comprising over 700 acres, located in the best districts in America, and adjoining or near the most profitable mines in the world. Eight are located in the Cripple Creek district, Colorado, and in the Mercur-Bingham districts, Utah.

The properties comprise the Mary Cashen, Coriolanus, Mary Alice, the Dillon, Par Value, Stonehouse, Dameral, Gladiator, Mary Hunter, and Massasoit. The entire ten are equipped with the necessary plants of machinery and half of them are developed to the point of production, while three are now producing good ore.

The Mary Cashen mine adjoins the Gold Coin mine, which has produced $7,500,000 and pays $360,000 annual dividends and is also near Stratton's Independence, which has produced $10,000,000 and pays dividends of $1,920,000 annually. It is also close to the Strong and Portland, two other leading mines of the Cripple Creek district.

The Mary Cashen mine is opened by a shaft sunk to the depth of 350 feet and is equipped with a first class plant of machinery. It is now producing pay ore.

The Coriolanus adjoins the Ajax, one of the great mines of the district; is well equipped, has a shaft 550 feet deep and is now producing pay ore.

The Mary Alice adjoins the Portland and Independence and lies directly between the two, has a shaft 510 feet deep at numerous drifts and crosscuts. It is expected to reach the ore in this mine any day.

The Stonehouse adjoins the Par Value and is open by shaft and winz to a depth of 150 feet. It shows ore assaying as high as $1,100 per ton.

The Dillon adjoins the Gold Coin on the west and the Strong on the east, and is considered the best located mine in the Cripple Creek district. It has a shaft 800 feet deep and over 2,000 feet of drifts. It is completely equipped and is producing ore.

The Par Value has a shaft 280 feet deep and 250 feet of drifts. It is situated like the core of an apple, between the Portland, Ajax, Gold Coin, Granite, Stratton's, Independence, Mary Cashen, Dillon and Strong Mines, and is expected to produce good results by development.

The Dameral is situated four miles south of Victor, contains 80 acres and gives promise of becoming one of the most valuable properties in the Cripple Creek district. It has a shaft 110 feet deep, which is now being sunk, and a tunnel 75 feet long.

EAST END

OFFICERS CHOSEN

For the Second Presbyterian Church Sunday School at a Meeting Last Evening.

The regular election of the officers of the Sunday school of the Second Presbyterian church of the East End was held last night after prayer meeting. The election resulted as follows:

Superintendent—J. S. Noah.

Assistant Superintendent—Ira Chamberlain.

Treasurer—Edward Sprague.

Secretary—Wilbur McCain.

Assistant Secretary — Miss Kate Stamm.

Librarian—Miss Sadie McKinnon.

Assistant Librarian—Harley Howard.

Organist—Miss Lida Farrar.

Assistant Organist—Miss Alice Alabaugh.

U. P. Session Meeting.

The session of the Second U. P. church expects to hold open house in the afternoon on New Year's day. This is an innovation in church circles in this city and will be a very pleasant affair. The parlors of the church will be open from 2:30 till 5 p. m. and all members of the church and friends of the congregation will be made welcome. The session is composed of the following persons and they expect to devote all their energies to making the afternoon pleasant for all who attend: Rev. D. W. McQuiston, Charles Hanley, W. H. Kinney, D. F. White, J. H. Smith, James B. Elliott, W. A. Andrews and Elmer Ralston.

To Debate Woman Suffrage.

The last meeting of the present year of the Protected Home Circle will be held Tuesday evening, December 30 It is expected at this meeting to initiate all candidates who have for any reason been detained from entering the lodge before. At the close of the business meeting six members will debate the question: "Resolved, That Women Should Have the Right to Vote." This is an old question, but one that is always full of interest and will bring out a large per cent of the membership.

McElwain-Sheckler.

Louis Sheckler, of the East End, was married last night in this city to Miss Edna McElwain, of Wellsville. The ceremony was performed at the Lutheran parsonage by Rev. J. G. Reinartz. The young people will make their home in the East End.

Sermon to Young Men.

Rev. D. W. McQuiston, of the Second U. P. church, has announced that he will preach a special sermon Sunday evening to young men. The theme for the evening will be "The Glory of the Young Man." The impression has got-

ten out with some that none but young men would be expected to attend, but such is not the case, as everybody will be made welcome, although the sermon is particularly adapted to young men.

EAST END AFFAIRS.

H. H. Meanor is suffering with an attack of the grip.

Mrs. Pearl Martin, of Pennsylvania avenue, is seriously ill.

John Finley, of Georgetown, is confined to the house on accountof sickness.

Mrs. Harry Cooper went to Lisbon this morning to spend a few days visiting relatives.

Thomas Ramsey, Sr., of Pennsylvania avenue, is confined to the house with an attack of grip.

Mrs. Charles Hanley, of Pennsylvania avenue, who recently fell and broke a bone in her shoulder, is now able to be out.

Mr. and Mrs. John Logan and Mr. and Mrs. Claude McCoy, of Hooksown, moved to this city yesterday and are now living on St. George street.

Larkins & Ferguson have purchased a fine horse from George Smith, and expect to make a good showing with it in the winter matinee races in this vicinity.

Last night another meeting of the Orientals was held in the P. H. C. hall. Four new members were initiated, which swells the total membership to about 150.

The twin babies of Mr. and Mrs. D. F. White, of St. George street, who have been sick for several weeks, were considerably worse yesterday, but are slightly improved today.

Mrs. Frank White, who makes her home with her daughter, Mrs. William Price, in the East End, is confined to her bed on account of serious illness. Owing to her advanced age serious results are feared.

IT WILL COME BACK

Some East Liverpool Residents Have Learned How to Keep it Away.

Your back may not ache very long.
But the ache will return shortly.
Comes oftener—stays longer.
Unless the kidneys are relieved.
Doan's kidney pills cure all kidney ills.

East Liverpool people endorse them.

Mr. Robert M. Newell, carpenter, of West Fifth street, says: "If everyone receives the same results as I from the course of treatment prescribed by Doan's Kidney Pills, my advice is, go to Larkins' drug store, procure a box, take them according to directions and the results will inevitably follow. One box effected a cure in my case, the particulars of which I will only be too pleased to give to anyone personally calling upon me."

Sold for 50 cents per box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name Doan's, and take no other.

Exodus of Negroes.

South Bend, Ind., Dec. 18.—Four shootings and one murder, in which negroes took part, have been followed not only by closing clubs and saloons conducted by negroes, but many colored people are leaving the city. They are afraid to stay here, owing to a feeling against them among the white people. The negroes say they cannot get food and service at the resturants, although they have the money to pay for it. A committee has raised more than $500 among business men as a reward for the capture of three negroes who murdered John M. Koonsman. No further clews to the negroes have been found.

Convention of Assessors.

Harrisburg, Dec. 18.—A convention of assessors of the Pennsylvania cities of the third class was held in Harrisburg yesterday for the purpose of exchanging views on matters of assessments, with a view to the possible introduction of a uniform system. A. B. Tack, of this city, was elected chairman, and H. A. Shireman, of Reading, secretary. A convention of the mayors and solicitors of third class cities will be held today for the discussion of legislation for the benefit of cities which they represent.

A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children, for it contains no harmful substance. It is pleasant to take—both adults and children like it. Buy it and you will get the best. It always cures. For sale by Alvin H. Bulger, druggist.

Mrs. Austin's Buckwheat is the real thing, gives you the real genuine old buckwheat flavor. Be sure and get the genuine. 20

GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than seventy-five per cent. of the people in the United States, are afflicted with these two diseases and their effects: such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-Burn, Waterbrash, Gnawing and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming up of Food after Eating, Low Spirits, etc. Go to your Druggist and get a bottle of August Flower for 25 or 75 cents. Two doses will relieve you. Try it. At Charles F. Craig's.

Not a Compliment.

"Old war horse" has long been a complimentary and affectionate sobriquet bestowed on veteran political workers by their party confreres and admirers. A Washington correspondent once endeavored to compliment Susan B. Anthony, Elizabeth Cady Stanton and other women suffragists by referring to them as "old war mares." He protested that he had heard them say there could be no opprobrium in sex, but the old ladies kicked like young fillies, and the correspondent lost his job.

Exchange of Courtesies.

One of the keenest of journalists and wits, Moritz Gottlieb Saphir, had the better of the irate stranger against whom he ran by accident at the corner of a street in Munich. "Beast!" cried the offended person without waiting for an apology. "Thank you," said the journalist, "and mine is Saphir."

The Originator.

"I wonder who made the first after dinner speech?" asked the philosopher.

"Adam," replied the wise guy promptly. "As soon as he got through with the core of that apple he said, 'The woman tempted me,' didn't he?"—Cincinnati Commercial Tribune.

"You ought not to beg," she said.

"No, ma'am," admitted the tramp.

"Why do you do it?"

"Well, ma'am, I wouldn't if I could git people to give me money by jest lookin' sad."—Chicago Post.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous services.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

THURSDAY, DECEMBER 18, 1902.

It is perhaps not generally known that under the Ohio statutes robbery or attempted robbery may be punished by life imprisonment. The amendment allowing this penalty to be imposed was passed by the legislature last winter. The object was to put a stop to the numerous outrages which have disgraced the state, wherein aged people have been beaten and tortured in the effort to make them give up their money. In most instances the victims have been farmers and their families. A short sime ago in Lorain county a band of robbers attacked a farm house in which resided three old men. The robbers met with stout resistance and one of them was shot dead. The others escaped, but were afterwards arrested, and their trials have just been completed at Elyria. One of the robbers found guilty was not extended any clemency by the jury, and the judge sentenced him to the penitentiary for life. The other pleaded guilty to attempted robbery; so for him the jury asked clemency, and he drew a sentence for 50 years. The sentences of life imprisonment is the first inflicted under the lew law. Here is a case in which the punishment fits the crime. Lorain county justice is the right sort, and if Ohio had more of it the robbery business would soon become too precarious and unprofitable to engage the attention of any considerable number of people.

The house of representatives has interpreted aright the feeling on the part of the public that the trust question is one which congress must meet and decide and in committee of the whole has appropriated half a million dollars, to be immediately available, to enable the department of justice to carry on a vigorous crusade for the enforcement of the trust laws now on the statute books. More legislation is needed, and the indications are that it will be forthcoming. The regulation of trusts ought not to be a party question, but since the Democracy has determined to make it one and throw the whole responsibility of making new laws regarding it upon the Republicans, the latter will meet the responsibility manfully, redeem party pledges and act conservatively for the good of the whole people.

Democrats are usually very hopeful. They extract encouragement from the smallest things. Just at present, however, they are wildly looking about for some favorable omen. Even the New York World and other prominent eastern journals talk exceedingly gloomily about the prospects of national victory in 1904. It sees not a ray of hope unless the Republicans commit some irreparable blunder between now and 1904, and that is not looked for. It appears that the Democratic journals foresee a more crushing defeat for their party in 1904 than overtook it in 1900 and are beginning thus early to prepare the minds of their readers for it. The effort is commendable, though unusual.

It is pleasant to have the repeated assurances of Gen. Asa W. Jones that the trolley line is coming. We have always found that Gen. Jones knows what he is talking about, and we would rather have his word about street railway building or anything else than that of a hundred unknown promoters. But of course the knockers will do all they can against his enterprise. It is their way. Gen. Jones, however, rather enjoys a fight, and as he will have plenty of help in this one, it is not difficult to foretell on whose banners victory will perch. It is all right to be watchful of the city's interests, but it is insane folly to throw obstacles in the way of a man like Gen. Jones, who is making an honest effort to give East Liverpool what it has long desired, a trolley line to Lisbon.

It begins to look as if there were to be an interesting and spirited contest for the Republican nomination for governor of Ohio next year. Every section of the state apparently has a favorite son, and new districts are continually being heard from.

The people of Ohio want to see the new code given a fair trial and voters should aid in this by a careful selection of candidates and the weeding out of all persons who would bring reproach on any statute.

The friends of Mr. Rockefeller will doubtless be rejoiced to learn that that gentleman's modest income has been added to by his winning, in the Ohio supreme court, a case involving $8,000,000.

Venezuela is now in favor of arbitration. She would have saved money and avoided trouble by espousing that policy earlier.

franchises for an electric road along the public highway is a fake concern. The utmost time for which franchises for such roads can be granted is 25 years, and they become no good thereafter. There has even been a proposition in a bill before the legislature to limit the speed of cars operated on such roads to five miles an hour. No financiers in the country will now put their money into any scheme which proposes occupying a public road with a street railway.

"As for building a street railroad from Youngstown to Canfield, there is nobody who would more gladly welcome such a project than myself. I have a farm near that town, and would not only give right of way through it, but would give a thousand dollars to any company that would guarantee the building of a road there.

"Our East Liverpool journalist critic raises objection, saying he wants a guarantee that "each and every company franchise granted is for an independent company, and not for heirs or assigns.' If the fellow knew what he was talking about he would know that corporations have no heirs. A railroad company is composed of stockholders. They may and do frequently sell their stock. They may sell it a hundred times, but that does not affect the railroad company which remains in existence as before. We, however, are not contemplating selling the stock we shall hold, because we believe it will be a good thing. The money is in sight with which to build the road and it is ample for the purpose.

"Some criticism has been raised because we have not stated what cars we intend to use upon the road. Improvements in railway equipment are constantly being made. We propose having the best. It will be entirely new and first-class in all respects. The roadbed will also be solid and substantial with the fewest grades possible.

"Further, as to the suggestion that the franchise should limit us to electricity only. The critic should revise the statutes of Ohio. Every railroad chartered in the state states that either electricity or steam or power other than animal shall be used. If this is 'misleading' then every railroad charter in Ohio is in the same category."

Lisbon, December 18.—(Special.)—General Asa W. Jones, John H. Ruhlin and J. R. Long, all of Youngstown, who have been doing field work for the Youngstown & Southern railway, accompanied by Frank Foutts, an engineer of Boston, Mass., were in town yesterday afternoon on their way to East Liverpool, going over the route of the proposed railway. General Jones says the railroad projectors are in dead earnest. The officials of the road are well known men, which counts much in their favor, and they received much encouragement from the citizens hereabout.

bers of the association will be established by the executive committee, and must be adhered to. No member will be allowed to give or allow any extra or additional discount, rebate or gratuity to any customer, or to offer any inducement in money or in connection with the sale of other goods. A quotation by either the principal or a representative of the firm in violation of terms or prices will be considered equivalent to an actual sale in violation. To prevent secret violations the association, in the person of its secretary or treasurer, may enter upon the premises of members at all times for the necessary inspection of the business and books and enforce the agreement. A regular scale of premiums upon sales is established.

It is proposed to market all semi-porcelain, white granite and C. C. wares made by members of the association at certain fixed base prices to all classes of trade alike. The following are the base discounts from the standard list:

Semi-porcelain—Run of kiln, 55 per cent; thirds, 66 2-3.

White granite—Run of kiln, 55 per cent.; thirds, 66 2-3.

Cream colored—Run of kiln, 44 per cent.; thirds, 60 and 5.

The premiums will range from 2 to 16 per cent. on purchases from $500 to $22,000. For each additional $1,000 up to and including $32,000 1-10 of 1 per cent. is to be added to the premium rate and for each additional $1,000 over and above $32,000 ½ of 1 per cent. is to be added up to and including $52,000.

The Candid Pepys.

No man has ever yet succeeded in painting an honest portrait of himself in an autobiography however sedulously he may have set to work about it. In spite of his candid purpose he omits necessary touches and adds superfluous ones. At times he cannot help draping his thought, and the least shred of drapery disguises it. It is only the diarist who accomplishes the feat of self portraiture, and he, without any such end in view, does it unconsciously. A man cannot keep a daily record of his comings and goings and the little items that make up the sum of his life and not inadvertently give himself away at every turn. He lays bare his heart with a candor not possible to the self consciousness that inevitably colors premeditated revelation. Unknowingly he wears his heart upon his pen for daws to peck at. While Mr. Samuel Pepys was filling those small octavo pages with his perplexing cipher he never once imagined that he was adding a photographic portrait of himself to the world's gallery of immortals. We are more intimately acquainted with Mr. Samuel Pepys, the inner man—his little meannesses and his generosities—than we are with half the persons we call our dear friends.—T. B. Aldrich in Atlantic.

Punctuation.

In the earliest Latin inscriptions and manuscripts no system of punctuation is followed. The full point (.) was gradually introduced, being placed on the level, middle or top of the letters. In the minuscule manuscripts of the eighth, ninth and following centuries the period, on the line or high, was first used; then the comma and semicolon and the inverted semicolon, whose power was rather stronger than that of the comma. Some say that the Caroline minuscules of the ninth century exhibit the note of interrogation, for which the inverted semicolon, which was gradually dropped, may have furnished the mark. The Greeks use the semicolon as an interrogation point. In English the colon is said to have been introduced about 1485, the comma about 1501 and the semicolon about 1570. In Sir Philip Sidney's "Arcadia" (1587) all the punctuation points appear, including the note of interrogation, asterisk and parentheses.

Incorrigible.

It was decided that Mr. Wright must administer a stern lecture to his four-year-old daughter Florence. The little girl had been naughty, but she did not seem to appreciate the fact, and Mr. Wright reluctantly undertook a "scolding."

He hated to make the tender little heart ache and to see the dear child cry, but he forced himself to speak judiciously and severely. He recounted her misdeeds and explained the why and wherefore of his stern rebuke. Mrs. Wright sat by, looking duly impressed.

Finally Mr. Wright paused for breath and also to hear the small culprit acknowledge her error. The scolding was never continued. Florence turned a face beaming with admiration to her mother and said innocently:

"Isn't papa interesting?"

Wellsville Sends Solicitor to Secure Obedience to Franchise.

THE SWITCH ORDINANCE UP

Amended And Passed Second Reading. Contractor Rinehart Attacked, But He Says the Matters Complained of Are Not His Fault—Other Matters.

Only six members of council were present at the special meeting held last evening for the purpose of placing the new switch ordinance upon its second reading. Councilmen Weaver, Smith, McLain and Bissett were the absent ones.

An amendment was made fixing a time that the railroad company should do their filling in at street crossings. The railroad company will not have to do filling in at the same time as the city. The ordinance was placed on its second reading.

After this matter was disposed of, Mayor Fogo requested council to send a representative, for the city, to Lisbon either Saturday or Monday to meet with the county commissioners relative to the street railway situation in this city. Council ordered City Solicitor Boyd to go to Lisbon and register a big protest against the street railway company in its recent and past treatment of the city. Council seems determined to bring the company to time. A 12-minute schedule it is determined to have.

Mayor Fogo made a complete explanation to council of the conditions of the roadway on Spring Hill avenue, which has partially been paved by Contractor Rinehart. For the past two days this road has been in a very bad condition. There are large piles of sand and gravel in the middle of the street and small springs are bubbling out from the center of the street and flowing down the hill.

A motion was finally passed that the matter be placed in the hands of the improvement committee with power to act. The mayor suggested that they act at once, as there is a funeral both today and tomorrow.

Mr. Rinehart appeared at the meeting and matters were explained to him. He stated that he had simply worked as hard as he could to finish Spring Hill avenue before the cold weather set in, and that he had found it an impossible task. He said he was not responsible for the present condition of the street.

Mayor Fogo brought up another matter against Mr. Rinehart. He stated that Rinehart had cut several feet of a good lead water pipe off the property of Mrs. Ralph Nattress on Spring Hill avenue, thereby cutting the house off of all water supply. Mrs. Nattress has a very sick husband, making it very hard for her to get along, especially without water. She has paid heavy taxes in this city in the past 30 years. The mayor said James Rinehart, a brother of the contractor, had sent plumbers to Mrs. Nattress' place to fix up the water pipe, putting in a piece of galvanized iron pipe. Mrs. Nattress demanded the same kind of pipe which the contractor had torn away. Council thought Mrs. Nattress right in this. Mr. Rinehart stated that he know nothing of Mrs. Nattress' complaint, but would investigate.

Councilman Brennan made a motion to adjourn, which was seconded and passed so quickly that several of the councilmen did not know what they had voted upon. They were called back by Councilman Henderson, however, who thought that they ought to finish the business of the evening and not go away leaving things half done.

Financial matters were then talked over for a short time, several committees reporting that the reason certain things had not been done was that there was no money in their respective funds with which to pay for the work. Solicitor Boyd stated that money would be paid into several funds before the first of the year.

Council adjourned to meet again this evening for the purpose of passing the switch ordinance on its third and final reading.

Grounds For Divorce.

A Salem (Mass.) man who sought a divorce proved, according to a Boston paper, that his wife tore the sign from his store, put into his tea something that made him vomit, threw his clothes downstairs, filled his shoes with cold water, put swill in his overcoat pocket, threw water over him as he went downstairs, put pepper in his bed, made him sleep in an attic, wouldn't do his washing, wouldn't mend his clothes, made him darn his socks and sew buttons on his shirts, spat on his toast, when he was getting his breakfast, rocked in a squeaky chair for hours at a time to annoy him, put grease on his Sunday clothes, wouldn't let him have a fire on the coldest evenings so that he often had to go to bed at 7 p. m. to keep warm, and finally "she rubbed a butcher knife over his neck and threatened to blow out his brains."

The Worm Turned.

He loved her devotedly. He was also bowlegged. Both facts gave him pain at times.

He passed it by with a rueful smile when she merrily said that his affliction gave him such an arch look and that, after all, he was a pretty good sort when you got on to his curves. He bore it patiently when she referred to his walk as parenthetical progress. But he rebelled and broke the engagement when she called her pet dog through the wicket formed by his legs.

"I may not be so over ornamental," said he, "but I emphatically object to being made useful so unseasonably early in the game!"—Smart Set.

A Quick Witted Waiter.

During mosquito season a party of diners seated themselves at table in an outdoor restaurant, and a man of the party took the bill of fare and began to study it. A mosquito lighted upon it and instantly lost its life by a quick blow from the man, its little carcass remaining on the bill. Pointing to it, the man said to the waiter:

"Do you serve those on toast?" And the waiter promptly replied:

"They're on the bill, sir!"—New York Times.

The Origin of Johnnycake.

No doubt many others besides the writer may have wondered how johnnycake came to be thus named. When a child, I settled it for myself by imagining John Smith, whom Pocahontas saved, had something to do with it. The cake, being made of Indian meal, became thus associated in my mind with the historical name. A writer in the Housekeeper says:

In tracing the term we find ourselves at a time antedating by many years steam cars and hotels on wheels, in an age when mankind depended entirely upon his four footed companions for transportation and had only saddlebags in which to carry his luggage. Taverns were few and far apart, and a lunch was always acceptable. Cornmeal, forming so large a part of the dietary in those days, held a chief place in making up the lunch. Wet with water and a little salt added, it was baked in a shape that stored away in the saddlebags nicely and was called journey cake. This is the origin of our modern, unconventional johnnycake.

ALLIED PRINTING TRADES UNION LABEL COUNCIL E. LIVERPOOL, O.

THURSDAY, DECEMBER 18, 1902.

It is perhaps not generally known that under the Ohio statutes robbery or attempted robbery may be punished by life imprisonment. The amendment allowing this penalty to be imposed was passed by the legislature last winter. The object was to put a stop to the numerous outrages which have disgraced the state, wherein aged people have been beaten and tortured in the effort to make them give up their money. In most instances the victims have been farmers and their families. A short sime ago in Lorain county a band of robbers attacked a farm house in which resided three old men. The robbers met with stout resistance and one of them was shot dead. The others escaped, but were afterwards arrested, and their trials have just been completed at Elyria. One of the robbers found guilty was not extended any clemency by the jury, and the judge sentenced him to the penitentiary for life. The other pleaded guilty to attempted robbery; so for him the jury asked clemency, and he drew a sentence for 50 years. The sentences of life imprisonment is the first inflicted under the lew law. Here is a case in which the punishment fits the crime. Lorain county justice is the right sort, and if Ohio had more of it the robbery business would soon become too precarious and unprofitable to engage the attention of any considerable number of people.

The house of representatives has interpreted aright the feeling on the part of the public that the trust question is one which congress must meet and decide and in committee of the whole has appropriated half a million dollars, to be immediately available, to enable the department of justice to carry on a vigorous crusade for the enforcement of the trust laws now on the statute books. More legislation is needed, and the indications are that it will be forthcoming. The regulation of trusts ought not to be a party question, but since the Democracy has determined to make it one and throw the whole responsibility of making new laws regarding it upon the Republicans, the latter will meet the responsibility manfully, redeem party pledges and act conservatively for the good of the whole people.

Democrats are usually very hopeful. They extract encouragement from the smallest things. Just at present, however, they are wildly looking about for some favorable omen. Even the New York World and other prominent eastern journals talk exceedingly gloomily about the prospects of national victory in 1904. It sees not a ray of hope unless the Republicans commit some irreparable blunder between now and 1904, and that is not looked for. It appears that the Democratic journals foresee a more crushing defeat for their party in 1904 than overtook it in 1900 and are beginning thus early to prepare the minds of their readers for it. The effort is commendable, though unusual.

It is pleasant to have the repeated assurances of Gen. Asa W. Jones that the trolley line is coming. We have always found that Gen. Jones knows what he is talking about, and we would rather have his word about street railway building or anything else than that of a hundred unknown promoters. But of course the knockers will do all they can against his enterprise. It is their way. Gen. Jones, however, rather enjoys a fight, and as he will have plenty of help in this one, it is not difficult to foretell on whose banners victory will perch. It is all right to be watchful of the city's interests, but it is insane folly to throw obstacles in the way of a man like Gen. Jones, who is making an honest effort to give East Liverpool what it has long desired, a trolley line to Lisbon.

It begins to look as if there were to be an interesting and spirited contest for the Republican nomination for governor of Ohio next year. Every section of the state apparently has a favorite son, and new districts are continually being heard from.

The people of Ohio want to see the new code given a fair trial and voters should aid in this by a careful selection of candidates and the weeding out of all persons who would bring reproach on any statute.

The friends of Mr. Rockefeller will doubtless be rejoiced to learn that that gentleman's modest income has been added to by his winning, in the Ohio supreme court, a case involving $8,000,000.

Venezuela is now in favor of arbitration. She would have saved money and avoided trouble by espousing that policy earlier.

franchises for an electric road along the public highway is a fake concern. The utmost time for which franchises for such roads can be granted is 25 years, and they become no good thereafter. There has even been a proposition in a bill before the legislature to limit the speed of cars operated on such roads to five miles an hour. No financiers in the country will now put their money into any scheme which proposes occupying a public road with a street railway.

"As for building a street railroad from Youngstown to Canfield, there is nobody who would more gladly welcome such a project than myself. I have a farm near that town, and would not only give right of way through it, but would give a thousand dollars to any company that would guarantee the building of a road there.

"Our East Liverpool journalist critic raises objection, saying he wants a guarantee that "each and every company franchise granted is for an independent company, and not for heirs or assigns.' If the fellow knew what he was talking about he would know that corporations have no heirs. A railroad company is composed of stockholders. They may and do frequently sell their stock. They may sell it a hundred times, but that does not affect the railroad company which remains in existence as before. We, however, are not contemplating selling the stock we shall hold, because we believe it will be a good thing. The money is in sight with which to build the road and it is ample for the purpose.

"Some criticism has been raised because we have not stated what cars we intend to use upon the road. Improvements in railway equipment are constantly being made. We propose having the best. It will be entirely new and first-class in all respects. The roadbed will also be solid and substantial with the fewest grades possible.

"Further, as to the suggestion that the franchise should limit us to electricity only. The critic should revise the statutes of Ohio. Every railroad chartered in the state states that either electricity or steam or power other than animal shall be used. If this is 'misleading' then every railroad charter in Ohio is in the same category."

Lisbon, December 18.—(Special.)—General Asa W. Jones, John H. Ruhlin and J. R. Long, all of Youngstown, who have been doing field work for the Youngstown & Southern railway, accompanied by Frank Foutts, an engineer of Boston, Mass., were in town yesterday afternoon on their way to East Liverpool, going over the route of the proposed railway. General Jones says the railroad projectors are in dead earnest. The officials of the road are well known men, which counts much in their favor, and they received much encouragement from the citizens hereabout.

The Candid Pepys.

No man has ever yet succeeded in painting an honest portrait of himself in an autobiography however sedulously he may have set to work about it. In spite of his candid purpose he omits necessary touches and adds superfluous ones. At times he cannot help draping his thought, and the least shred of drapery disguises it. It is only the diarist who accomplishes the feat of self portraiture, and he, without any such end in view, does it unconsciously. A man cannot keep a daily record of his comings and goings and the little items that make up the sum of his life and not inadvertently give himself away at every turn. He lays bare his heart with a candor not possible to the self consciousness that inevitably colors premeditated revelation. Unknowingly he wears his heart upon his pen for daws to peck at. While Mr. Samuel Pepys was filling those small octavo pages with his perplexing cipher he never once imagined that he was adding a photographic portrait of himself to the world's gallery of immortals. We are more intimately acquainted with Mr. Samuel Pepys, the inner man—his little meannesses and his generosities—than we are with half the persons we call our dear friends.—T. B. Aldrich in Atlantic.

Punctuation.

In the earliest Latin inscriptions and manuscripts no system of punctuation is followed. The full point (.) was gradually introduced, being placed on the level, middle or top of the letters. In the minuscule manuscripts of the eighth, ninth and following centuries the period, on the line or high, was first used; then the comma and semicolon and the inverted semicolon, whose power was rather stronger than that of the comma. Some say that the Caroline minuscules of the ninth century exhibit the note of interrogation, for which the inverted semicolon, which was gradually dropped, may have furnished the mark. The Greeks use the semicolon as an interrogation point. In English the colon is said to have been introduced about 1485, the comma about 1501 and the semicolon about 1570. In Sir Philip Sidney's "Arcadia" (1587) all the punctuation points appear, including the note of interrogation, asterisk and parentheses.

Incorrigible.

It was decided that Mr. Wright must administer a stern lecture to his four-year-old daughter Florence. The little girl had been naughty, but she did not seem to appreciate the fact, and Mr. Wright reluctantly undertook a "scolding."

He hated to make the tender little heart ache and to see the dear child cry, but he forced himself to speak judiciously and severely. He recounted her misdeeds and explained the why and wherefore of his stern rebuke. Mrs. Wright sat by, looking duly impressed.

Finally Mr. Wright paused for breath and also to hear the small culprit acknowledge her error. The scolding was never continued. Florence turned a face beaming with admiration to her mother and said innocently:

"Isn't papa interesting?"

Wellsville Sends Solicitor to Secure Obedience to Franchise.

THE SWITCH ORDINANCE UP

Amended And Passed Second Reading. Contractor Rinehart Attacked, But He Says the Matters Complained of Are Not His Fault—Other Matters.

Only six members of council were present at the special meeting held last evening for the purpose of placing the new switch ordinance upon its second reading. Councilmen Weaver, Smith, McLain and Bissett were the absent ones.

An amendment was made fixing a time that the railroad company should do their filling in at street crossings. The railroad company will not have to do filling in at the same time as the city. The ordinance was placed on its second reading.

After this matter was disposed of, Mayor Fogo requested council to send a representative, for the city, to Lisbon either Saturday or Monday to meet with the county commissioners relative to the street railway situation in this city. Council ordered City Solicitor Boyd to go to Lisbon and register a big protest against the street railway company in its recent and past treatment of the city. Council seems determined to bring the company to time. A 12-minute schedule it is determined to have.

Mayor Fogo made a complete explanation to council of the conditions of the roadway on Spring Hill avenue, which has partially been paved by Contractor Rinehart. For the past two days this road has been in a very bad condition. There are large piles of sand and gravel in the middle of the street and small springs are bubbling out from the center of the street and flowing down the hill.

A motion was finally passed that the matter be placed in the hands of the improvement committee with power to act. The mayor suggested that they act at once, as there is a funeral both today and tomorrow.

Mr. Rinehart appeared at the meeting and matters were explained to him. He stated that he had simply worked as hard as he could to finish Spring Hill avenue before the cold weather set in, and that he had found it an impossible task. He said he was not responsible for the present condition of the street.

Mayor Fogo brought up another matter against Mr. Rinehart. He stated that Rinehart had cut several feet of a good lead water pipe off the property of Mrs. Ralph Nattress on Spring Hill avenue, thereby cutting the house off of all water supply. Mrs. Nattress has a very sick husband, making it very hard for her to get along, especially without water. She has paid heavy taxes in this city in the past 30 years. The mayor said James Rinehart, a brother of the contractor, had sent plumbers to Mrs. Nattress' place to fix up the water pipe, putting in a piece of galvanized iron pipe. Mrs. Nattress demanded the same kind of pipe which the contractor had torn away. Council thought Mrs. Nattress right in this. Mr. Rinehart stated that he knew nothing of Mrs. Nattress' complaint, but would investigate.

Councilman Brennan made a motion to adjourn, which was seconded and passed so quickly that several of the councilmen did not know what they had voted upon. They were called back by Councilman Henderson, however, who thought that they ought to finish the business of the evening and not go away leaving things half done.

Financial matters were then talked over for a short time, several committees reporting that the reason certain things had not been done was that there was no money in their respective funds with which to pay for the work. Solicitor Boyd stated that money would be paid into several funds before the first of the year.

Council adjourned to meet again this evening for the purpose of passing the switch ordinance on its third and final reading.

Grounds For Divorce.

A Salem (Mass.) man who sought a divorce proved, according to a Boston paper, that his wife tore the sign from his store, put into his tea something that made him vomit, threw his clothes downstairs, filled his shoes with cold water, put swill in his overcoat pocket, threw water over him as he went downstairs, put pepper in his bed, made him sleep in an attic, wouldn't do his washing, wouldn't mend his clothes, made him darn his socks and sew buttons on his shirts, spat on his toast, when he was getting his breakfast, rocked in a squeaky chair for hours at a time to annoy him, put grease on his Sunday clothes, wouldn't let him have a fire on the coldest evenings so that he often had to go to bed at 7 p. m. to keep warm, and finally "she rubbed a butcher knife over his neck and threatened to blow out his brains."

The Worm Turned.

He loved her devotedly. He was also bowlegged. Both facts gave him pain at times.

He passed it by with a rueful smile when she merrily said that his affliction gave him such an arch look and that, after all, he was a pretty good sort when you got on to his curves. He bore it patiently when she referred to his walk as parenthetical progress. But he rebelled and broke the engagement when she called her pet dog through the wicket formed by his legs.

"I may not be so over ornamental," said he, "but I emphatically object to being made useful so unseasonably early in the game!"—Smart Set.

A Quick Witted Waiter.

During mosquito season a party of diners seated themselves at table in an outdoor restaurant, and a man of the party took the bill of fare and began to study it. A mosquito lighted upon it and instantly lost its life by a quick blow from the man, its little carcass remaining on the bill. Pointing to it, the man said to the waiter:

"Do you serve those on toast?" And the waiter promptly replied:

"They're on the bill, sir!"—New York Times.

The Origin of Johnnycake.

No doubt many others besides the writer may have wondered how johnnycake came to be thus named. When a child, I settled it for myself by imagining John Smith, whom Pocahontas saved, had something to do with it. The cake, being made of Indian meal, became thus associated in my mind with the historical name. A writer in the Housekeeper says:

In tracing the term we find ourselves at a time antedating by many years steam cars and hotels on wheels, in an age when mankind depended entirely upon his four footed companions for transportation and had only saddlebags in which to carry his luggage. Taverns were few and far apart, and a lunch was always acceptable. Cornmeal, forming so large a part of the dietary in those days, held a chief place in making up the lunch. Wet with water and a little salt added, it was baked in a shape that stored away in the saddlebags nicely and was called journey cake. This is the origin of our modern, unconventional johnnycake.

Mr. Paul Alexandre, the celebrated Automobilist, after his record-breaking run says: "The terrific strain on my nerves added to the constant pounding and jumping of my heart almost set me crazy. I was ill for days with Nervous Prostration and weakness, with dull, aching head and a bad taste in my mouth. I noticed a bottle of 'Blood Wine' in the training quarters, and took some, and it certainly did the business for me. Made my head clear, nerves steady, stomach and heart strong and healthy. 'Blood Wine' will go with me on all my trips hereafter."

To run an automobile in record-breaking time requires a cool head, steady nerve, good eye, strong pair of lungs. The expert must be free from stiffness, lameness, aches and pains. "Blood Wine" fills the first requisite; it gives him good blood. It stimulates his nerve. It hardens the muscles and makes him have greater endurance.

DISCUSSING TERMS.

It Has Been Decided That the Venezuelan Difficulty Shall Be Arbitrated.

COERCION FEARED BY CASTRO.

Balfour Declared in House of Commons that Peaceful Blockade Was Impossible—Minister Bowen Will Likely Be One of Arbitrators.

Caracas, Dec. 18.—It has been decided that the Venezuelan difficulty shall be arbitrated and the terms of discussion of settlement is now going on. United States Minister Bowen undoubtedly will be one of the arbitrators.

The government fears that coercive measures will follow the establishment of the blockade.

The leading citizens of Caracas have addressed a note to President Castro asking him to give full powers to United States Minister Bowen to effect a termination of the present difficulty. This note was transmitted to President Castro at 1 o'clock yesterday afternoon. It is signed by all the leading merchants, bankers and agriculturists of Caracas. It reflects truly the consensus of current opinion among the business element of this city. The men who signed the note met again last night to discuss ways and means of obtaining money with which Venezuela can meet her obligations as well as the guarantees which it will be possible to offer to her creditors.

The note is signed by more than 200 prominent citizens of Caracas.

Venezuelan Vessels Only.

The blockade of La Guaira, notification of which, in the names of Great Britain and Germany, was communicated to the Venezuelan government Dec. 13, went into effect yesterday. The order applies to Venezuelan vessels only.

The Italian minister left Caracas yesterday morning.

The Venezuelan newspapers are still ignorant of the fact that the Italian minister presented an ultimatum to the Venezuelan government Tuesday afternoon, and therefore there were no crowds at the railway station and no hostile demonstration. The city was quiet yesterday.

Italy Sends Cruiser.

Rome, Dec. 18.—The Italian cruiser Agordat has been ordered to proceed at once for Venezuela.

The rejection by Venezuela of the Italian ultimatum was expected, consequently the announcement that this had been done created no sensation and no surprise. During the day frequent communications were exchanged between Italy and Great Britain and Germany on the question of arbitration. The friendly attitude of the United States is particularly appreciated here. Opinion generally favors arbitration, although it is understood that Great Britain and Germany are the leaders and have priority in the present action. At the weekly diplomation reception Ambassador Meyer and Signor Prinetti had a lengthy conference on Venezuelan affairs.

Ridicules Idea of Peaceful Blockade.

London, Dec. 18.—"If the seizure of Venezuelan gunboats does not result as we all hope, it will be necessary to proceed to a blockade."

In the speech in the house of commons yesterday, during which Premier Balfour made the above statement, he conveyed the impression of possible, though as yet unnecessary, further hostilities, but that also arbitration on the same basis might be accepted.

Immediately after uttering these words the premier said that in the event of a blockade no difference would be made between the ships of neutral powers, who would not be consulted. He then ridiculed the idea of a peaceful blockade. When he said: "I think it quite likely that the United States government would not think there is such a thing as a pacific blockade, and I personally take the same view that evidently a blockade does involve a state of war."

The house expressed its approbation. Throughout the discussion the tenor of questions and answers showed regard for the views of the United States. Mr. Balfour assured the house that the papers in the Venezuelan matter were in course of being prepared as rapidly as possible, and answering a question by Sir William Vernon Harcourt, he said they would include the communications with reference to Venezuela, which had passed between his majesty's government and the United States. Sir William Vernon Harcourt asked this question: "So we may know how we stand with reference to the government of the United States?"

Premier Balfour gave no hint to the house as to the ultimate result of the arbitration proposal and nothing further in this respect has been given out at the foreign office.

Minister Bowen Given Assistant.

Washington, Dec. 18.—The following cablegram was sent yesterday by the navy department to Admiral Dewey, in command of the combined fleets, addressed to San Juan:

"Send competent officer with dispatch in torpedo boat destroyer or other vessel to Caracas as assistant to American minister."

The following cablegram also was sent to Commander Diehl, of the Marietta, now lying at La Guaira:

"Send Van Duseen (executive officer of the Marietta) as assistant to the American minister temporarily."

The officer from Dewey's fleet will relieve Lieutenant Commander Van Duseen, who is only an hour distant from Caracas, when he arrives upon the scene. While no explanation is given for the above orders it is believed that these measures are being taken to guard against an interruption in the cable connecting Mr. Bowen with his home government.

It was stated at the navy department that one reason for sending the officers to Caracas was the fact that Mr. Bowen is almost overwhelmed with the amount of work imposed upon him by his many charges.

No Effort to Resist.

There will be no effort on the part of this government to resist a war blockade of the Venezuelan coast as against merchant ships. Custom requires that due notice shall be given of the blockade, and that fact, taken in connection with the declarations that have been made in the British parliament by the authorized representatives of the British government, will, it is understood, be sufficient to justify all neutral nations in the understanding that a state of war does actually exist. This might in the end require the issue of a proclamation of neutrality by President Roosevelt, but this, it is stated, would not be timely now.

GENERAL FOREIGN NEWS.

Marseilles, Dec. 18.—The strike is at an end. The sailors have voted to resume work today.

Rome, Dec. 18.—It is reported that Bishop James E. Quigley, of Buffalo, N. Y., has been appointed archbishop of Chicago in succession to the late Archbishop Feehan.

San Juan, P. R., Dec. 18.—The exercising of the American fleet in squadron formation was continued yesterday. The Texas arrived here Tuesday and has taken her place in the battleship fleet.

Vienna, Dec. 18.—According to dispatches from Hungary 63 persons were frozen to death there during the last three days. Wolves are devastating the sheep folds and have devoured three shepherds.

St. Petersburg, Dec. 18.—It is announced in a special dispatch from Seoul that the United States minister to Corea has demanded the payment of $1,500,000 due to the builders of the electric railroad.

Port Au Prince, Hayti, Dec. 18.—Order has been re-established here. During the fighting Tuesday a number of persons were wounded, including two Italians, who were seriously injured. Two men accused of committing crimes were executed during the day without trial. The United States legation is protected by troops.

San Juan, P. R., Dec. 18.—Collector Cruzen yesterday seized several hundred cases of liquors which had been brought from St. Thomas on board the United States lighthouse tender Laurel. It is reported that certain army and navy officers, as well as some prominent citizens of San Juan, are implicated in the matter.

SHOT HERSELF IN HEAD.

Woman Commits Suicide Through Fear of Insanity.

Cleveland, Dec. 18.—Mrs. W. W. Jones, wife of a railroad station agent at Rockport, O., shot herself in the head in front of the postoffice late yesterday afternoon and died at 3 o'clock last night in a hospital. The husband of the dead woman gives as a cause for the deed her belief that she was becoming insane and she had been heard to say that she would rather be dead than have to go to an asylum.

The woman shot herself immediately after receiving a letter at the general delivery of the postoffice. She fell to the sidewalk while hundreds of persons were passing by, and the sight of the woman gasping for breath, while the blood was streaming from the bullet wound, caused intense excitement.

THE WAGE QUESTION.

Fairness of Statement Hardco in By the Pennsylvania Company Challenged.

OPERATORS OPEN THEIR CASE.

Attorneys Representing Non-Union Men Began Calling Witnesses Yesterday—Deputy Factory Inspector Examined Regarding Child Labor.

Scranton, Pa., Dec. 18.—The anthracite coal operators opened their side of the controversy with the mine workers yesterday before the strike commission and the attorneys who are on record before the commission as representing the non-union men, who have been admitted to the arbitration scheme, began calling witnesses. The sessions yesterday were probably the liveliest yet held by the commission. At the morning session the miners' lawyers challenged the fairness of certain wage statements handed to the commission by the Pennsylvania Coal company, and in the afternoon Lawyer Darrow had a spirited discussion with Chairman Gray as to whether or not the miners had a right to know who is paying the lawyers representing the non-union men before the commission. Mr. Darrow asserted they were employed by the coal operators. The commission decided it was immaterial who was back of the non-union men.

Preceding this Simon P. Wolverton, counsel for the Reading company, who delivered the opening address on behalf of all the large coal companies, made the point in his address that the recognition of the union is not an issue before the commission, which brought out a protest from Mr. Darrow. The latter claimed that if it were not, then the operators should be forbidden from presenting testimony that tended to show the union was responsible for all the alleged violence committed during the strike.

Child Labor.

The alleged unfairness of the wage statements came to the notice of the commission as a result of its inquiry into the child labor question in this immediate vicinity. Several little girls testified on Monday that they worked all night in a silk mill in order to help their fathers along, who were employed in the mines and received poor pay. Yesterday Everett Warren, who represents the Erie company, which controls the Pennsylvania Coal company, in whose mines some of these fathers worked, handed to the commission a memorandum showing that one father last year received about $1,400 for himself and laborers, and the other father received $1,600 for himself and laborers. At the opening of the session yesterday the miners placed the two parents on the stand, and they swore that the earnings mentioned was divided among from four to six men. This testimony surprised the commission, and Judge Gray asked if the figures on the memorandum were taken from the wage statement already filed by the company with the commission, and Mr. Warren replied in the affirmative.

Explained System.

The company through its general manager, W. A. May, was permitted to make a statement. He said: "The Pennsylvania Coal company has two systems, one where four men work in a place and known as a four-handed place, and then they have another in which there are only two men. The place in which these two men work is commonly known as a two-handed place. There may be places where only one man works and there may be places where there are four men working, but that fact is not known to the company itself. The company does not keep a record of the individuals in a contract or the number. It only keeps the name of the man in whose name the place is run. It can be possible that in that place there are more men than the company has any cognizance of, but that is entirely outside its province.

The company, he said, does not pay the laborer; it only pays the man in whose name the place appears.

Challenged Good Faith.

In discussing the matter Mr. Darrow directly challenged the good faith of Mr. May, who handed the figures to the company's attorney for presentation to the commission and said it was unfair to have given them to him or to the commission without indicating how many workmen's earnings were represented in them.

This ended the matter, and the commission examined a deputy factory inspector regarding child labor and suggested that the legislature of Pennsylvania be permitted to improve the factory inspection laws.

The miners here rested their case and Mr. Wolverton formally opened the operators' side of the controversy by reading a statement which represented the views of all the large coal companies.

Ira H. Burns one of the attorneys for the independent operators, then presented the opening statement of the individual companies.

It was arranged that the attorneys representing the non-union men should first call their witnesses and five witnesses were produced who testified that strikers had killed one man and had more or less seriously annoyed two other men who worked during the suspension.

At 5 o'clock the commission adjourned until this morning.

Woman's Nerves

Give Warning of Approach of More Serious Trouble.

Do you experience fits of depression with restlessness, alternating with extreme irritability, bordering upon hysteria? Are your spirits easily affected so that one minute you laugh, and the next fall into convulsive weeping?

Do you feel something like a ball rising in your throat and threatening to choke you; all the senses perverted, morbidly sensitive to light and sound; pain in the ovaries, and especially between the shoulders; sometimes loss of voice; nervous dyspepsia, and almost continually cross and snappy, with a tendency to cry at the least provocation?

If so, your nerves are in a shattered condition, and you are threatened with nervous prostration.

Undoubtedly you do not know it, but in nine cases out of ten this is caused by some uterine disorder, and the nerves centering in and about the organs which make you a woman influence your entire nervous system. Something must be done at once to restore their natural condition or you will be prostrated for weeks and months perhaps, and suffer untold misery.

Proof is monumental that nothing in the world is better for this purpose than **Lydia E. Pinkham's Vegetable Compound**; thousands and thousands of women have written us so.

How Mrs. Holland, of Philadelphia, suffered among the finest physicians in the country, none of whom could help her—finally cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—For over two years I was a constant sufferer from extreme nervousness, indigestion, and dizziness. Menstruation was irregular, had backache and a feeling of great lassitude and weakness. I was so bad that I was not able to do my own work or go far in the street. I could not sleep nights.

"I tried several splendid doctors, but they gave me no relief. After taking **Lydia E. Pinkham's Vegetable Compound** I soon began to feel better, and was able to go out and not feel as if I would fall at every step. I continued to take the medicine until cured.

"I cannot say enough in behalf of Lydia E. Pinkham's medicine, and heartily recommend all suffering women to try it and find the relief I did."—MRS. FLORENCE HOLLAND, 622 S. Clifton St., Philadelphia, Pa. (Jan. 6, 1902.)

Another case of severe female trouble cured by Lydia E. Pinkham's Vegetable Compound, after the doctors had failed.

"DEAR MRS. PINKHAM:—I was in poor health for several years. I had female trouble and was not able to do my housework alone. I felt tired, very nervous, and could not sleep. I doctored with several doctors. They doctored me for my stomach, but did not relieve me. I read in your book about your medicine, and thought I would try it. I did so, and am now cured and able to do my work alone, and feel good. I was always very poor, but now weigh one hundred and fifty pounds.

"I thank you for the relief I have obtained, and I hope that every woman troubled with female weakness will give **Lydia E. Pinkham's Vegetable Compound** a trial. I have recommended it to many of my friends."—MRS. MARIA BOWERS, Millersville, Ohio. (Aug. 15, 1901.)

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all of the virtues of this medicine?

How shall the fact that it will help them be made plain?

Surely you cannot wish to remain weak, and sick, and discouraged, exhausted with each day's work. You have some derangement of the feminine organism, and Lydia E. Pinkham's Vegetable Compound will help you just as surely as it has others.

Refused to Appoint Receiver.

Trenton, N. J., Dec. 18.—Vice Chancellor Reed yesterday filed an opinion in which he refused to appoint a receiver for the Person & Riegel company, which conducts department stores at Bethlehem, Pa., and other places. The vice chancellor held that the evidence presented was not sufficient to warrant the appointment of a receiver.

etc., and enlarge small weak organs to full size and vigor. Simply send your name and address to Dr. Knapp Medical Co., 739 Hull Building, Detroit, Mich., and they will gladly send free receipt with full directions so that any man may easily cure himself at home. This is certainly a most generous offer, and the following extracts taken from their daily mail show what men think of their generosity.

"Dear Sirs—Please accept my sincere thanks for yours of recent date. I have given your treatment a thorough test and the benefit has been extraordinary. It has completely braced me up. I am just as vigorous as when a boy and you cannot realize how happy I am."

"Dear Sirs—Your method worked beautifully. Results were exactly what I needed. Strength and vigor have completely returned and enlargement is entirely satisfactory."

"Dear Sirs:—Yours was received and I had no trouble in making use of the Receipt as directed and can truthfully say it is a boon to weakmen. I am greatly improved in size, strength and vigor."

All correspondence is strictly confidential, mailed in plain sealed envelope. The receipt is free for the asking and they want every man to have it.

Flood Situation Relieved.

Memphis, Tenn., Dec. 18.—The flood situation in this section was practically relieved last night. All railroads entering the city, except the Illinois Central, have repaired the damage to their lines, and trains are arriving and departing nearly on schedule time. The Illinois Central, north of Memphis, is still cut off by a washout and damaged roadbed near St. Elmo, six miles distant. Trains are being run over the Louisville and Nashville by way of Milan. The break will be repaired soon.

To Prepare Ballot Reform Bill.

Harrisburg, Dec. 18.—George W. Guthrie, of Pittsburg, ex-Attorney General W. U. Hensel, of Lancaster, and ex-Representative John H. Fow, of Philadelphia, have been appointed by Chairman Creasy for the Democratic state committee, members of the committee appointed recently to prepare ballot reform legislation to be presented at the next session of the legislature.

Unknown Vessel Wrecked.

Picton, Ont., Dec. 18.—An unknown vessel went ashore on Salmon Point some time during Tuesday night and went to pieces yesterday. A lifeboat was dispatched to the scene of the wreck, but arrived too late. No signs of life were noticed on board the vessel and no trace of the crew has been found.

REALM OF SPORTS

BOXING UNDER STATE LICENSE

New York Will Be Asked to Legalize and Take Charge of Sports.

STATE TO BE BENEFICIARY

A Boxing Commission Appointed By the Governor to Have Undisputed Power in the Matter—Fake Fighters to Be Barred.

New York, December 18.—The men who are handling the new boxing bill which will be presented to the legislature next month are confident of its passage, but are not sure of its success upon reaching the governor. Last year Assemblyman John T. Dooling framed a bill to legalize amateur boxing in the state, which, it is thought, would have passed both houses, but the athletic clubs of this city could not agree upon some points, and the bill was not introduced.

The present bill, however, is not for amateurs alone. It will provide for bouts between professionals and amateurs, no matter how prominent, the sport to be governed by rigid rules.

The state, according to provisions, will be a beneficiary, as a certain percentage of the gross receipts of each contest, no matter how small, will be turned over to the state treasurer, just as the racing associations are assessed yearly a tax in the shape of a percentage of the gate receipts.

The creators of the bill believe that the state must also take absolute control of the sport, in the shape of appointment of a state boxing commission, composed of five experts of recognized ability and integrity, who will have undisputed power. The commissioners shall be appointed by the governor, and it shall be their duty to license clubs, the number in each town to be limited as to the size of the population; to sanction all matches, to issue licenses to boxers, their managers, seconds and other attendants; to appoint a corps of official referees, timekeepers, masters of ceremony and a board of state inspectors of boxing, who must attend all contests, make sure that boxers are physically fit before entering the ring, and also see to it that the state's interests are looked out for at the gates.

There will be not more than four clubs in Greater New York, two in Manhattan borough and two in Brooklyn. The licenses for these clubs will be awarded to persons who can satisfy the commissioners as to their financial responsibility and past records in the game. It is safe to say that in case the bill becomes a law the commissioners will not license a club conducted by a person who is in any way was mixed up in the fake fights that were the means of killing the law in this state. With four clubs operating in the Greater city, there will be two in Buffalo, Rochester and Syracuse, while one will be enough for the sports in Birmingham, Albany, Troy, Utica and other cities in their class.

In licensing fighters and their managers and seconds, the idea is to keep out objectionable persons who may in the past have been mixed up in some fraud of which the sporting public is well aware. If a fighter, known to be guilty of faking or crooked dealing, applies for a license he will be turned down immediately. So will managers trainers and others who cannot present a clean bill of health. It will be the province of the commissioners to revoke a license as easily as they can grant one. The state inspectors can make reports of the matters calculated to hurt the game and upon a repetition of the offense, after due warning, the license of a club can be revoked at once. A fighter or any other person involved in the game can be ruled out of the big clubs, and, in fact, all the clubs as soon as it can be shown that they are not living up to the requirements, or that they are guilty of behavior that will not do the sport any good.

Another important stipulation in the bill is that all contests must be limited to 10 rounds of three minutes each and that the referee shall have absolute power to stop a contest or let it go on. Those who are behind the bill say there is as much real action in a 10-round bout as in the old 25-round affairs, which were often drawn out in such a way that the crowd became grievously disappointed.

There has been some talk about including a clause barring heavyweights from competition, but as a matter of fact, fights between big men are less calculated to produce harmful results than the matches between smaller pugilists, who, because of light physique, are really unable to stand the strain in the ring as well as the fighters in the Jeffries, Corbett, Fitzsimmons class.

It would be left to the state inspector to select the gloves for each contest; to decide all disagreements; to see that referees enforced the rules to the letter, and to have the power to suspend a boxer or an official on the spot if there might be any evidence of wrongdoing. Clubs applying for licenses must show a membership of 500; must own the club house and arenas, or must hold long leases for the game, and must also put up a forfeit bond with the commissioners so as to protect boxers and others against losing shows.

The referees must all be appointed by the commissioners, and they must be men of recognized ability. They will receive a stated salary from the commissioners, the clubs having nothing to do with the selection of a referee to preside at their bouts.

McClelland Challenged.

Hughey McPadden, confident of victory over Jack McClelland, of Pittsburg, proclaims that he will put up $1,500 on his chances tonight. "I simply know what I can do," said he tonight. "If I do not dispose of McClelland I am surely going back. However, I have $1,000 at my command to say I am still in business." McPadden's statement was shown to McClelland. The latter merely remarked: "If he wants a bet I guess Pittsburg can furnish it."

Ferns vs. Matthews.

Rubs Ferns, who meets Matty Matthews in Allegheny next Monday night in a 10-round contest, is matched to meet Snowey Sturgon, of Sydney, Australia, for a $2,500 purse in March. Sturgon is the welterweight champion of Australia. After Ferns' contest with Matthews he will take on any of the white welterweights and later will leave for San Francisco and sail for Australia.

Bidding High For a Fight.

The Philadelphia Penn Art A. C.'s purse offer of $3,000 for a six round bout between Bob Fitzsimmons and Gus Ruhlin has stirred up the Chicago fight promoters, and now many of the matchmakers of clubs in that city are bidding for the contest. One offer of $7,000 or 50 per cent. of the gross receipts for the men to meet in a six-round bout some time next month, or early in February, has been made. It has been wired to Fitzsimmons and Billy Madden, manager of Ruhlin. Madden will surely accept the percentage offer as he is anxious to have Ruhlin fight Fitzsimmons.

THE TRYING TIME

In a young girl's life is reached when Nature leads her uncertain steps across the line which divides girlhood from womanhood. Ignorance and neglect at this critical period are largely responsible for much of the after misery of womanhood. Not only does Nature often need help in the regular establishment of the womanly function, but there is almost always need of some safe, strengthening tonic, to overcome the languor, nervousness and weakness, commonly experienced at this time.

Dr. Pierce's Favorite Prescription establishes regularity. It is a strengthening tonic, soothing the nerves, encouraging the appetite and inducing restful sleep. It contains no alcohol neither opium, cocaine or other narcotic.

"I wish to tell you the benefit we have received from using your remedies," writes Mrs. Dan Hall, of Brodhead, Green Co., Wis. "Two years ago my daughter's health began to fail. Everything that could be thought of was done to help her but it was of no use. When she began to complain she was quite stout, weighed 170, the picture of good health, until about the age of fourteen, then in six months she was so run down her weight was but 120. She kept failing and I gave up, thinking there was no use, she must die. Friends all said, 'You will lose your daughter.' I said I fear I shall. I must say, doctor, that only for your 'Favorite Prescription' my daughter would have been in her grave to-day. When she had taken one-half bottle the natural function was established and we bought another one, making only two bottles in all, and she completely recovered. Since then she is as well as can be."

Deadly

LaGrippe Caused Heart Trouble,

Nervous Prostration and Dyspepsia.

My Friends Know Heart Cure Cured Me.

Mrs. C. O. Hurd, 118 W. Third St., Muscatine, Ia., is well known throughout her section of Iowa as an ardent worker in the M. E. Church. She says: "LaGrippe left me with a severe case of nervous depression and nervous dyspepsia, which soon affected my heart. I suffered from sleeplessness, headache, extreme nervousness and twitching of the muscles. The slightest exertion would cause shortness of breath, a numbness of my body and hot flashes with pain. I will tell you what I am constantly telling my friends—that Dr. Miles' Heart Cure cured me so that all these disagreeable symptoms left me. I may add that for severe pain I have never found anything to equal Dr. Miles' Anti-Pain Pills and think the Nerve and Liver Pills are a wonderful stomach remedy."

"Our son was stricken down with heart trouble in his twentieth year. For two months we got no sleep with him at night, so we commenced to use Dr. Miles' Heart Cure and Nervine with the Nerve and Liver Pills and today he is sound and well. In fact he passed a physical examination since his sickness and is with the Army in the Philippines. I desire to add that Dr. Miles' Anti-Pain Pills have certainly been a boon to me. I am frequently troubled with sick and nervous headaches and I have never found anything that would relieve me so quickly and leave me feeling so well thereafter."—Mrs. Alice Moad, Buffalo, Mo.

FREIGHTS COLLIDE HEAD ON.

One Man Killed and Six Injured—All the Victims Were Caught in the Wreckage.

Pittsburg, Dec. 18.—In a head-on collision between freight trains on the Redstone branch of the Pittsburg, Virginia and Charleston railroad yesterday afternoon about 1 o'clock, one man was killed and six others, all railroaders, were injured. Five victims of the wreck were brought to the West Penn hospital last evening about six o'clock. The dead:

John McCoy, engineer, 48 years old, of No. 2708 Cobden street, South Side, Pittsburg.

The injured:

George Gray, fireman, of Pittsburg, left foot cut off above the ankle and badly scalded about the body; condition critical.

David Patterson, engineer, 28 years old, of West Brownsville, wounded on left knee and cut on forehead; will recover.

John Martin, brakeman, 28 years old, of Arlington avenue, South Side, Pittsburg, nose broken and face scalded; wounds dressed and sent home.

Charles Woody, brakeman, 28 years old, of Second street, California, Pa., contusion of knee and shoulders.

W. H. Sergeant, fireman, of West Brownsville, internally injured and crushed.

I. C. Campbell, flagman, of Brownsville, scalded and crushed.

The accident occurred about one mile from West Brownsville junction, between freight No. 198, in charge of Engineer McCoy and Fireman Gray, and freight No. 1289, in charge of Engineer Patterson.

The trains were running at high speed and before the men in the engines had a chance to jump the crash came, and they were caught in the wreckage.

General Advance.

Toledo, Dec. 18.—The Ann Arbor Railroad company yesterday announced a general advance of from 5 to 7 per cent in the wages of all employes of the system. This makes a general advance of 10 per cent during the past year.

Stepped in Front of Train.

Lancaster, Pa., Dec. 18.—Henry Miller, of Columbia, a Pennsylvania railroad conductor, stepped from his train at Atglen yesterday evening directly in front of the St. Louis express and was instantly killed.

Senate Passed Pension Appropriation Bill, Carrying $139,847,000, Without Demur.

LOWER BRANCH AFTER TRUSTS.

Passes Amendment to Appropriate Funds to Enforce Sherman Anti-Trust Law and to Direct Attorney General to Prosecute Violations.

Washington, Dec. 18.—The senate yesterday passed the pension appropriation bill without discussion. It carries $139,847,000. An urgent deficiency bill also was passed. The amount carried by this bill is $1,140,400, and includes an item of $500,000 to enable the secretary of agriculture to stamp out the foot and mouth disease, which has become epidemic in the New England states.

The militia bill was up for a short time, Mr. Bacon, of Georgia, continuing his remarks against the constitutionality of the provision for a reserve force of trained men.

At 2 o'clock Mr. Kean, of New Jersey, called up the resolutions expressing the regret of the senate at the death of the late Senator Sewell, of New Jersey, and feelingly spoke of the life and character of the deceased. Addresses were made by other senators.

At 4:05 p. m. the senate, as a further mark of respect, adjourned until Saturday.

In the House.

Washington, Dec. 18.—Mr. Bartlett, a Georgia Democrat, during consideration of the legislative appropriation bill in the house yesterday, unexpectedly and without warning, sprung an amendment to appropriate $250,000 to enforce the Sherman anti-trust law, and to direct the attorney general to proceed to the prosecution of all violators of the law. Although such a provision was plainly amenable to a point of order, not a member on either side of the house raised objection. Both sides wheeled into line, and all agreed that some such action was advisable. Some of the Republicans, however, raised objection to the looseness of the language of the amendment, and Mr. Hepburn, of Iowa, offered as a substitute for it, the language of the bill he introduced on the opening day of the session, to appropriate $500,000 for the enforcement of the law. This was further strengthened to make the appropriation immediately available, and as amended the substitute was agreed to without division. The legislative bill was passed practically as it came from the committee, except for the amendment.

Jan. 31, at 3 o'clock, was fixed as the time for holding the exercises in connection with the acceptance of the statues of Charles Carroll and John Hansen, Maryland's contribution to statuary hall.

NATIONAL CAPITAL NEWS.

Assistant Secretary of the Treasury has selected a site for a federal building at Allentown, Pa., on the southwest corner of Turner and Sixth streets, the price being $20,500.

The tendency to combine continues the most significant feature of railway development, according to the annual report of the interstate commerce commission, issued yesterday.

Special Agent J. F. Evans, stationed at El Paso, Texas, has reported to the secretary of the treasury the seizure at El Paso of diamonds, said to be worth $24,000 and which, it is claimed, were smuggled from England via New York.

The senate committee on foreign relations yesterday devoted an hour and a half to hearing reports from the Maine and Massachusetts fishery interests, in opposition to the Hay-Bond treaty for reciprocity between the United States and Newfoundland.

Senator Hoar yesterday secured permission from the senate to file with the secretary of that body, while the senate is not in session, a bill for the regulation of trusts. He did not state the nature of his bill, but said he would prepare and file it before next Saturday.

Unofficial advices have reached here that China intends to pay the next instalment of the Boxer indemnity in silver. The reports indicate that China is driven to this course by the fact that all of her revenues are payable in silver and the great internal financial strain makes it impossible to obtain gold.

Rerpresentative Fowler, chairman of the house committee on banking and currency, introduced a bill yesterday which was drawn by him in accordance with the views of the Republican members expressed at recent conferences, and which will be urged instead of the currency bill reported to the house at the last session.

Senator Depew yesterday introduced a bill authorizing the issuance of emergency currency by the treasury department. It provides that such currency shall be supplied to any national bank with a capital of not less than $50,000 to the extent of 50 per cent of the bank's capital. The extra capital so, however, to be supplied only in case of a stringency in the money market sufficiently serious to jeopardise values and imperil the commercial business interests of the country.

HOME AFFAIRS.

Brief Notes of a Personal Nature And of Matters About Town.

Extra Help—An extra clerk has been put on at the postoffice to help out during the holiday rush.

A Fine Lecture—Rev. J. P. Anderson, of Lisbon, who has lately returned from an extended tour of Asia, delivered a very interesting lecture on "Mission Work in Syria" at the First Presbyterian church last night.

Private Telephone Line—The Bell Telephone company is about to construct a line from Pittsburg to Wellsville which will be for the exclusive use of the American Sheet Steel company between its local office there and its office in Pittsburg.

Christmas Programs—The announcement has been made that special Christmas exercises will be held at the city schools on Friday. This announcement is only partially correct. Each separate room in the different schools will hold special exercises next Friday afternoon appropriate to Christmas. Considerable time has been taken by the pupils of the various schools and the exercises promise to be very entertaining.

Successful Revival — The revival meeting at the Free Methodist church on Avondale street is going on with increasing interest. Many people are getting saved on the bible line. Two clear conversions were made last night. One of them sounded notes of the good tidings all the way from the church to her home on Second street. Rev. A. D. Zahniser will preach tonight from a subject that will interest all.

ing the first act the lady sang a solo, which was applauded to the echo.

The character of Mrs. Rutledge was never in better hands than upon this occasion. Miss Nancy Taylor impersonated a haughty southern aristocrat, and the effort was perfection itself. in her carefully arranged costume Miss Taylor made an impression that won warm commendation.

Farmer Elliott's wife was one of the best and most amusing persons in the cast. The part was taken by Mrs. Albert Louther, and she added much to the comedy feature of the piece.

The tableaux were said to be the most beautiful ever witnessed at the Grand, and much credit is due the young ladies who contributed to the success of this part of the performance.

CRIPPS HAS SOLD OPERA HOUSE STOCK

Disposed of a Half Interest in the Property to Charles Fisher—Reported Consideration, $16,000.

Charles Fisher, a well known merchant, has purchased from S. J. Cripps his share of one-half in the Grand opera house property. Mr. Cripps will still continue as manager.

It is reported that the consideration was $16,000. Dr. W. N. Bailey and W. T. Burton still retain their interests in the property.

The stockholders will soon meet to discuss plans for the future and for possible improvements.

Christmas Eve Party.

Invitations have been issued announcing the party of Miss Florence Louthan, daughter of Mr. and Mrs. B. M. Louthan. The event will occur on Christmas eve, and will be one of the large and elaborate functions of the holiday time, as Miss Louthan is very popular in social circles. Dancing will be the diversion of the evening.

Basketball Tonight.

The Y. M. C. A. basketball team will play the Freedom boys tonight at the Y. M. C. A. building. The local boys have won 10 straight games, including 3 this season. The lineup of the local team is as follows: Forwards, Allison, Bloor; center, Rigby; guards, Chadwick, Watkins; substitutes, Powell.

New Club Organized.

A new social club, composed of about 15 well known young men, has been formed in this city. John Hughes is president, John Hagen vice president and M. Haddock secretary. It is called the Acme club and has quarters in the Seanor building. Its first function, a dance, will be given this evening.

Licensed to Marry.

Lisbon, December 18.—(Special.)—Samuel L. Swindells and Fannie F. Beardmore, both of East Liverpool, have been granted a marriage license.

A Vacuum Pressure Experiment.

Chemical science has taught us how to overcome the dreaded diseases that have swept away whole cities in the past. It has taught us the manufacture of explosives and munitions of war and has made possible the greatly improved modes of travel, and it may be truly said that to chemistry we owe the most material progress the world has made.

While this little experiment will not deal with the hidden secrets that live in the famous laboratories or treat upon the mystic powers of viscosity and relegation, it will show what power the absence of air has in attracting movable substances into the place that has been vacated by the air. Few think when they breathe the atmosphere that surrounds them that it has a pressure of fifteen pounds to the square inch or that it can attract even a piece of iron into the space which it leaves.

For an example of the strength of air take any tumbler, fill it about half full of tissue paper, set fire to the paper, turn over the glass in a basin containing water about one-half inch deep and then watch the water ascend the interior of the glass.

Didn't Know His Own Child.

At Antietam, just after the artillery had been sharply engaged, the Rockbridge (Va.) battery was standing waiting orders. General Lee rode by and stopped a moment. A dirty faced driver about seventeen said to him:

"General, are you going to put us in again?"

Think of such a question from such a source to the general of the army, especially when that general's name was Lee!

"Yes, my boy," the stately officer kindly answered, "I have to put you in again. But what is your name? Your face seems familiar somehow."

"I don't wonder you didn't know me, sir," laughed the lad, "I'm so dirty. But I'm Bob."

It was the general's youngest son, whom he had thought safe at the Virginia Military Institute. "God bless you, my son; do your duty," and the general rode on.

Our shoes are the most comfortable because we fit them properly and we have the proper shapes.

Monkey Policemen.

In Hindustan monkeys are made useful, and they do police duty after a fashion and often really assist the police in quelling disturbances or suppressing riots. Sometimes these four handed policemen act as protectors to the weak and helpless, as this incident will show:

At Agra on the platform of a public warehouse a little street arab had spread his rug in the shade of a stack of country produce and had just dropped asleep when one of the wealthy residents strolled up with a pet leopard that had learned to accompany him in all his rambles.

A troop of monkeys had taken post on the opposite side of the shed, but at sight of the spotted intruder the whole gang charged along the platform and, instantly forming a semicircle about the little sleeper, faced the leopard with bristling manes, evidently resolved to defeat the suspected purpose of his visit.

Ocean Cliffs Set on Fire by Waves.

It is not often that the waves of the ocean can set cliffs afire, but they do sometimes. At Ballybunnion, on the west coast of Ireland, the waves which for unnumbered centuries have been beating against the shores one day broke into a great deposit of iron pyrites and alum. A rapid oxidation took place which produced a fierce heat and set the whole cliff to burning. For weeks the cliff burned like a volcano, and great clouds of smoke and vapor rose in the air. When the fire died out, great masses of lava and clay burned to brick were seen in every direction.

In the arctic regions there is another such burning cliff, which when last seen was on fire for twenty miles. The burning material was composed largely of lignite, but is believed to be made up of several other combustible chemical substances, which had been set on fire when the waves reached them.

Sugar and the Hygienists.

Sugar is doubtless a food. It is a food of great energy. But we must not abuse it, says the Revue Scientifique. Why? Because, according to M. G. Bunge, the physiologist, pure cane sugar is lacking in lime and iron. Now, lime and iron are necessary to the organism. It is better to take the sugar in the form of legumes and fruits rich in hydrocarbons. And what is honey worth? Very little also. It has the same inconveniences—it also is wanting in lime and iron.

It will be observed, however, that if we consider all the advantages which, according to the hygienists, attach to various foods, we shall find that it is almost impossible to get any nourishment at all if we want to adjust our diet to scientific teaching.—Literary Digest.

At Home and Abroad.

A few days ago an elderly gentleman and his wife were walking along the street when a lady in crossing the road fell down. The old gentleman rushed to her assistance and helped her in every possible way. When he returned to his wife, she looked like a thundercloud.

"It's all right; it's all right," he whispered.

"Yes, I know it's all right!" she replied hotly. "Here's an unknown woman falls down, and you plow across the street to help her, and the other day, when I fell downstairs, you wanted to know if I was practicing for a circus."

TWENTIETH YEAR. No. 299.

A Man's Home is His Castle.

DO YOU OWN YOUR OWN CASTLE OR ARE YOU PAYING A LANDLORD SO MUCH PER MONTH FOR A PLACE TO LIVE IN? EVERY MONTH'S RENT IS THE INTEREST, TAXES, INSURANCE AND LANDLORD'S PROFITS ON THE HOUSE YOU DO NOT OWN.

START THE NEW YEAR

With a determination to own your own home and we will help you do it. Many a thrifty, honest man has only a handful of rent receipts to show for long years of toil and struggle.

We Will Loan You Money to Build

on easy terms and you can pay part or all your loan at any time. THE ADVANTAGES WE OFFER TO BORROWERS is a definite contract for a specified payment for any number of years from 1 to 11. Your interest reduced each six months by charging you interest only on the balance still due. Advance payments can be made at any time still farther reducing the amount on which interest is charged. Repayment of loan can be made at any time.

The Key to Wealth is Systematic Saving

It is not what you earn but the amount you save that counts. If you want to become rich and do it honestly so that it will be a comfort to your family the best thing is to commence today to save. We pay six per cent. interest on savings accounts and interest commences the day you deposit with us.

Have You Any Surplus Money?

If you have bring it to us and we we will issue you paid-up stock for it and pay you six per cent. interest on it. Six dollars a year on every hundred invested is better than most investments you can make and you have the assurance that your money is in an absolutely safe place.
